Design House 612838 RTA Vanity Cabinets User Manual

Model: 612838 | Brand: Design House | Wave Solid White Rectangular Bowl

INTRODUCTION

This manual provides detailed instructions for the assembly, installation, operation, and maintenance of your Design House 612838 Ready-To-Assemble (RTA) Vanity Cabinets. Please read all instructions carefully before beginning assembly or use to ensure proper installation and safe operation. Keep this manual for future reference.

SAFETY INFORMATION

Important Safety Instructions:

- Always wear appropriate safety gear, including safety glasses, during assembly.
- Ensure all parts are present and undamaged before assembly. Do not attempt to assemble if parts are missing or damaged.
- Use the correct tools for each step.
- Do not overtighten screws, as this may damage the material.
- Keep small parts away from children to prevent choking hazards.
- Ensure the vanity is installed on a level and stable surface.
- For plumbing connections, consult a qualified professional if you are unsure.

SETUP AND INSTALLATION

Your Design House 612838 vanity is a Ready-To-Assemble (RTA) unit. Assembly is required. The vanity base comes unassembled with satin nickel hardware included. The vanity top is also included.

Required Tools (Not Included):

- Phillips head screwdriver
- Flat head screwdriver

- Adjustable wrench (for plumbing connections)
- Level
- Measuring tape
- Drill (optional, for pilot holes if needed)

Assembly Steps:

1. **Unpack and Inspect:** Carefully unpack all components and verify against the parts list. Ensure no damage occurred during shipping.
2. **Assemble the Base:** Follow the manufacturer's instructions for assembling the vanity base. The design features pre-drilled holes for easy installation, simplifying the process.
3. **Install Drawers and Door:** Attach the two fully functional drawers using the easy-glide drawer hardware. Install the cabinet door, noting the concealed hinges for a clean look.
4. **Adjust Hinges:** The door hinges are adjustable, allowing for precise alignment of the cabinet door.

TROUBLESHOOTING

If you encounter any issues with your Design House vanity, please refer to the following general guidance:

- **Loose Hardware:** Periodically check all screws and fasteners to ensure they are tight. Retighten as necessary, but do not overtighten.
- **Door/Drawer Alignment:** If doors or drawers do not align properly, use the adjustable door hinges (refer to Setup section) to make fine adjustments.
- **Water Leaks:** If a leak occurs, immediately turn off the water supply. Check all plumbing connections for tightness and proper sealing. Consult a professional plumber if the issue persists.
- **Surface Damage:** For minor scratches or chips, the optional Touch-Up Repair Kit (Part # 921387-ES) can be used.
