Bass Jaxx Glow in The Dark Headphones with Built-in Microphone Instruction Manual

Model: 4330973497

INTRODUCTION

Thank you for choosing the Bass Jaxx Glow in The Dark Headphones. This manual provides essential information for the proper setup, operation, and maintenance of your new headphones. Please read it thoroughly before use and retain it for future reference.

PRODUCT OVERVIEW

The Bass Jaxx Glow in The Dark Headphones are designed for entertainment, offering a comfortable over-ear fit and a built-in microphone for communication. They feature a wired connection for universal compatibility with various devices.

Key Features:

- Wired connectivity via 3.5 mm jack.
- Built-in microphone for hands-free communication.
- Over-ear design for comfortable listening.
- Foldable design for portability.
- Lightweight construction.
- Compatible with Android, iPhones, smartphones, games, and computers.

Package Contents:

- Bass Jaxx Glow in The Dark Headphones (Purple)
- Integrated 3.5mm audio cable with built-in microphone

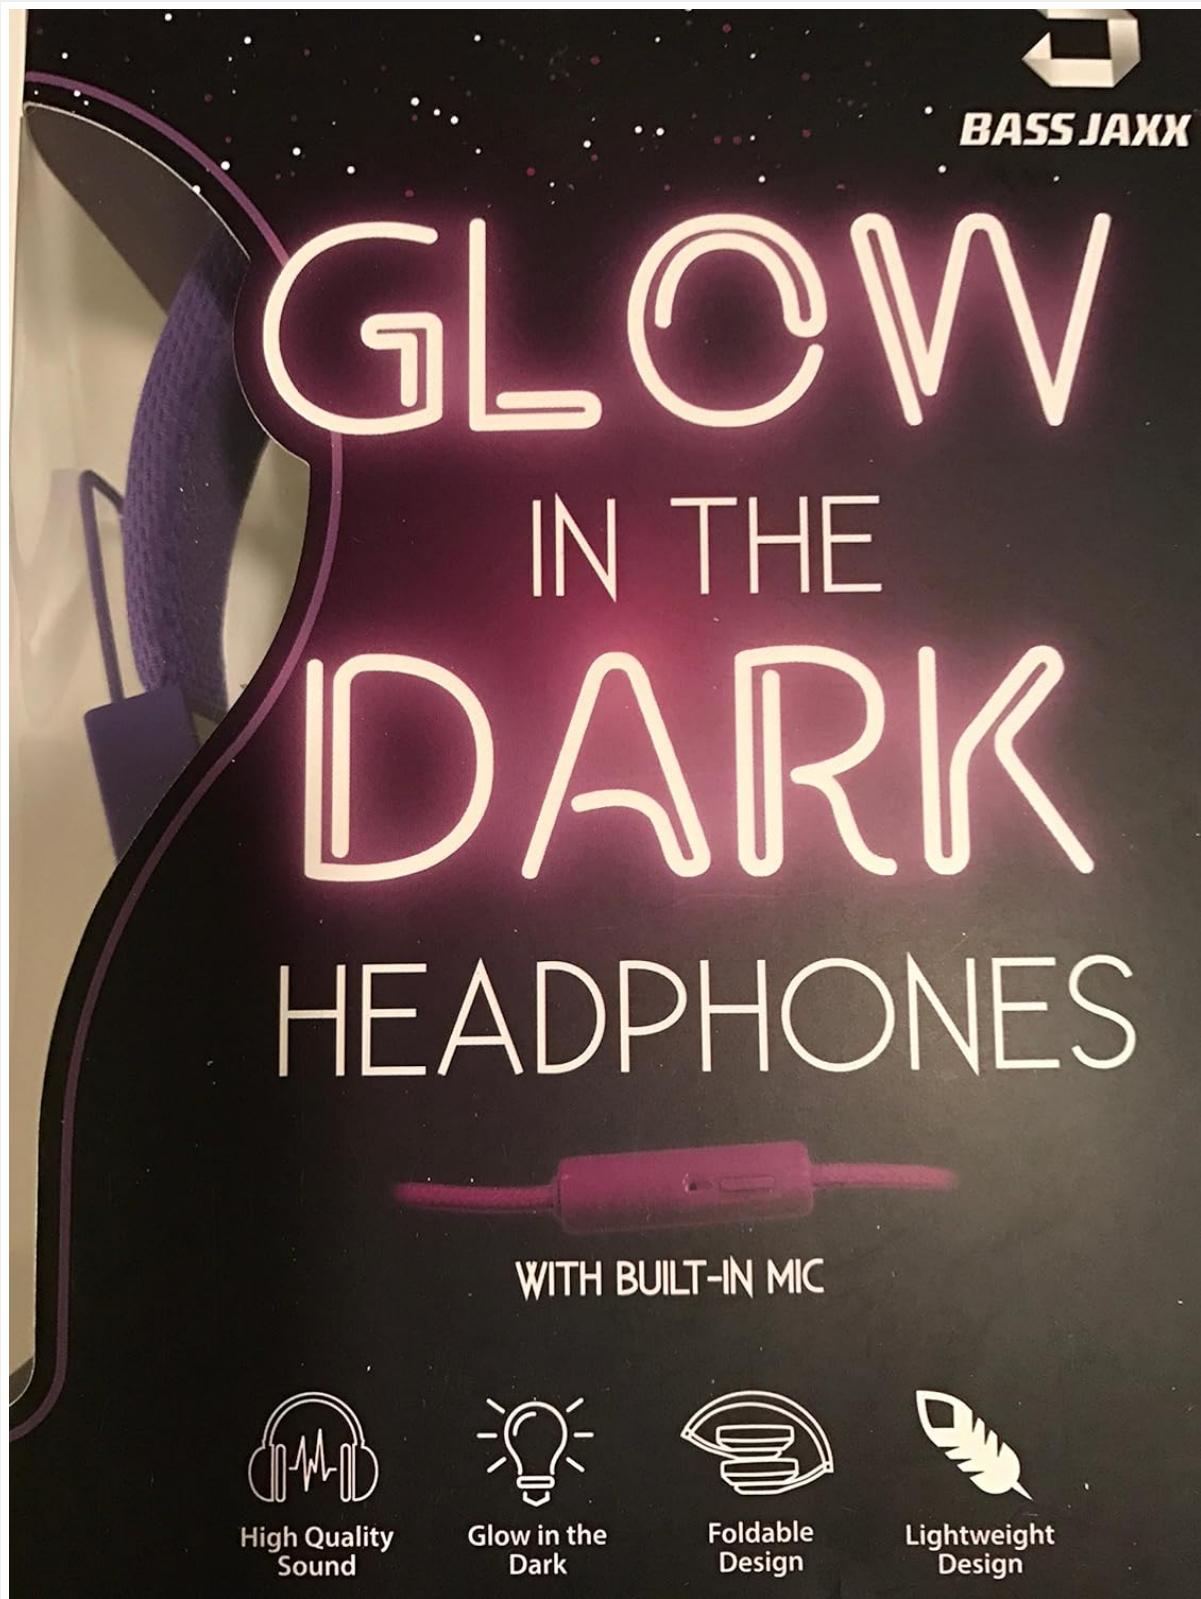

Image 1: Bass Jaxx Glow in The Dark Headphones. This image displays the purple over-ear headphones with the integrated cable and microphone control unit.

SETUP

- 1. Unfold Headphones:** Gently unfold the headphones from their compact position until the earcups are ready for use.
- 2. Connect Audio Cable:** Locate the 3.5 mm audio jack on your device (smartphone, tablet, computer, game console). Insert the 3.5 mm plug from the headphone cable firmly into the device's audio jack.
- 3. Adjust Fit:** Place the headphones over your ears. Adjust the headband to ensure a comfortable and

secure fit. The earcups should fully cover your ears for optimal sound experience.

OPERATING INSTRUCTIONS

Audio Playback:

- Once connected, audio from your device will be routed through the headphones.
- Adjust the volume using your connected device's volume controls.

Using the Built-in Microphone:

- The microphone is integrated into the headphone cable. Ensure the microphone is positioned appropriately for clear voice capture.
- For calls or voice commands, ensure your device recognizes the external microphone. This is usually automatic upon connection.
- The "Touch Control" mentioned in specifications likely refers to a single button on the inline microphone unit. This button typically controls:
 - Single Press:** Play/Pause audio, Answer/End calls.
 - Double Press:** Skip to next track (for music playback).
