

HABA 303051

HABA Kullerbu Expansion Set Curves & Friends (Model 303051) Instruction Manual

Brand: HABA

1. INTRODUCTION

This instruction manual provides essential information for the HABA Kullerbu Expansion Set Curves & Friends, model 303051. This set is designed to expand your existing Kullerbu play system, offering additional track components to create more varied and extensive layouts. It is suitable for children aged 2 to 8 years.

The Kullerbu system promotes imagination and creativity through flexible track combinations. This expansion set includes various curves and connectors to enhance your building possibilities.

2. PACKAGE CONTENTS

Carefully unpack the box and ensure all components are present. The HABA Kullerbu Expansion Set Curves & Friends includes the following 14 pieces:

- 2 x Wavy Curves (plastic)
- 3 x Standard Curves (wooden)
- 2 x Small Curves (30 degrees, wooden)
- 7 x Plastic Floor Connectors

Image 1: All components included in the HABA Kullerbu Expansion Set Curves & Friends. This includes two orange wavy plastic curves, five natural wood curves of varying sizes, and seven green plastic connectors.

3. SETUP AND ASSEMBLY

The Kullerbu track system is designed for easy assembly. Follow these steps to integrate your new expansion pieces:

1. **Connect Track Pieces:** Each track piece (curves, straight sections from other sets) has holes on its lower side. The plastic connectors feature pins that snap snugly into these holes.
2. **Secure Connections:** Insert the pins of the plastic floor connectors into the corresponding holes on the track pieces. Press firmly until you hear a "click" to ensure a stable connection.
3. **Ground-Level Expansion:** This set's floor connectors are primarily designed for expanding layouts at ground level. They do not provide support for elevated track sections.
4. **Elevated Layouts (Optional):** To create elevated layouts, you will need additional Kullerbu accessories such as columns (e.g., HABA Kullerbu Columns #300850) and Connectors and Bases (e.g., HABA Kullerbu Connectors and Bases #300849), which are sold separately. These can be mixed and matched with this expansion set.

