- Be cautious of potential pinch points or sharp edges during assembly and use.
- Keep the bed frame away from heat sources to prevent damage to the electrical components.
- Ensure all electrical connections are secure and properly grounded.

3. PACKAGE CONTENTS

Before beginning assembly, verify that all components are present and undamaged. If any parts are missing or damaged, please contact customer support.

- Adjustable Bed Base (Queen Size)

- Wireless Remote Control
- Legs (set of 6 or 9 depending on model variant)
- Power Cord and Adapter
- Retainer Bar (to hold mattress in place)

4. SETUP AND ASSEMBLY

Assembly is required for the Glideaway Ascend Adjustable Bed. It is recommended that two people assemble the bed base due to its weight and size.

1. **Unpack Components:** Carefully remove all components from the packaging. Place the bed base upside down on a clean, flat surface to protect the upholstery.
2. **Attach Legs:** Screw the provided legs into the threaded receptacles on the underside of the bed base. Ensure all legs are tightened securely.
3. **Install Retainer Bar:** Locate the retainer bar slots at the foot end of the bed base. Insert the retainer bar into these slots to prevent the mattress from sliding.
4. **Position Bed Base:** With assistance, carefully flip the bed base over and position it in your desired location.
5. **Connect Power:** Plug the power cord into the control box located under the bed base, then plug the adapter into a grounded electrical outlet. Ensure the power cord is routed safely to avoid tripping hazards or damage.
6. **Initial Test:** Use the remote control to test all functions (head up/down, foot up/down, Elevate, Sleep Enhancement) before placing your mattress on the base.

- **Inspections:** Periodically check all connections (power cord, remote pairing) and ensure no wires are pinched or frayed.
- **Weight Limit:** Adhere strictly to the 800-pound weight limit to prevent damage to the motor and frame.

7. TROUBLESHOOTING

If you experience issues with your adjustable bed, try the following steps before contacting customer support:
