Tvilum Scottsdale 5 Drawer

Tvilum Scottsdale 5 Drawer Chest Instruction Manual

Model: Scottsdale 5 Drawer (70297cjcj)

1. INTRODUCTION

This manual provides comprehensive instructions for the assembly, operation, and maintenance of your Tvilum Scottsdale 5 Drawer Chest. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

2. SAFETY INFORMATION

- Always follow the assembly instructions precisely. Incorrect assembly can lead to instability and potential injury.
- Ensure all hardware is securely tightened before use. Periodically check and re-tighten as necessary.
- This chest is designed for indoor use only.
- Do not allow children to climb on the chest or drawers. This can cause the unit to tip over, leading to serious injury.
- For added stability and safety, it is highly recommended to anchor the chest to a wall using the provided anti-tip kit (if included).
- Distribute weight evenly in drawers to prevent tipping. Do not overload drawers.
- Keep small parts and hardware out of reach of children during assembly.

3. PACKAGE CONTENTS

Your Tvilum Scottsdale 5 Drawer Chest is shipped in two boxes. Please verify that all components and hardware are present before beginning assembly.

- All necessary panels for the chest frame and drawers.
- Five drawer fronts.
- Metal drawer glides for smooth movement.
- Assembly hardware (screws, dowels, cam locks, etc.).
- Anti-tip restraint kit.

If any parts are missing or damaged, please contact Tvilum customer support for assistance.

4. SETUP AND ASSEMBLY

Assembly of the Tvilum Scottsdale 5 Drawer Chest requires two people and basic household tools (e.g., screwdriver, hammer). Follow the visual instructions provided in the included assembly guide. The following steps provide a general overview.

4.1. Preparation

1. Unpack all components and lay them out on a clean, soft surface to prevent scratches.
2. Identify all parts and hardware using the parts list in your separate assembly guide.
3. Ensure you have all required tools.

4.2. Assembling the Frame

Begin by constructing the main frame of the chest. This typically involves attaching the side panels to the top and bottom panels using dowels and cam lock fasteners.

Image 4.1: Side view of the chest, illustrating the frame structure.

Important: Ensure all connections are tight and the frame is square before proceeding. An unsquare frame can lead to issues with drawer alignment.

4.3. Attaching the Back Panel

Once the main frame is assembled, attach the back panel. This panel provides structural integrity and helps keep the chest square.

