Napoleon 68001

Napoleon Grill Mat Instruction Manual

Brand: Napoleon | Model: 68001

INTRODUCTION

The Napoleon Grill Mat is designed to protect your outdoor surfaces, such as decks and patios, from potential damage caused by grilling. This durable mat helps prevent oil and grease stains and offers protection against accidentally dropped coals and errant sparks from charcoal grills. Its non-slip, diamond plate pattern in gray provides a stable and aesthetically pleasing base for your grill.

Important Note: This product is not recommended for use on composite decking.

SETUP AND PLACEMENT

To ensure optimal protection, place the Napoleon Grill Mat directly underneath your barbecue grill. The mat is sized to fit perfectly under Prestige / PRO 500 Series gas barbecue grills and other smaller barbecue grills, providing ample coverage for potential drips and spills.

Image: The Napoleon Grill Mat positioned beneath a gas grill on a wooden deck, showcasing its protective placement.

Unroll the mat and position it so that it covers the area directly beneath and slightly in front of your grill, where most drips and spills are likely to occur. Ensure the mat lies flat on the surface to prevent tripping hazards.

OPERATING INSTRUCTIONS

Once the grill mat is properly placed, you can proceed with your grilling activities as usual. The mat's primary function is to act as a barrier, protecting your deck or patio from grease, oil, and food debris. For charcoal grills, its fire-resistant properties provide an additional layer of safety against stray embers.

Image: A detailed view of the mat's non-slip, diamond plate surface texture.

The non-slip surface helps keep your grill stable, reducing the chance of accidental movement during use. Always ensure the mat is clean and free of obstructions before and after each grilling session.

CARE AND MAINTENANCE

The Napoleon Grill Mat is designed for easy cleaning. For general maintenance, simply wipe down the mat with a damp cloth or rinse it with water. For tougher grease stains, hand wash the mat using mild soap and water. Allow the mat to air dry completely before storing or placing it back under the grill.

TROUBLESHOOTING

No specific troubleshooting steps are typically required for a grill mat. If the mat does not lie flat, allow it to warm up in the sun for a period, which may help it relax and flatten. Ensure the surface beneath is clean and even.

SPECIFICATIONS

- **Brand:** Napoleon
- **Model Number:** 68001
- **Color:** Grey
- **Material:** PVC
- **Special Feature:** Fire Resistant
- **Pattern:** Diamond Plate
- **Product Dimensions:** 0.25" L x 32" W x 47" Th
- **Item Weight:** 2.2 pounds
