## 2. SETUP AND INSTALLATION

Follow these steps to properly install your new replacement earpads. Patience is key during installation to ensure a secure fit.

1. **Remove Old Earpads:** Gently peel off the old earpads from your headphones. They are typically held in place by a thin rim or adhesive. Take care not to damage the headphone speaker unit.
2. **Clean Headphone Surface:** After removing the old earpads, clean any remaining adhesive or debris from the headphone's earcup surface.
3. **Align New Earpads:** Take one new earpad and align its inner rim with the groove on the headphone earcup.
4. **Stretch and Secure:** Carefully stretch the elastic edge of the new earpad around the earcup, working your way around the circumference until the entire earpad is seated firmly in the groove. Ensure there are no gaps or loose sections.
5. **Repeat for Second Earpad:** Follow the same steps for the other earpad.

### 3. OPERATING INSTRUCTIONS

Once installed, your new earpads are ready for use. Ensure they are seated comfortably around your ears to provide optimal sound isolation and listening experience. Adjust your headphones as needed for a snug, yet comfortable, fit.

### 4. MAINTENANCE

To prolong the life of your Defean replacement earpads, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the leatherette surface gently with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the material.
- **Storage:** When not in use, store your headphones in a clean, dry place away from direct sunlight and extreme temperatures.
- **Avoid Punctures:** Be careful not to puncture or tear the earpad material, as this can affect comfort and durability.

## 5. TROUBLESHOOTING

If you encounter any issues with your replacement earpads, consider the following:

- **Earpads Don't Fit:** Double-check the compatibility list to ensure your headphone model is supported. Re-attempt installation, ensuring the elastic edge is fully seated in the earcup groove.
- **Discomfort:** Allow a short break-in period for the earpads to conform to your ears. Ensure the headphones are adjusted correctly on your head.
- **Sound Quality Issues:** Verify that the earpads are installed correctly and creating a good seal around your ears. Loose earpads can affect sound isolation.