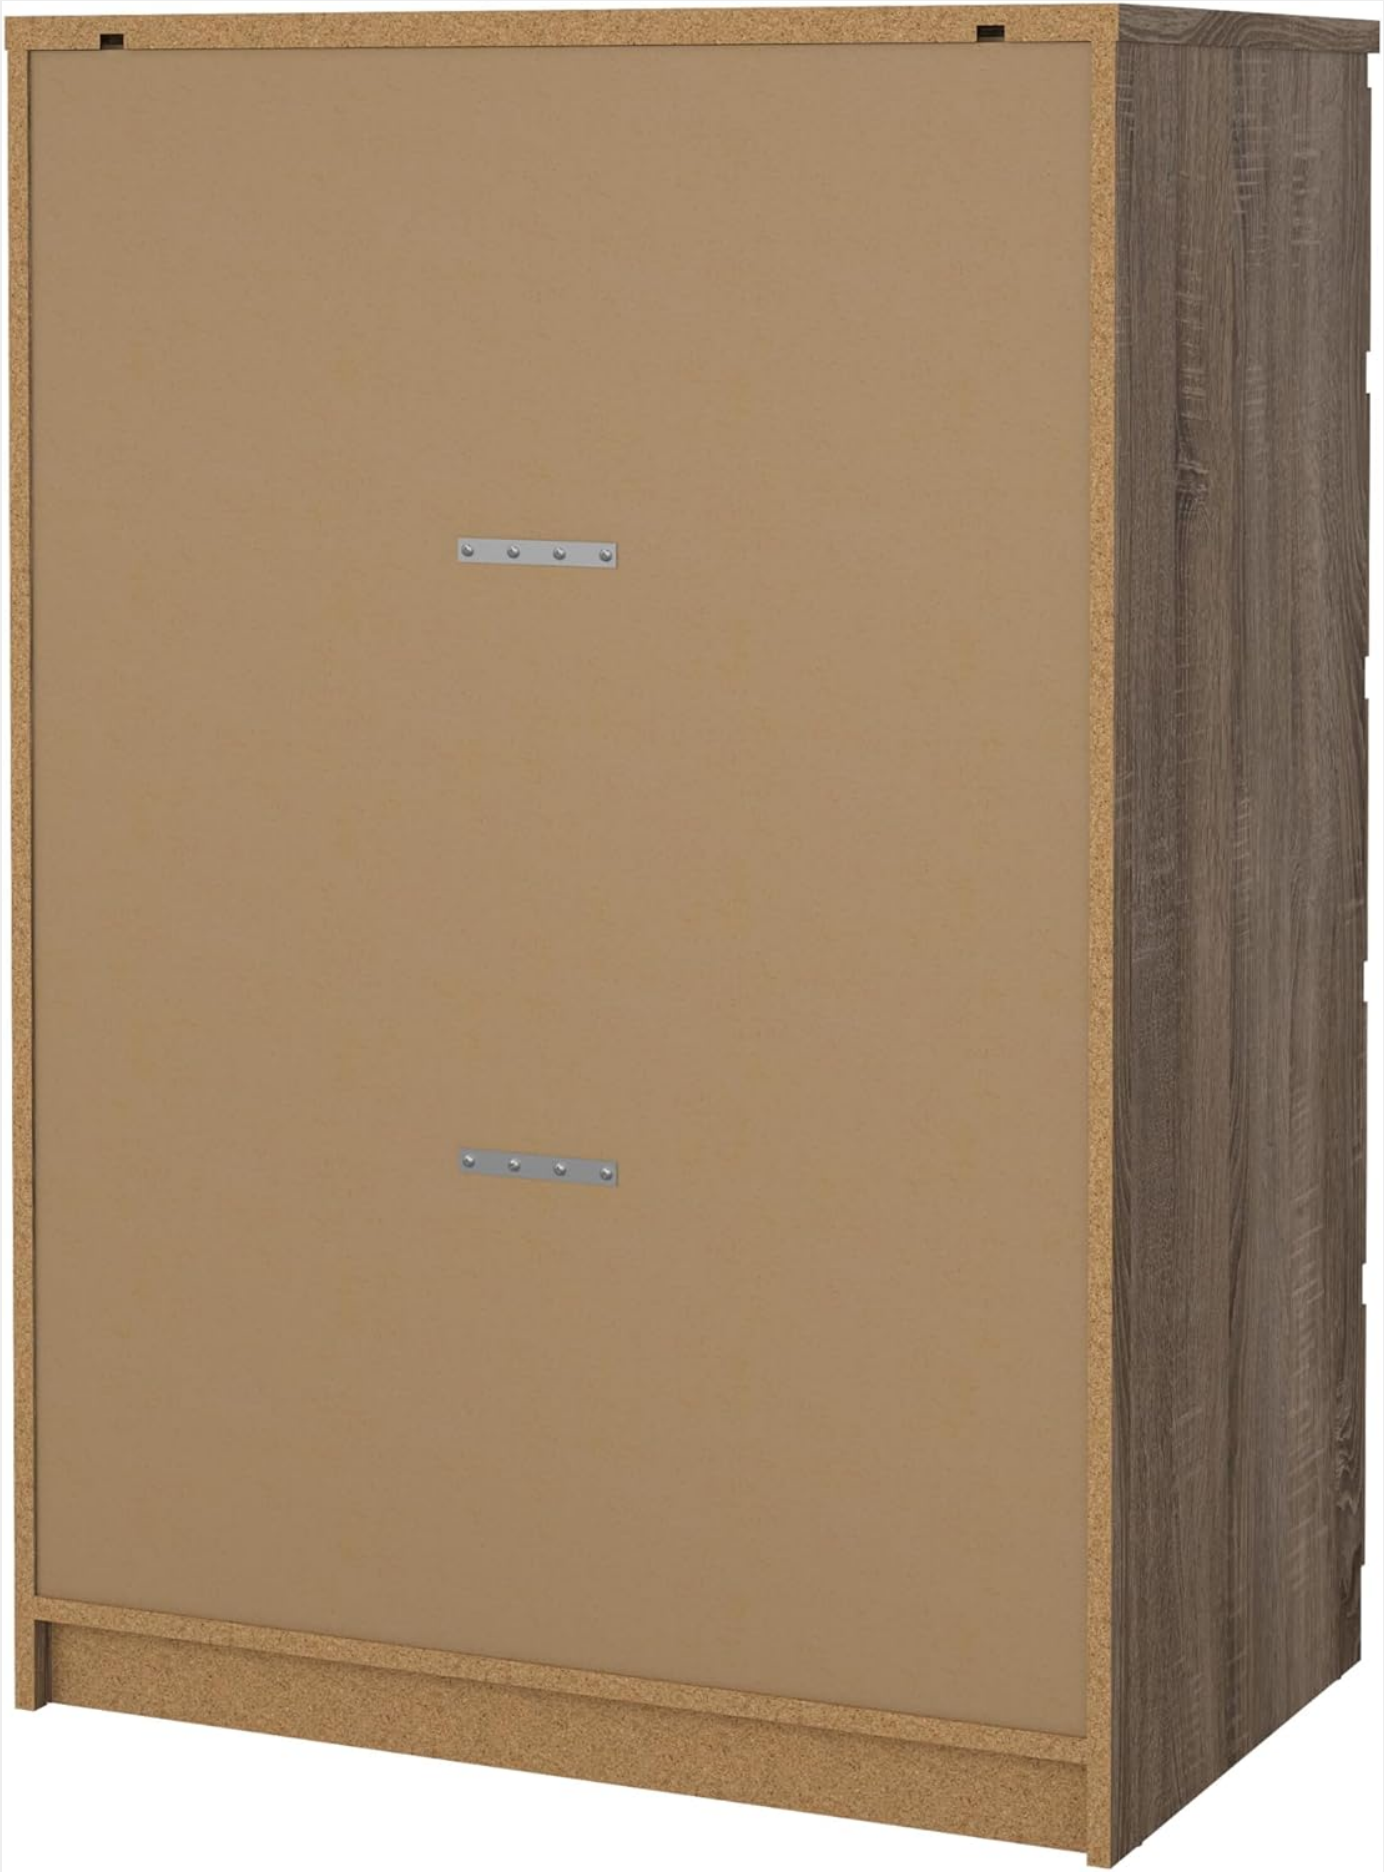

Image 4.2: Back view of the chest, showing the attached back panel.

4.4. Assembling the Drawers

Assemble each of the five drawers. Each drawer consists of a front panel, two side panels, a back panel, and a bottom panel. Attach the metal drawer glides to the sides of the assembled drawers.

