PKPOWER AC/DC Adapter

PK Power AC/DC Adapter User Manual

For Bluedio BS-3 BS3 Portable Bluetooth Wireless Stereo Speaker

1. Product Overview

This manual provides instructions for the PK Power AC/DC Adapter, designed to provide reliable power to your Bluedio BS-3 BS3 Portable Bluetooth Wireless Stereo Speaker. This adapter ensures stable and efficient charging and operation of your device.

Image 1.1: The PK Power AC/DC Adapter. This image displays the main body of the adapter with its two-prong plug, and the attached power cord coiled neatly below it. The adapter's label, showing input/output specifications and certifications, is visible on its side.

2. Setup and Connection

Follow these steps to properly set up and connect your AC/DC adapter:

1. **Identify the Speaker's Power Port:** Locate the power input port on your Bluedio BS-3 BS3 Portable Bluetooth Wireless Stereo Speaker. This is typically a DC input jack.
2. **Connect the Adapter to the Speaker:** Carefully insert the output connector of the PK Power AC/DC Adapter into the power input port of your Bluedio speaker. Ensure a firm and secure connection.
3. **Connect to Power Outlet:** Plug the two-prong AC plug of the adapter into a standard wall power outlet (100-240V, 50-60Hz).
4. **Verify Power:** Once connected, your Bluedio speaker should indicate that it is receiving power, typically via an LED indicator or by powering on.

Important Safety Note: Always ensure the adapter is fully inserted into both the speaker and the wall outlet. Do not force connections. Use only in dry indoor environments.

3. Operation

The PK Power AC/DC Adapter operates by converting alternating current (AC) from your wall outlet into direct current (DC) suitable for your Bluedio BS-3 BS3 speaker. Once connected, the adapter continuously supplies power to the speaker, allowing it to operate or charge its internal battery.

- **Charging:** When the speaker is connected to the adapter and the adapter is plugged into a power source, the speaker's internal battery will begin to charge. Refer to your Bluedio BS-3 BS3 speaker's manual for specific charging indicators.
- **Direct Power:** The adapter can also power the speaker directly, allowing for extended use without relying on battery power.

4. Maintenance and Care

Proper maintenance ensures the longevity and safe operation of your adapter:

- **Cleaning:** Disconnect the adapter from the power outlet and the speaker before cleaning. Use a soft, dry cloth to wipe the surface. Do not use liquid cleaners or sprays.
- **Storage:** When not in use, store the adapter in a cool, dry place, away from direct sunlight and extreme temperatures. Avoid tightly coiling the cable to prevent damage.
- **Handling:** Do not drop, disassemble, or attempt to repair the adapter. Avoid exposing it to water or high humidity. Ensure the cable is not pinched or walked on.
- **Ventilation:** Ensure the adapter has adequate ventilation during use. Do not cover it or place it in an enclosed space that could lead to overheating.

5. Troubleshooting

If you encounter issues with your adapter, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Speaker not receiving power/charging.	• Adapter not fully plugged into outlet. • Adapter not fully plugged into speaker. • Power outlet is not functional. • Damaged adapter or cable.	• Ensure adapter is securely plugged into a live wall outlet. • Verify the adapter's connector is firmly seated in the speaker's power port. • Test the outlet with another device. • Inspect the adapter and cable for visible damage. If damaged, discontinue use and replace.
Adapter feels warm during use.	• Normal operation. • Poor ventilation.	• A slight warmth is normal. • Ensure the adapter is not covered and has adequate airflow. If it becomes excessively hot, disconnect immediately.

If the problem persists after trying these solutions, please contact customer support.

6. Specifications

- **Input Voltage:** 100-240V AC, 50-60Hz
- **Compatibility:** Specifically designed for Bluedio BS-3 BS3 Portable Bluetooth Wireless Stereo Speaker.
- **Safety Features:**

- OVP (Over Voltage Output Protection)
- OCP (Over Current Output Protection)
- SCP (Short Circuit Output Protection)

- **Certifications:** CE, FCC, RoHS certified.
- **Manufacturer:** PKPOWER

7. Warranty and Support

PKPOWER is committed to providing high-quality products and customer satisfaction.

- **Warranty:** This product is covered by a replacement service within 12 months from the date of purchase.
- **Returns:** A refund is available within 30 days of purchase.
- **Customer Support:** For any inquiries, technical assistance, or warranty claims, please contact our customer service team. We aim to respond to all inquiries within 24 hours.
