kwmobile DIY Puzzle Lamp Shade (Model 41359_m000096) Instruction Manual

INTRODUCTION

This manual provides comprehensive instructions for the assembly, operation, and maintenance of your kwmobile DIY Puzzle Lamp Shade. This product is a decorative light shade composed of 30 interlocking pieces, designed for versatile use as a ceiling pendant or table lamp shade. Please read all instructions carefully before beginning assembly to ensure proper setup and safe use.

SETUP: ASSEMBLY INSTRUCTIONS

The kwmobile DIY Puzzle Lamp Shade consists of 30 identical pieces that interlock to form various shapes. Patience and careful attention to the interlocking pattern are key for successful assembly. You can create at least 15 different designs with the provided pieces.

Step-by-Step Assembly Guide:

1. **Unpack Components:** Carefully remove all 30 pieces from the packaging. Ensure no pieces are damaged.
2. **Identify the Interlocking Mechanism:** Each piece has specific tabs and slots designed to connect with other pieces. Observe the shape of the pieces and how they are intended to fit together.
3. **Follow a Pattern:** The most common assembly involves creating a spherical shape. Begin by interlocking a small group of pieces (e.g., 3-5 pieces) to establish the initial curve. Many users find it helpful to lay out the pieces as shown in diagrams or follow a visual guide.

4. **Gradual Expansion:** Continue adding pieces, ensuring each new piece securely locks into the existing structure. Maintain an even curvature as you build the shade.
5. **Secure Connections:** Apply gentle but firm pressure to ensure all tabs are fully inserted into their corresponding slots. The material is durable but avoid excessive force.
6. **Finalizing the Shape:** Once all 30 pieces are interlocked, the shade will form a stable, three-dimensional structure.

OPERATING INSTRUCTIONS

The kwmobile DIY Puzzle Lamp Shade is designed for use with a standard light cord and bulb (not included). Its versatile design allows for various applications.

Installation and Usage:

- **Bulb Insertion:** To insert a light bulb, gently open a section of the assembled lamp shade to create an opening large enough for the bulb. Carefully place the bulb into the center of the shade and then re-interlock the pieces to secure it.
- **Recommended Bulb Type:** For optimal safety and performance, use LED bulbs that do not generate excessive heat. Avoid high-wattage incandescent bulbs, as they can cause heat damage to the polypropylene material.
- **Mounting Options:**
 - **Pendant Lamp Shade:** Attach the assembled shade to a compatible light cord (sold separately) for hanging from the ceiling.
 - **Table Lamp Shade:** Place the assembled shade over a suitable table lamp base and light fixture.
- **Placement:** The modern design complements various room aesthetics, making it suitable for living rooms, dining areas, bedrooms, or offices.

MAINTENANCE

To maintain the appearance and longevity of your kwmobile DIY Puzzle Lamp Shade, follow these simple cleaning guidelines:

- **Dusting:** Regularly dust the lamp shade with a soft, dry cloth or a feather duster to prevent dust buildup.
- **Spot Cleaning:** For minor marks or smudges, gently wipe the affected area with a damp cloth. Avoid using abrasive cleaners or harsh chemicals, as these can damage the polypropylene material.
- **Deep Cleaning:** If a more thorough cleaning is required, you may carefully disassemble the shade and wash the individual pieces with mild soap and water. Ensure all pieces are completely dry before reassembling.

TROUBLESHOOTING

If you encounter any issues during assembly or use, refer to the following common solutions:

Problem	Solution
Difficulty assembling the shade.	Review the step-by-step instructions and watch the provided video tutorials carefully. Start with a small section to understand the interlocking pattern. Patience is essential. If a piece feels forced, re-evaluate the connection.
Shade appears lopsided or unstable.	Ensure all 30 pieces are correctly interlocked and secured. A loose connection can affect the overall stability and symmetry. Gently adjust pieces until the desired shape is achieved.
Difficulty inserting the light bulb.	The shade does not have a dedicated opening for the bulb. Gently separate a few interlocking pieces to create a temporary opening for bulb insertion. Once the bulb is in place, re-interlock the pieces to close the gap.
Light output is too dim.	Ensure you are using an appropriate wattage LED bulb. The polypropylene material diffuses light, so a brighter LED bulb may be required for larger rooms or if you prefer more intense illumination.

SPECIFICATIONS

- **Brand:** kwmobile
- **Model Number:** 41359_m000096
- **Color:** White
- **Material:** Polypropylene (PP)
- **Shape:** Round (when assembled in standard spherical design)
- **Assembled Diameter:** Approximately 10.6 inches (27 cm)
- **Item Weight:** 216 g
- **Number of Pieces:** 30
- **Mounting Type:** Ceiling Mount (with compatible cord, sold separately) or Tabletop

WARRANTY INFORMATION

This product is covered by the standard manufacturer's warranty. Please refer to your purchase documentation or contact the retailer for specific warranty terms and conditions. Keep your proof of purchase for any warranty claims.

CUSTOMER SUPPORT