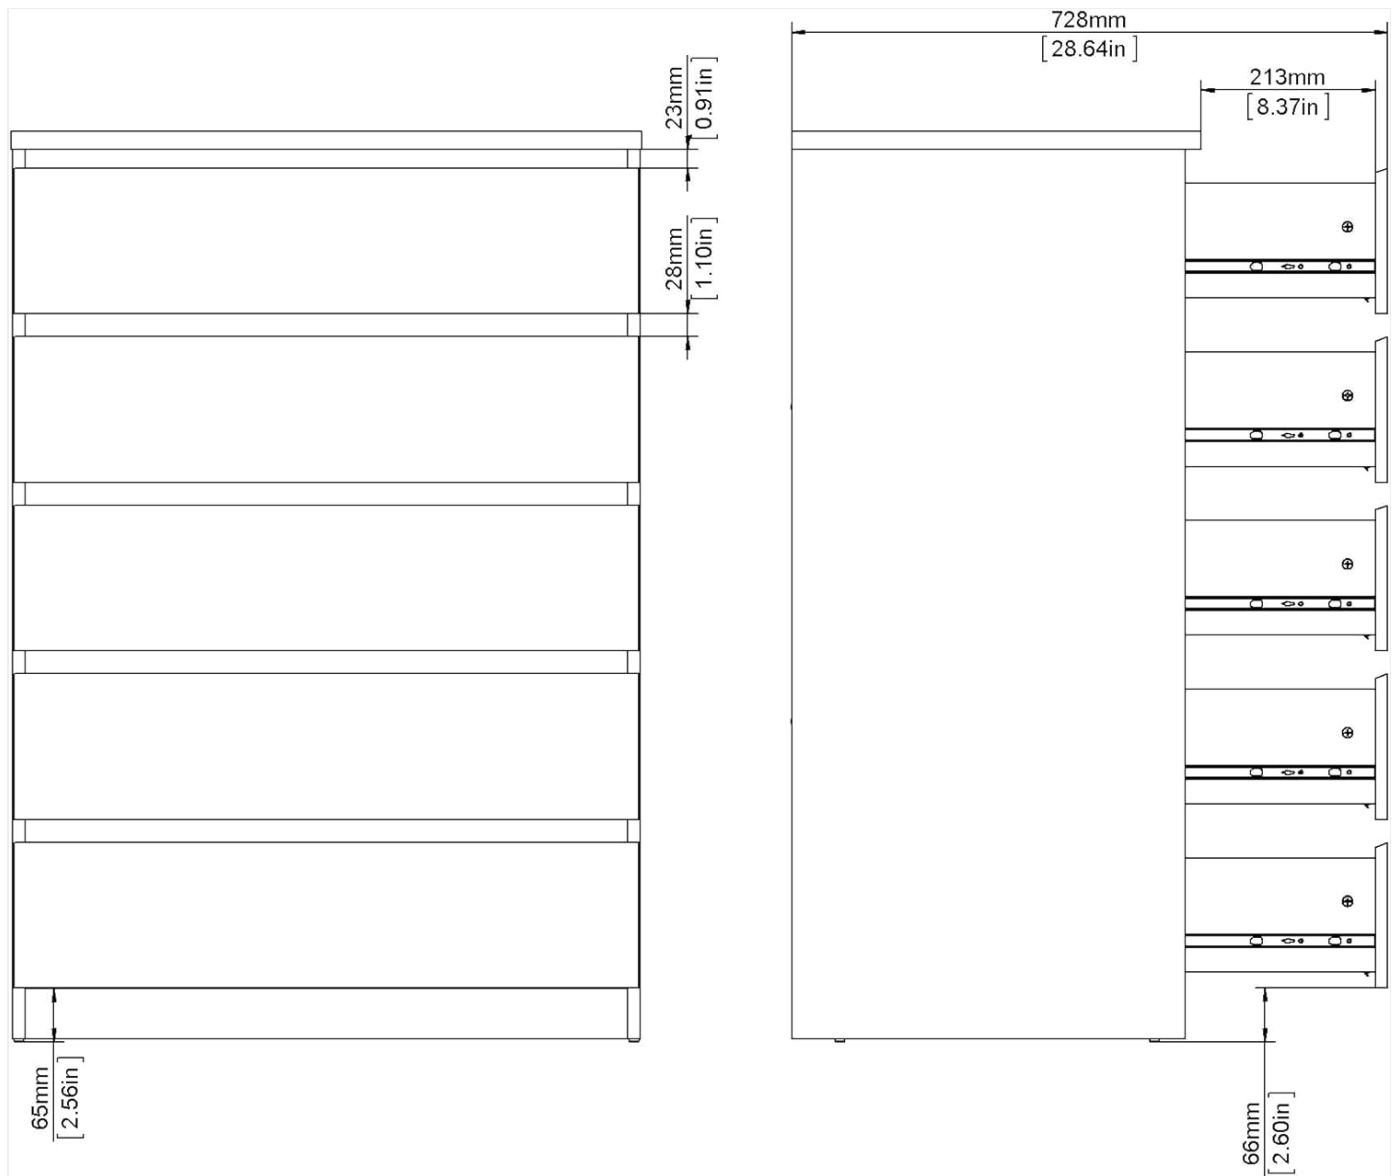

Image 4.3: Dimensional diagram of the chest and an exploded view of a single drawer, showing its components and dimensions.

Image 4.4: Close-up view of an open drawer, highlighting the metal glides for smooth operation.

4.5. Installing Drawers and Anti-Tip Kit

Slide the assembled drawers into the chest frame. Finally, install the anti-tip restraint kit to secure the chest to a wall, preventing accidental tipping.

5. OPERATING INSTRUCTIONS

The Tvilum Scottsdale 5 Drawer Chest is designed for straightforward use.

- **Opening/Closing Drawers:** Gently pull or push the drawer fronts to open or close them. The metal glides ensure smooth movement.
- **Weight Capacity:** Each drawer has a maximum weight capacity of approximately 20 lbs (9 kg). The top surface of the chest has a maximum weight capacity of approximately 66 lbs (30 kg). Do not exceed these limits to ensure stability and longevity of the product.

Image 5.1: Diagram illustrating the maximum weight capacity for the top surface (30 kg / 66 lbs) and individual drawers (9 kg / 20 lbs).

6. MAINTENANCE

Proper care will extend the life and appearance of your chest.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals, as these can damage the finish.
- **Spills:** Promptly wipe up any spills to prevent staining or damage to the engineered wood.
- **Hardware Check:** Periodically check all assembly hardware (screws, cam locks) and re-tighten if necessary to maintain structural integrity.

- **Drawer Glides:** If drawer movement becomes stiff, a small amount of silicone-based lubricant can be applied to the metal glides.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Chest is wobbly or unstable.	Loose hardware; uneven floor; frame not square.	Ensure all screws and cam locks are fully tightened. Place shims under the feet if the floor is uneven. Recheck frame assembly for squareness. Install anti-tip kit.
Drawers do not slide smoothly or get stuck.	Incorrectly installed drawer glides; misaligned frame; overloaded drawer.	Verify that drawer glides are installed correctly and aligned on both the drawer and the chest frame. Check if the chest frame is square. Reduce weight in the drawer.
Missing parts or damaged components.	Packaging error or shipping damage.	Do not proceed with assembly. Contact Tvilum customer support immediately with your product model number and a description of the missing/damaged parts.
Difficulty understanding assembly instructions.	Visual instructions can sometimes be challenging.	Review the instructions carefully, paying close attention to diagrams. If still unclear, seek assistance from another person or contact customer support. Online resources or videos may also be available.

8. SPECIFICATIONS

Brand	Tvilum
Model Name	Scottsdale 5 Drawer
Model Number	70297cjcj
Color	Truffle
Product Dimensions (D x W x H)	16.69"D x 30.24"W x 43.82"H (42.4cm D x 76.8cm W x 111.3cm H)
Number of Drawers	5
Material	Engineered Wood
Item Weight	59 pounds (26.7 kg)
Assembly Required	Yes
Origin	Made in Denmark/Poland
