

Polder BTH-7045-94

Polder 2-in-1 Hot Sleeve Hair Care Tool Holder Instruction Manual

Model: BTH-7045-94

1. INTRODUCTION

The Polder 2-in-1 Hot Sleeve is designed to safely store and rest hot hair styling tools, such as curling irons and straighteners. Its dual-purpose design allows for convenient use at home or while traveling, protecting surfaces from heat damage.

2. SAFETY INFORMATION

WARNING:

- Avoid direct contact with skin. Hot tools can cause burns.
- Keep out of reach of children.
- Always ensure hot tools are placed securely within the holder.
- Do not leave hot tools unattended for extended periods.
- The Hot Sleeve protects surfaces up to 450 degrees F (232 degrees C). Ensure your tool's temperature does not exceed this limit.

3. PRODUCT FEATURES

- **Dual Purpose Design:** Functions as an upright holder or unfolds into a flat mat.
- **Heat Protection:** Made from silicone, protecting surfaces from temperatures up to 450 degrees F (232 degrees C).
- **Integrated Cord Holders:** Safely secures the power cord when the tool is stored.
- **Stable Base:** Flat base ensures stability when standing upright on a counter.
- **Compact for Travel:** Folds compactly for easy storage and portability.

4. SETUP

The Polder 2-in-1 Hot Sleeve requires no assembly. It is ready for use directly out of the packaging.

Upright Holder Configuration:

1. Ensure the Hot Sleeve is in its folded, upright position. The base should be flat on the counter.
2. Place your hot styling tool (curling iron or straightener) into the opening at the top.
3. Utilize the integrated cord holders on the side to wrap and secure the power cord, keeping your counter tidy.

Flat Mat Configuration:

1. Locate the hinge mechanism at the bottom of the Hot Sleeve.
2. Gently unfold the sleeve until it lies completely flat on your desired surface.
3. Place your hot styling tool directly onto the flat silicone surface while in use.

5. OPERATING INSTRUCTIONS

The Polder 2-in-1 Hot Sleeve is designed for passive use as a heat-resistant holder. No active operation is required.

Using as an Upright Holder:

- After heating your styling tool, carefully insert it into the upright Hot Sleeve.
- The silicone interior will safely contain the heat, preventing damage to surrounding surfaces.
- When finished, unplug your tool and allow it to cool completely within the sleeve before storing the sleeve away.

Using as a Flat Mat:

- Unfold the Hot Sleeve into its flat mat configuration on a stable surface.
- Rest your hot styling tool on the mat between uses during your styling routine.
- This prevents direct contact between the hot tool and your countertop or vanity.

6. MAINTENANCE

The Polder 2-in-1 Hot Sleeve is made from durable silicone and is easy to clean.

- Wipe clean with a damp cloth and mild soap.
- Rinse thoroughly and allow to air dry completely before next use or storage.
- Do not use abrasive cleaners or harsh chemicals, as these may damage the silicone material.

7. TROUBLESHOOTING

If you encounter any issues with your Polder 2-in-1 Hot Sleeve, please refer to the following common concerns:

Problem	Possible Cause	Solution
Hot Sleeve feels warm to the touch.	This is normal. The silicone is designed to absorb and dissipate heat from your styling tool.	Ensure the tool is placed entirely within the sleeve or on the mat. Avoid prolonged direct contact with the exterior of the sleeve when a hot tool is inside.
Hot Sleeve does not stand upright stably.	Uneven surface or improper placement of the tool.	Place the Hot Sleeve on a flat, stable surface. Ensure the styling tool is inserted centrally and not leaning excessively.
Cord does not stay wrapped.	Improper wrapping technique or cord is too thick.	Wrap the cord snugly around the designated hooks. For thicker cords, ensure they are secured as best as possible.

8. SPECIFICATIONS

- **Product Dimensions:** 10.75 x 2.75 x 2 inches
- **Item Weight:** 4.8 ounces
- **Material:** Silicone

- **Color:** Gray
- **Model Number:** BTH-7045-94
- **Heat Resistance:** Up to 450 degrees F (232 degrees C)
- **Included Components:** Hot Sleeve
