

Brightech LTVPRB-W-XL

Brightech LightView Pro XL Magnifying Floor Lamp

Model: LTVPRB-W-XL

IMPORTANT SAFETY INSTRUCTIONS

Please read and understand all instructions before assembling and using this product. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- **Electrical Safety:** Ensure the power outlet voltage matches the lamp's requirements (110 Volts). Do not operate with a damaged cord or plug. Do not immerse the lamp in water.
- **Placement:** Place the lamp on a stable, level surface. Avoid placing near heat sources or in direct sunlight for prolonged periods.
- **Lens Care:** The magnifying lens can concentrate sunlight, creating a fire hazard. Always close the protective cover when the lamp is not in use.
- **Cleaning:** Disconnect from power before cleaning. Use a soft, dry cloth. Avoid abrasive cleaners.

PACKAGE CONTENTS

Verify that all components are present before beginning assembly:

- Magnifying Lamp Head with LED Light
- Adjustable Arm Assembly
- Floor Stand Pole
- Rolling Base with 6 Wheels
- Power Adapter
- Assembly Hardware (Wave Washer, Spring Washer, Bolt, Spanner)

SETUP GUIDE

Follow these steps to assemble your Brightech LightView Pro XL Magnifying Floor Lamp:

1. **Attach the Floor Stand Pole to the Rolling Base:** Carefully align the bottom of the floor stand pole with the opening in the center of the rolling base. Secure it using the provided bolt, wave washer, and spring washer. Tighten with the spanner.

2. **Connect the Adjustable Arm Assembly:** Insert the bottom end of the adjustable arm assembly into the top of the floor stand pole. Ensure it clicks securely into place.
3. **Mount the Magnifying Lamp Head:** Attach the magnifying lamp head to the top of the adjustable arm. Tighten the tension nut to secure the head while allowing for future adjustments.
4. **Plug in the Power Adapter:** Connect the power adapter to the lamp's power input and then plug it into a standard 110V electrical outlet.

OPERATING INSTRUCTIONS

Learn how to use your magnifying floor lamp effectively:

- **Power On/Off:** Locate the power button on the top of the lamp head. Press once to turn the LED light on or off.
- **Adjusting Brightness:** Use the '+' and '-' buttons next to the power button to cycle through the three available brightness levels.
- **Positioning the Lamp:** The lamp features an industrial-strength adjustable arm. Loosen the tension knobs at the joints to adjust the arm's angle and height. Once in the desired position, tighten the knobs to secure it. The lamp head can also be swiveled and tilted for precise focus.

- **Using the Magnifier:** Open the protective flip cover on the lamp head to expose the 2.25x magnifying lens. Position the lens directly over your work area for enhanced visibility.

True 2.25x Magnification

Take the strain out of focus work

This image demonstrates the 2.25x magnification of the LightView Pro XL, allowing for detailed work such as painting miniature figures with enhanced clarity.

Ultra bright cool light for focused tasks

Dimmable :
Choose between
3 levels of brightness

The light is so bright and crisp
and covers a large surface

The magnifying lamp head with its integrated LED lights, illustrating the three levels of brightness that can be adjusted for optimal illumination during tasks.

Designed with your safety in mind

Flip cover protects your home from accidental sunlight rays while lamp is out of use.

The magnifying lamp head with its protective flip cover closed, designed to shield the lens from dust and debris when not in use.

MAINTENANCE

Proper care ensures the longevity of your lamp:

- **Cleaning the Lens:** Use a soft, lint-free cloth specifically designed for optical lenses. For stubborn smudges, a small amount of lens cleaning solution can be applied to the cloth (not directly to the lens).
- **Cleaning the Body:** Wipe the lamp's body and arm with a soft, damp cloth. Avoid harsh chemicals or abrasive materials.
- **Storage:** When not in use, especially in sunny environments, always close the protective flip cover over the magnifying lens to prevent dust accumulation and potential fire hazards.

TROUBLESHOOTING

Common issues and their solutions:

Problem	Possible Cause	Solution
Lamp does not turn on	No power, loose connection, faulty adapter	Check power outlet, ensure all connections are secure, try a different outlet.
Light is dim or flickers	Low brightness setting, power fluctuation	Increase brightness using the '+' button. Ensure stable power supply.
Magnification is blurry	Dirty lens, incorrect focal distance	Clean the lens. Adjust the lamp head's height and angle to find the optimal focal distance (approx. 15 inches).
Arm does not stay in position	Tension knobs are loose	Tighten the tension knobs at the arm joints until the arm holds its position.

SPECIFICATIONS

Feature	Detail
Model Number	LTVPRB-W-XL