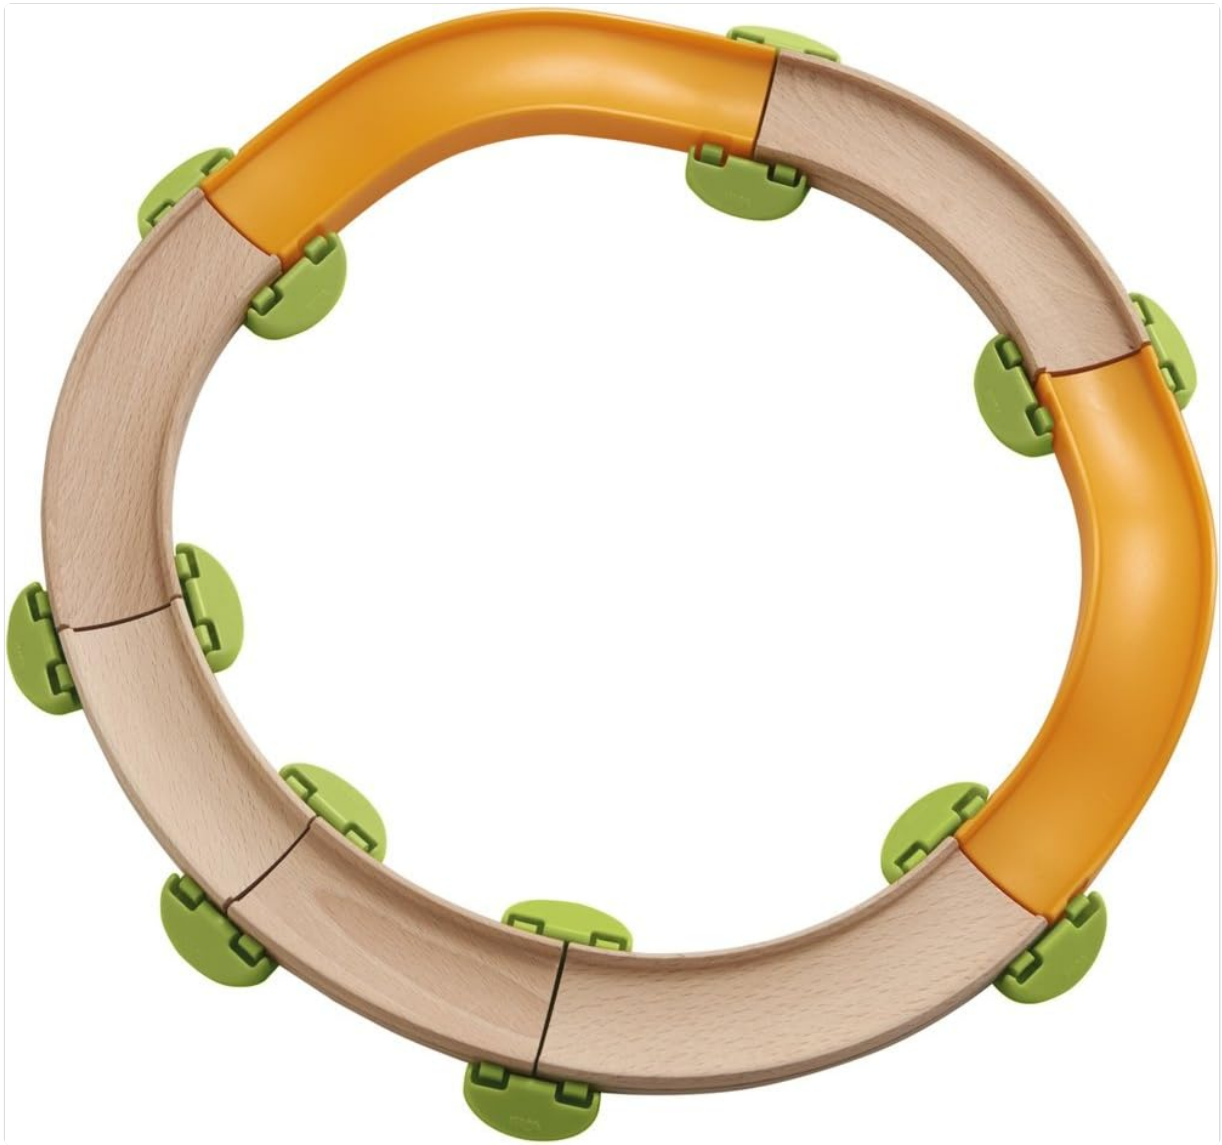

Image 2: An example of an assembled Kullerbu track layout, demonstrating how the curves and green connectors form a circular path.

4. OPERATING AND USAGE

Once assembled, the Kullerbu track provides a stable and engaging play environment for Kullerbu vehicles and balls. The robust design ensures that the tracks remain in place even during active play.

This expansion set allows for greater flexibility in track design. Use the various curves to create winding paths, loops, and intricate connections between different Kullerbu sets. Experiment with different configurations to maximize play value and encourage creative building.

Video 1: This video demonstrates the HABA Kullerbu play system in action, showcasing how various sets, including curves and connectors, can be combined to create a dynamic track for vehicles and balls. It illustrates the interactive features of the Kullerbu Parking Garage and City Stroll sets, along with the expansion pieces.

5. MAINTENANCE

To ensure the longevity of your HABA Kullerbu Expansion Set, follow these simple maintenance guidelines:

- **Cleaning:** Wipe all plastic and wooden components with a damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the materials or finishes.

- **Storage:** Store the set in a dry place away from direct sunlight and extreme temperatures to prevent warping or fading.
- **Inspection:** Periodically inspect all pieces for any signs of wear or damage. Discontinue use if any part is broken or presents a hazard.

6. TROUBLESHOOTING

If you encounter any issues while using your Kullerbu Expansion Set, consider the following:

- **Loose Connections:** If track pieces feel loose, ensure the plastic connectors are fully inserted and "clicked" into place. The system is designed for maximum stability when properly connected.
- **Track Instability:** Verify that all track pieces are laid on a flat, stable surface. Remember that the included floor connectors are for ground-level expansion; elevated sections require specific support columns (sold separately).
- **Compatibility:** This expansion set is compatible with all HABA Kullerbu sets, accessories, balls, and vehicles. If a piece from another Kullerbu set does not fit, double-check that it is indeed a Kullerbu component.

7. SPECIFICATIONS

Feature	Detail
Model Number	303051
Product Dimensions	9.45 x 2.05 x 11.5 inches
Item Weight	1.28 pounds
Manufacturer Recommended Age	24 months - 8 years
Materials	Wood (tracks), Plastic (wavy curves, connectors)
Origin	Wooden tracks made in Germany. Plastic tracks and connectors made with strict care in China.
