## 2. SAFETY INFORMATION

---

### **WARNING: Proposition 65 Warning**

This product may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. For more information, visit [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

Always supervise children and non-swimmers. Ensure the pool is set up on a level surface free of sharp objects. Read and follow all instructions in the full owner's manual before installation and use. Do not dive or jump into the pool. Empty the pool when not in use or if left unattended for extended periods.

## 3. PACKAGE CONTENTS

---

Verify that all components listed below are present in your package:

- Inflatable Pool Liner (18 ft x 48 inch)
- Krystal Clear 1500 GPH Cartridge Filter Pump (Model C1500)
- Pool Ladder
- Ground Cloth
- Pool Cover

- 6 x Type A or C Filter Cartridges

## INCLUDED ACCESSORIES

**Krystal Clear™  
Cartridge Filter Pump**

**Removable Ladder**

**Pool Cover**

**Ground Cover**

**INTEX®**

## 4. SETUP INSTRUCTIONS

The Intex Easy Set pool is designed for quick and straightforward assembly, typically within 30 minutes. No tools are required for the basic setup.

### 4.1 Site Preparation

1. Choose a firm, level surface for the pool. Uneven ground can cause the pool to collapse or water to spill.
2. Clear the area of any sharp objects, debris, or rocks that could puncture the pool liner.
3. Lay out the ground cloth in the chosen area.

### 4.2 Pool Assembly

1. Unfold the pool liner onto the ground cloth. Ensure the drain plug is facing away from any structures or areas where water drainage would be problematic.

2. Inflate the top ring of the pool. An optional air pump (not included) can expedite this process. Ensure the ring is fully inflated but not over-pressurized.
3. Begin filling the pool with water. As the water level rises, the pool walls will naturally take shape. Smooth out any wrinkles on the bottom of the pool as it fills.
4. Once the pool is filled to the recommended level (typically just below the top ring), install the filter pump and ladder according to their respective instructions.

*Image: Step-by-step visual guide for setting up the Intex Easy Set pool.*

## 5. OPERATING THE FILTER PUMP

The included Intex Krystal Clear 1500-gallon per hour (GPH) filter pump is essential for maintaining water clarity and hygiene. It features Hydro Aeration Technology.

### 5.1 Filter Pump Functionality

- The pump circulates pool water through a filter cartridge, removing debris and impurities.
- It operates on 110-120V and has an automatic daily filtration cycle, typically between 2-12 hours.

### 5.2 Hydro Aeration Technology

This patented technology improves filtration, water clarity, and freshness:

- **Advanced Circulation:** Injecting air into the water accelerates circulation and helps fine particles clump together, making them easier to filter.
- **Improved Clarity:** Aeration removes minerals through oxidation, enhancing water clarity.
- **Increased Freshness:** Generates more negative ions by activating air bubbles, which improves overall air quality around the pool.

**INTEX®**

## KRYSTAL CLEAR CARTRIDGE FILTER PUMP C1500

- Easy-to-clean filter cartridge
- Automatic daily filtration with 2-12 hour cycles
- Voltage: 110-120V
- Pump Flow Rate: **1500 GPH**

INTEX's patented HydroAeration® Technology is precision engineered to improve filtration, clarity and freshness in above ground pools.

## 6. MAINTENANCE

Regular maintenance is crucial for extending the life of your pool and ensuring clean water.

### 6.1 Filter Cartridge Care

- The pool uses Intex Type A or C filter cartridges.
- Clean the filter cartridge regularly by rinsing it with a garden hose.

- Replace the filter cartridge every two weeks, or more frequently depending on pool usage and water condition.

*Image: A filter cartridge, showing its approximate dimensions of 8 inches in height and 4.25 inches in width.*

