Alpine Hearing Protection 111.23.111

Alpine MotoSafe Race Earplugs User Manual

Model: 111.23.111

1. INTRODUCTION

Welcome to the user manual for your Alpine MotoSafe Race Earplugs. These earplugs are specifically designed to provide optimal hearing protection for motorcyclists, reducing harmful wind noise while ensuring essential sounds remain audible. Enjoy a safer and more comfortable riding experience with Alpine Hearing Protection.

2. PRODUCT OVERVIEW

The Alpine MotoSafe Race Earplugs feature advanced AlpineAcousticFilters, which are engineered to attenuate wind and ambient noise effectively, preventing hearing damage. Made from soft, hypoallergenic AlpineThermoShape material, they adapt to your ear canal for a comfortable fit, even under a helmet.

Key features include:

- **Effective Noise Reduction:** Reduces environmental noise on the motorcycle, which can reach 100 Decibels at 75 mph, preventing chronic hearing damage.
- **Audible Essential Sounds:** Special AlpineAcousticFilters ensure that your engine, communication systems, and navigation remain audible.
- **Comfortable Under Helmet:** Ultra-soft AlpineThermoShape material adapts to your ear canal for a perfect, pressure-free fit, ideal for long rides.
- **Easy Removal:** Equipped with a convenient mini-grip for simple and quick removal.
- **Tested and Certified:** Proven to achieve 17 dB SNR noise reduction in accordance with US & EU Regulations.

3. SETUP

For optimal performance and comfort, proper insertion of your Alpine MotoSafe Race Earplugs is crucial. The unique material adapts to your ear canal for the best fit.

1. Gently compress the earplug and insert it into your ear canal.
2. Twist the earplug slightly as you insert it to ensure a snug fit.
3. Ensure the earplug sits comfortably and does not cause pressure.
4. To remove, gently pull the small mini-grip tab.

4. OPERATING

Once properly inserted, your MotoSafe Race Earplugs will immediately begin to reduce harmful wind noise and engine sounds, allowing for a more peaceful ride. You will still be able to hear important sounds such as traffic, sirens, and your motorcycle's engine. If you use a communication system, the earplugs are designed to allow clear audio transmission, enhancing your ability to communicate with fellow riders or listen to navigation instructions without excessive background noise.

5. MAINTENANCE

To ensure the longevity and hygiene of your Alpine MotoSafe Race Earplugs, regular cleaning is recommended. The earplugs are reusable up to 100 times.

- Clean the earplugs with lukewarm water and mild soap after each use.
- Rinse thoroughly and allow them to air dry completely before storing.
- Store the earplugs in their provided carrying case to protect them from dust and damage.

6. TROUBLESHOOTING

If you experience issues with your earplugs, consider the following:

- **Insufficient Noise Reduction:** Ensure the earplugs are inserted correctly and snugly into your ear canal. A poor seal can significantly reduce effectiveness. Re-insert them following the instructions in Section 3.
- **Discomfort:** While designed for comfort, initial discomfort may occur. Ensure they are not pushed in too far. The AlpineThermoShape material will adapt to your body heat for a better fit over time.
- **Difficulty Hearing Conversations/Music:** The earplugs are designed to filter out harmful noise while allowing speech and music to be heard. If clarity is an issue, verify proper insertion.

For further assistance, please refer to the official user manual PDF or contact Alpine Hearing Protection customer support.

7. SPECIFICATIONS

Brand	Alpine Hearing Protection
