Hauslane UC-PS38

Hauslane Chef Series PS38 PRO PERFORMANCE Range Hood

User Manual

INTRODUCTION

Thank you for choosing the Hauslane Chef Series PS38 PRO PERFORMANCE Range Hood. This manual provides essential information for the safe and efficient operation, installation, and maintenance of your new range hood. Please read it thoroughly before use and keep it for future reference.

SAFETY INFORMATION

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, or injury. Ensure proper installation and grounding. Do not operate the range hood with a damaged cord or plug. Refer to the full user manual (PDF) for detailed safety instructions.

SETUP AND INSTALLATION

What's Included

Upon unboxing, verify that all components are present:

- Stainless steel oil tray (1)
- Water tray (1)

- Panel (1)
- 6" round exhaust adapter (1)
- Instruction, Use & Care Manual
- Fiber cloth
- Aluminum tape
- Installation template

Installation

The Hauslane PS38 is designed for under-cabinet mounting. It is recommended to have at least two people for installation due to the unit's weight (18.1 pounds). Use the provided template to mark drilling locations for mounting and ducting. Ensure proper ducting for optimal performance. The unit fits a 6-inch duct.

OPERATING INSTRUCTIONS

Control Panel

The PS38 features a sleek touch control panel for easy operation. The panel includes controls for power, fan speed, lighting, and the auto-clean function.

Fan Speed Settings

The range hood offers 6 fan speed settings, allowing you to adjust the suction power based on your cooking needs. It features powerful 950 CFM dual motors, ideal for heavy-duty cooking methods such as boiling, steaming, poaching, braising, frying, searing, and sautéing.

LED Lighting

Equipped with bright LED lights with a GU10 base, the range hood provides ample illumination for your cooking area. These energy-saving bulbs are easily replaceable and can be found at local hardware stores, allowing you to customize the light color to match your kitchen's ambiance.

Perimeter Suction Design

The unique perimeter suction design ensures that cooking fumes from all burners, including front ones, are effectively captured. This design helps to contain smoke and odors, preventing them from spreading throughout your kitchen and sticking to nearby cabinets or walls.

MAINTENANCE

Steam Auto Clean Function

The convenient Steam Auto Clean function allows you to effortlessly clean the internal components of the range hood. Simply add water to the designated water tray, activate the function, and the unit will turn water into steam to dissolve grease. The dirty water is then collected in the oil tray for easy disposal.

Innovative Steam Clean Function

Fonction innovante de nettoyage à la vapeur

Improve hygiene, motor lifespan and power efficiency. No more wondering why suction power is not the same years from now.

Améliore l'hygiène, la durée de vie du moteur et le rendement énergétique. Vous n'aurez plus à vous demander pourquoi la puissance d'aspiration n'est plus la même dans plusieurs années.

Figure 7: Diagram illustrating the innovative steam clean function.

Cleaning the Panel and Oil Tray

The stainless steel panel and oil tray are designed for easy removal and cleaning. After the steam clean cycle, simply remove the oil tray and dispose of the collected grease and water. The panel can also be removed for manual cleaning if needed. Use the provided fiber cloth for wiping down surfaces.

TROUBLESHOOTING

If you encounter any issues with your Hauslane PS38 Range Hood, please refer to the detailed troubleshooting section in the full user manual (PDF). Common issues may include:

- Reduced suction power
- Unusual noises
- Lighting issues
- Steam clean function not operating

For persistent problems, contact Hauslane customer support.
