Operating Instructions

Once assembled and batteries are installed, place marbles into the designated entry points, particularly the power marble launcher. Activate the launcher to send marbles through the intricate tracks, 3-D connectors, and speeding channels. Observe the marbles as they navigate the various paths, accompanied by fun space sounds. Experiment with different marble entry points to discover new routes and interactions within the maze.

Maintenance

- **Cleaning:** Wipe down plastic components with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** When not in use, disassemble the marble run or store it in a safe place to prevent damage. Keep all small pieces, especially marbles, in a container to avoid loss.
- **Battery Care:** Remove batteries from the power marble launcher if the toy will not be used for an extended period to prevent leakage.

Troubleshooting

- **Marbles getting stuck:** Check all track connections to ensure they are secure and properly aligned. Ensure no foreign objects are obstructing the paths.
- **Power launcher not working:** Verify that the 'AA' batteries are correctly installed with the correct polarity and are not depleted. Replace batteries if necessary. Ensure the power switch is in the 'ON' position.
- **Missing pieces:** Refer to the parts list in the detailed instruction manual to identify any missing components. Contact customer support if essential pieces are missing from a new set.
