La-Z-Boy 48080

Instruction Manual

LA-Z-BOY EXECUTIVE CHAIR MODEL 48080

Introduction

Thank you for choosing the La-Z-Boy Executive Chair Model 48080. This manual provides essential information for the safe assembly, operation, and maintenance of your new chair. Please read these instructions carefully before use and retain them for future reference.

Safety Information

This chair has a maximum weight capacity of **300 pounds** and is constructed with heavy-duty aluminum arms and base for stability. Ensure proper use in an office environment.

- Do not stand on the chair.
- Do not use the chair as a step stool.
- Ensure all bolts and screws are securely tightened before use. Periodically check and re-tighten as necessary.
- Keep hands and fingers clear of moving parts during adjustment.
- Use the chair only for its intended purpose as an office chair.

Package Contents

Please verify that all components are present before beginning assembly. If any parts are missing or damaged, contact customer support.

- Chair Backrest
- Chair Seat
- Armrests (2)
- Arm Pads (2)
- Chair Base
- Casters (5)
- Gas Lift Cylinder
- Mechanism Plate
- Hardware Pack (screws, washers, Allen wrench)

Assembly Instructions

Follow these steps carefully to assemble your La-Z-Boy Executive Chair. It is recommended to assemble the chair on a soft, non-abrasive surface to prevent damage.

Step 1: Attach Casters to Base

Insert each of the five casters into the holes at the end of each leg of the chair base. Push firmly until they click into place.

Step 2: Insert Gas Lift

Place the gas lift cylinder into the center hole of the assembled chair base. Ensure it is seated firmly.

Step 3: Attach Mechanism Plate to Seat

Align the mechanism plate with the pre-drilled holes on the underside of the seat cushion. Ensure the front of the mechanism faces the front of the seat. Secure with the provided screws and tighten with the Allen wrench.

Step 4: Attach Armrests to Seat and Backrest

Attach the armrests to the sides of the seat and backrest using the designated screws. Do not fully tighten all screws until the backrest is also aligned and attached to the armrests. The arm pads are pre-attached or can be snapped into place on the armrests.

Step 5: Connect Seat Assembly to Gas Lift

Carefully place the assembled seat and backrest onto the gas lift cylinder, ensuring the tapered end of the gas lift fits securely into the mechanism plate.

Operating Instructions

Your La-Z-Boy Executive Chair is designed for comfort and adjustability. Familiarize yourself with its functions.

Height Adjustment

To raise the chair, lift the lever on the right side of the seat while taking your weight off the seat. To lower the chair, lift the lever while seated.

Tilt Adjustment and Lock

Pull the same lever (on the right side) outwards to allow the chair to tilt. Push the lever inwards to lock the chair in an upright position. The chair features flexible lumbar support that conforms to your movement.

Maintenance

Proper care will extend the life and appearance of your chair.

Cleaning

The faux leather upholstery requires **spot cleaning**. Use a soft, damp cloth with mild soap and water. Avoid abrasive cleaners or solvents, as these can damage the material. Test any cleaning solution on an inconspicuous area first.

General Care

Periodically check all screws and bolts to ensure they are tight. Re-tighten as needed. Keep the casters clean from hair and debris to ensure smooth movement.

Troubleshooting

If you encounter any issues with your chair, refer to the following common problems and solutions:

Problem	Possible Solution
Chair Sinks or Does Not Hold Height	Ensure the gas lift cylinder is properly seated in both the base and the mechanism. If the issue persists, the gas lift may need replacement.
Chair Feels Wobbly	Check and tighten all assembly screws, especially those connecting the armrests to the seat and backrest, and the mechanism to the seat.
Casters Not Rolling Smoothly	Inspect casters for any trapped debris (hair, lint, etc.) and clean them. Ensure they are fully inserted into the base.
Chair Does Not Tilt	Ensure the tilt lock lever is disengaged (pulled outwards).

Specifications

Key specifications for your La-Z-Boy Executive Chair Model 48080:
