PKPOWER 14001

PK Power AC/DC Adapter for Part No. 14001 Pitching Machines

Model: 14001 | **Brand:** PKPOWER

1. Introduction

This manual provides instructions for the safe and efficient use of your PK Power AC/DC Adapter, designed specifically for Part No. 14001 Pitching Machines. This power supply cord cable is intended for wall home battery charging applications, providing reliable power conversion from AC to DC.

PK-Power products are certified to CE, FCC, and RoHS standards, ensuring compliance with safety and environmental regulations. Each unit is tested to meet or exceed original equipment manufacturer (OEM) specifications.

2. Safety Information

Please read all safety instructions before using the adapter to prevent damage or injury. Keep this manual for future reference.

- **Indoor Use Only:** This adapter is designed for indoor use. Do not expose to rain, moisture, or extreme temperatures.
- **Proper Ventilation:** Ensure adequate ventilation around the adapter during use. Do not cover the adapter or place it in an enclosed space.
- **Compatibility:** Use this adapter only with compatible devices, specifically Part No. 14001 Pitching Machines, as specified in the product description. Using it with incompatible devices may cause damage.
- **Protection Features:** This adapter includes Over Voltage output Protection (OVP), Over Current output Protection (OCP), and Short Circuit output Protection (SCP) to safeguard your devices. However, always ensure proper connection and usage.
- **Handle with Care:** Do not drop, disassemble, or attempt to repair the adapter. Refer all servicing to qualified personnel.
- **Unplug When Not in Use:** Disconnect the adapter from the power outlet when not in use for extended periods.

3. Package Contents

Your PK Power AC/DC Adapter package should contain the following item:

- 1 x PK Power AC/DC Adapter (Model: 14001)

Figure 2: The PK Power AC/DC Adapter, showing the main unit and cable.

4. Setup

Follow these steps to set up your PK Power AC/DC Adapter:

1. **Verify Compatibility:** Ensure your device is a Part No. 14001 Pitching Machine or another compatible device requiring the specified power input.
2. **Connect to Device:** Locate the power input port on your pitching machine. Carefully insert the barrel connector of the PK Power AC/DC Adapter into this port. Ensure a snug and secure fit.
3. **Connect to Power Outlet:** Plug the AC prongs of the adapter into a standard 100-240V AC wall outlet.
4. **Power On Device:** Once connected, you can power on your pitching machine according to its own operating instructions.

Figure 3: Adapter showing the AC plug and DC barrel connector for device connection.

5. Operating Instructions

The PK Power AC/DC Adapter operates automatically once connected to a power source and a compatible device. It converts the AC wall power to the appropriate DC power required by your pitching machine.

- Ensure all connections are secure before powering on your device.
- The adapter is designed for continuous operation within its specified limits.
- If the adapter feels excessively hot, disconnect it immediately and check for proper ventilation or potential issues with the connected device.

6. Maintenance

Proper maintenance ensures the longevity and safe operation of your adapter.

- **Cleaning:** Disconnect the adapter from the power outlet and the device before cleaning. Use a soft, dry cloth to wipe the exterior. Do not use liquid cleaners or solvents.
- **Storage:** When not in use, store the adapter in a cool, dry place, away from direct sunlight and moisture. Avoid tightly coiling the cable to prevent damage.
- **Inspection:** Periodically inspect the adapter and its cable for any signs of damage, such as cuts, frayed

wires, or bent prongs. If damage is found, discontinue use and replace the adapter.

7. Troubleshooting

If you encounter issues with your PK Power AC/DC Adapter, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No power to device.	Adapter not plugged in correctly. Wall outlet not functioning. Device power switch off. Adapter or device malfunction.	Ensure adapter is fully plugged into wall and device. Test wall outlet with another appliance. Check device's power switch. If issues persist, contact customer support.
Adapter is unusually hot.	Poor ventilation. Overload or short circuit. Device malfunction.	Ensure adapter has clear space for airflow. Disconnect immediately. Check device for issues. If problem continues, discontinue use.
Device not charging/powering efficiently.	Incorrect adapter for device. Damaged cable or connector.	Verify adapter compatibility with your device model. Inspect cable and connector for damage. Replace if necessary.

If troubleshooting steps do not resolve the issue, please contact PKPOWER customer support.

8. Specifications

Brand	PKPOWER
Model Number	14001
Input Voltage	100-240V AC, 50/60Hz (Worldwide Voltage Use)
Protection Features	OVP (Over Voltage output Protection), OCP (Over Current output Protection), SCP (Short Circuit output Protection)
Compatible Devices	Part No. 14001 Pitching Machines
Mounting Type	Wall Mount
Certifications	CE / FCC / RoHS

9. Warranty and Support

PK-Power stands by the quality of its products. For any questions, concerns, or support needs, please contact our customer service. Our friendly and reliable customer service team aims to respond to inquiries within 24 hours. For further assistance, please visit the PKPOWER Store on Amazon.
