

SNHDIGITAL Sound Isolating Handsfree Headset Earphones Earbuds with Mic, Flat Wired 3.5mm

SNHDIGITAL Sound Isolating Handsfree Headset Earphones Earbuds with Mic

INSTRUCTION MANUAL

Introduction

This manual provides instructions for the SNHDIGITAL Sound Isolating Handsfree Headset Earphones. This product is designed to deliver clear audio and facilitate hands-free communication through its integrated microphone and control button. It features a 3.5mm jack for broad compatibility with various devices.

Package Contents

- SNHDIGITAL Sound Isolating Handsfree Headset Earphones with Mic
- Extra ear gels (various sizes)

Note: This product comes in bulk packaging (non-retail package).

Setup

1. **Select Ear Gels:** Choose the ear gel size that provides a comfortable and secure fit for your ears. A proper fit is essential for optimal sound isolation and audio quality.
2. **Connect the Headset:** Insert the 3.5mm jack of the headset firmly into the headphone port of your compatible device (e.g., smartphone, tablet, MP3 player).

3. **Position the Earbuds:** Gently insert the earbuds into your ears. Adjust them until they feel snug and comfortable, ensuring the flat cable hangs freely.

Operating Instructions

- **Audio Playback:** Once connected, play audio from your device. The headset will transmit the sound directly to your ears.
- **Making and Receiving Calls:**

Image: Close-up of the headset's inline microphone and call answer/end button.

- **Answer/End Call:** Press the button on the inline control to answer an incoming call. Press it again to end an active call.
- **Microphone Usage:** The integrated microphone allows for hands-free conversations. Position the microphone close to your mouth for clear voice transmission.

Maintenance

- **Cleaning:** Regularly wipe the earbuds and cable with a soft, dry cloth. For ear gels, remove them and clean with a mild soap solution, then rinse and dry thoroughly before reattaching.
- **Storage:** When not in use, store the headset in a clean, dry place. The flat cable design helps prevent tangles, but avoid excessive bending or pulling.

- **Avoid Moisture:** Do not expose the headset to water or excessive moisture.

Troubleshooting

Problem	Possible Cause	Solution
No sound from earbuds	Headset not fully plugged in; device volume too low; incorrect audio output selected on device.	Ensure 3.5mm jack is fully inserted. Increase device volume. Check device audio settings.
Microphone not working	Microphone muted on device; headset not fully plugged in; device not recognizing microphone.	Check device microphone settings. Ensure 3.5mm jack is fully inserted. Restart device.
Call button unresponsive	Device incompatibility; temporary software glitch.	Ensure your device supports inline controls. Restart your device.
Poor sound quality / Noise isolation issues	Improper ear gel fit; damaged cable; dirty earbuds.	Try different ear gel sizes for a better seal. Inspect cable for damage. Clean earbuds and ear gels.
