PKPOWER 78097 78009

PK Power AC/DC Adapter User Manual

For Sportcraft Electronics Dartboard Models: 78097, 78009

Brand: PKPOWER | Model: 78097, 78009

Introduction

This manual provides essential information for the safe and effective use of your PK Power AC/DC Adapter. This adapter is specifically designed to provide power to Sportcraft Electronics Dartboard Models 78097 and 78009, serving as a reliable power supply cord, cable, or charger.

Safety Information

WARNING: This product can expose you to chemicals including lead, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

Always follow basic safety precautions when using electrical products to reduce the risk of fire, electric shock, and injury to persons, including the following:

- Read all instructions before using the product.
- Do not expose the adapter to rain or moisture.
- Do not use the adapter if it has been damaged in any way.
- Disconnect the adapter from the power outlet when not in use.
- Ensure proper ventilation around the adapter during operation.
- Keep out of reach of children.

Image: An illustration highlighting the adapter's multiple protection features, including over voltage, over current, over temperature, quality microchip, electromagnetic wave, and short circuit protection.

Setup

The PK Power AC/DC Adapter is designed for simple plug-and-play operation. Follow these steps to set up your adapter:

1. **Identify the Dartboard's Power Port:** Locate the power input port on your Sportcraft Electronics Dartboard (Models 78097 or 78009). This is typically a circular port.
2. **Connect the Adapter Cable:** Insert the barrel connector end of the PK Power AC/DC Adapter cable firmly into the power input port of your dartboard.
3. **Connect to Power Outlet:** Plug the two-prong AC plug of the adapter into a standard 100-240V wall power outlet.
4. **Verify Connection:** Ensure both connections are secure. The dartboard should now receive power.

Operating Instructions

Once the adapter is properly connected, your Sportcraft Electronics Dartboard will be powered on and ready for use. The adapter provides a continuous and stable power supply.

- The adapter is designed for continuous operation.
- No user interaction is required for the adapter itself once connected.
- Refer to your Sportcraft Electronics Dartboard's manual for specific operating instructions for the dartboard itself.

Maintenance

Proper maintenance ensures the longevity and safe operation of your PK Power AC/DC Adapter.

- **Cleaning:** Disconnect the adapter from the power outlet and the dartboard before cleaning. Use a soft, dry cloth to wipe the exterior of the adapter. Do not use liquid cleaners or abrasive materials.
- **Storage:** When not in use for extended periods, store the adapter in a cool, dry place, away from direct sunlight and extreme temperatures. Coil the cable loosely to prevent kinks or damage.
- **Inspection:** Periodically inspect the adapter and cable for any signs of damage, such as frayed wires, cracked casing, or bent prongs. If damage is found, discontinue use immediately and replace the adapter.

Troubleshooting

If you encounter issues with your PK Power AC/DC Adapter, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
Dartboard not powering on.	Adapter not properly plugged into wall outlet.	Ensure the adapter is securely plugged into a working wall outlet. Test the outlet with another device.
Dartboard not powering on.	Adapter cable not securely connected to dartboard.	Ensure the barrel connector is fully inserted into the dartboard's power port.
Dartboard not powering on.	Damaged adapter or cable.	Inspect the adapter and cable for visible damage. If damaged, replace the adapter.
Intermittent power to dartboard.	Loose connection.	Check all connections to ensure they are tight.

Specifications

The following are the technical specifications for the PK Power AC/DC Adapter:

- **Input:** 100-240V AC, 50-60Hz

- **Protection Features:** Over Voltage Protection (OVP), Over Current Protection (OCP), Short Circuit Protection (SCP)
- **Certifications:** CE, FCC, RoHS certified
- **Included Components:** 2 x 10 ft cable
- **Connector Type:** Barrel connector
- **Compatible Devices:** Sportcraft Electronics Dartboard Models 78097, 78009

Image: Diagram illustrating the dimensions of the adapter: 1.18 inches (width), 1.58 inches (depth), 2.92 inches (height), and a cable length of 1.2 meters (4 feet).

Note on cable length: The product specifications mention "2 x 10 ft cable" while the dimension image indicates a cable length of 4 ft. Please refer to the product packaging for the exact cable length included.