 - Triple Press:** Go to previous track (for music playback).

Glow in the Dark Feature:

To activate the glow-in-the-dark effect, expose the headphones to a bright light source (natural sunlight or artificial light) for a period of time. The material will then emit a glow in dark environments. The intensity and duration of the glow depend on the exposure time and light intensity.

MAINTENANCE

- Cleaning:** Use a soft, dry cloth to clean the headphones. Do not use liquid cleaners or abrasive materials.
- Storage:** When not in use, store the headphones in a clean, dry place, away from extreme temperatures and direct sunlight. The foldable design allows for compact storage.
- Cable Care:** Avoid sharply bending or twisting the audio cable to prevent internal damage.
- Water Resistance:** The product is listed as "Water Resistant." This typically means it can withstand light splashes or sweat, but it is not designed for immersion in water. Avoid exposing the headphones to heavy rain or submerging them.

TROUBLESHOOTING

- No Sound:**
 - Ensure the 3.5 mm jack is fully inserted into your device.
 - Check the volume level on your connected device.
 - Test the headphones with another device to rule out a device-specific issue.
 - Ensure the audio output settings on your device are configured to use the connected headphones.
- Microphone Not Working:**
 - Ensure the 3.5 mm jack is fully inserted. Some devices require a TRRS (Tip-Ring-Ring-Sleeve) jack for microphone functionality, which these headphones provide.

- Check your device's privacy settings to ensure microphone access is granted to the application you are using.
- Test the microphone with another device or application.

• **Glow Effect is Weak or Non-Existent:**

- Ensure the headphones have been exposed to a strong light source for a sufficient period (e.g., 15-30 minutes in bright light).
- The glow effect is temporary and will fade over time in darkness. Re-expose to light to recharge.
- The intensity of the glow can vary based on ambient light conditions and the duration of light exposure.

SPECIFICATIONS

Model Name:	4330973497
Brand:	Bass Jaxx
Connectivity Technology:	Wired
Headphones Jack:	3.5 mm Jack
Ear Placement:	Over Ear
Form Factor:	Bi fold (Foldable)
Special Feature:	Glow in the dark, lightweight & foldable design, High quality sound, built-in mic
Compatible Devices:	Android, iPhones, smartphones, games, computers
Control Type:	Touch Control (Inline button)
