## Loading Labels into Printer:

Ensure your printer's paper tray is clean and free of debris. Load the label sheets into the printer tray according to your printer's specific instructions for specialty media. The Sure Feed Technology on Avery labels is designed to minimize misalignments and jams during printing.

## 3. PRINTING INSTRUCTIONS (OPERATING)

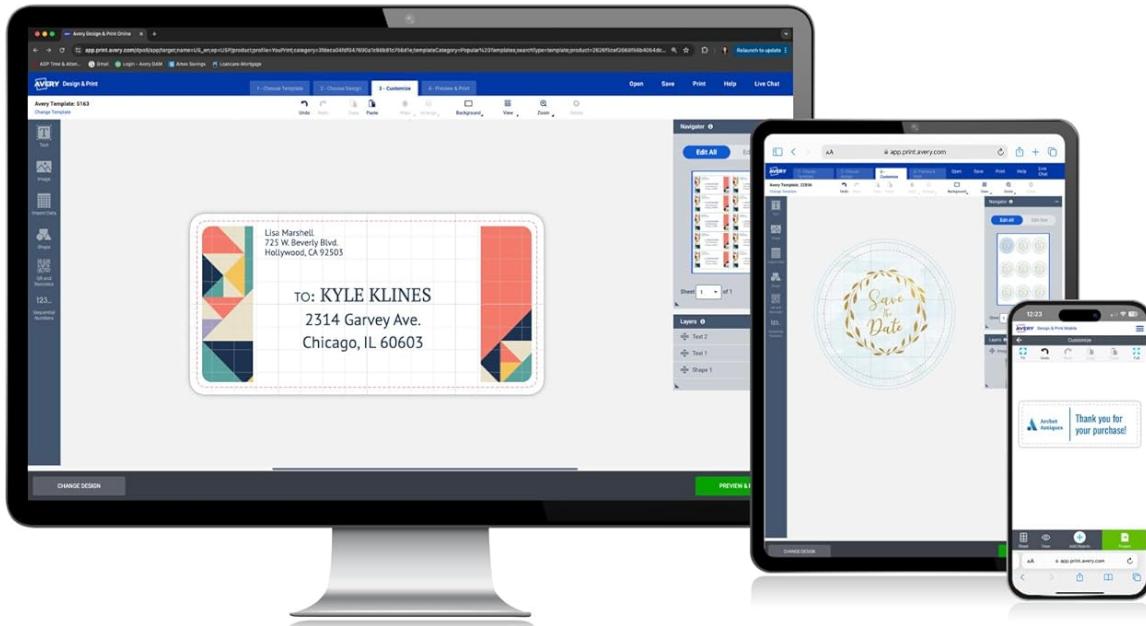

### Using Avery Design & Print Online:

Avery provides a free online tool, Avery Design & Print, to help you customize and print your labels. This tool offers thousands of available designs and easy-to-use features, including a Mail Merge function for importing names and addresses from spreadsheets.

- 1. Access the Tool:** Visit [avery.com/templates](http://avery.com/templates) in your web browser.
- 2. Find Your Template:** Enter the product number "5260" in the search bar to find the correct template for your labels.
- 3. Choose a Design:** Browse the available designs or upload your own.
- 4. Customize Your Labels:** Use the online editor to add text, images, and adjust fonts or colors.
- 5. Preview and Print:** Review your design before printing. Select "Print It Yourself" and follow the on-screen instructions to print using your laser printer.

## 4. APPLICATION (OPERATING)

### Easy Peel Feature:

The Easy Peel with Pop-up Edge feature allows for quick and hassle-free removal of labels from the sheet. Simply bend the sheet along the perforations to expose the label edges, then peel and apply.

Figure 6: The Avery Easy Peel Feature.

### Applying Labels:

Once peeled, apply the label firmly to your desired clean, dry, and smooth surface. The Ultrahold permanent adhesive ensures the labels stick and stay securely.

## 5. CARE & STORAGE (MAINTENANCE)

To maintain the quality and adhesive properties of your Avery labels, store unused sheets in their original packaging in a cool, dry place away from direct sunlight and extreme temperatures. Avoid bending or creasing the label sheets to prevent damage to the

labels or the Sure Feed edges.

## 6. TROUBLESHOOTING

---

### Common Issues and Solutions:

Issue	Possible Cause	Solution
Labels are misaligned during printing.	Incorrect printer settings, generic labels, or improper loading.	Ensure you are using Avery 5260 labels with Sure Feed Technology. Verify printer settings match label type. Load labels correctly into the printer tray. Use Avery Design & Print Online for precise alignment.
Printer jams when feeding label sheets.	Damaged label sheets, incorrect paper type setting, or printer issues.	Avery Sure Feed Technology is designed to prevent jams. Ensure label sheets are not bent or damaged. Check your printer's manual for recommended paper settings for labels.
Printed text or images are smeared/smudged.	Using an inkjet printer, incorrect ink type, or handling labels before ink dries.	These labels are optimized for <b>laser printers</b> . If using an inkjet printer, ensure it supports label printing and allow sufficient drying time.
Labels do not stick well.	Surface is dirty, oily, wet, or not smooth.	Ensure the application surface is clean, dry, and smooth. Apply firm pressure across the entire label surface.