## 6.2 Pool Water Chemistry

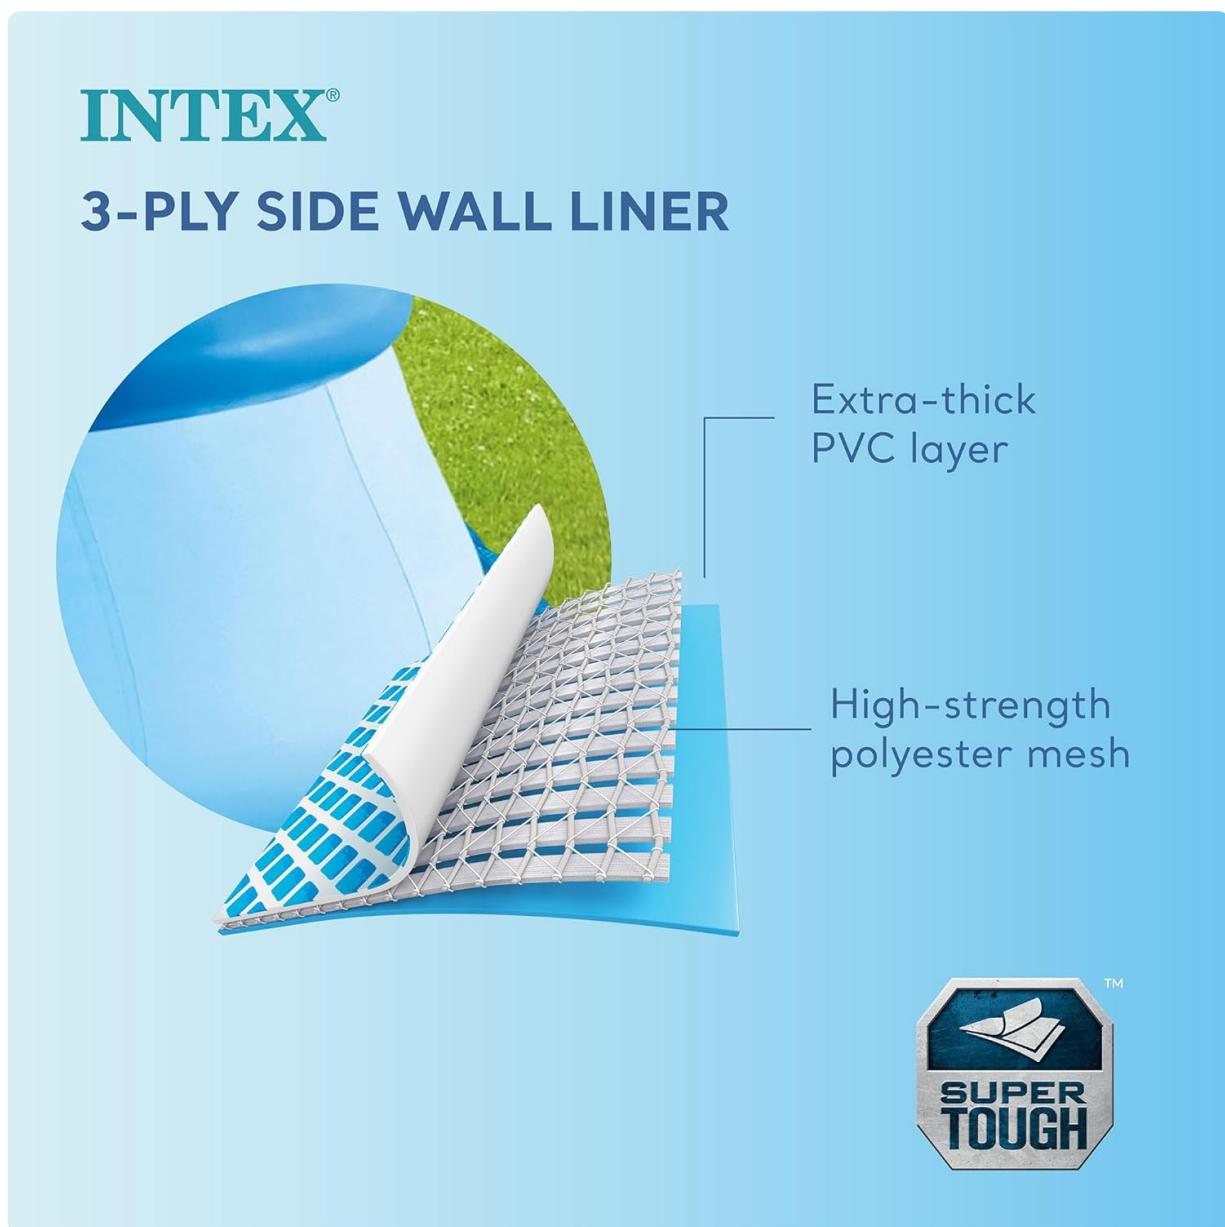

Regularly test and adjust pool water chemistry (pH, chlorine levels) using a pool testing kit to prevent algae growth and ensure safe swimming conditions.

## 6.3 Pool Cover Use

Use the included pool cover when the pool is not in use to prevent debris from entering the water and to reduce water evaporation.

## 6.4 Liner Care

The pool liner is made of durable 3-ply vinyl material designed to resist punctures. In case of a small puncture, use a repair patch kit (often included or sold separately) to fix it promptly.

*Image: Cross-section view of the 3-ply side wall liner, detailing its robust construction.*

## 7. TROUBLESHOOTING

Here are solutions to common issues you might encounter:

| Problem                  | Possible Cause  | Solution   |
|--------------------------|---|--|
| Pool losing water        | Small puncture or leak in the liner or top ring.                              | Locate the leak (e.g., using soapy water) and apply a repair patch. Ensure the top ring is fully inflated.   |
| Water is cloudy or green | Insufficient filtration, dirty filter cartridge, or improper water chemistry. | Clean or replace the filter cartridge. Run the filter pump for longer cycles. Test and adjust water chemistry (chlorine, pH). Shock the pool if necessary. |
| Filter pump not working  | Power issue, clogged impeller, or air in the system.                          | Check power connection and circuit breaker. Disconnect power and inspect the impeller for obstructions. Bleed air from the pump system as per pump manual. |
| Ladder feels unstable    | Improper assembly or placement.   | Ensure the ladder is fully assembled and placed on a flat, stable surface. Verify all connections are secure.  |

## 8. PRODUCT SPECIFICATIONS

---

**Brand:** Intex

**Model:** 26175EH

**Shape:** Round

**Product Dimensions (L x W x H):** 216 inches x 216 inches x 48 inches (18 ft x 48 in)

**Water Capacity:** 5,455 Gallons (20,649 Liters)

**Water Depth:** 41 inches (104 cm)

**Material:** 3-Ply Vinyl

**Included Components:** Pool, Filter Pump, Ladder, Ground Cloth, Cover, Cartridge

**Assembly Required:** Yes

**Indoor/Outdoor Usage:** Outdoor

**UPC:** 842372125215
