Ateco 609

Ateco Reversible 2-Sided Revolving Cake Decorating Stand

MODEL 609 INSTRUCTION MANUAL

1. Product Overview

The Ateco Model 609 Reversible 2-Sided Revolving Cake Decorating Stand is designed to assist in the decoration of both round and rectangular cakes. This versatile stand features two distinct decorating surfaces: a 12-inch by 16-inch rectangular turntable for sheet cakes and a 12-inch diameter circular turntable for round cakes. Both turntables are equipped with blue non-skid inserts to prevent cake slippage during use and can be locked in place when rotation is not desired. The stand is constructed from durable, food-grade plastic.

surfaces.

2. Setup

1. **Unpacking:** Carefully remove all components from the packaging. Inspect the stand for any signs of damage.
2. **Cleaning:** Before first use, wipe the stand with a damp cloth. Do not submerge the entire unit in water. Refer to the Maintenance section for detailed cleaning instructions.
3. **Selecting the Turntable:** The stand features two sides. Determine whether you require the rectangular (12" x 16") or round (12" diameter) decorating surface for your cake.
4. **Positioning:** Place the desired turntable side facing upwards on a stable, flat countertop. Ensure the stand is level.

Image 2.2: Top view of the round decorating surface, also with non-skid inserts.

3. Operating Instructions

1. **Placing the Cake:** Carefully center your cake on the chosen decorating surface. The blue non-skid inserts are designed to help secure the cake.
2. **Rotating the Stand:** Gently rotate the turntable as needed for even frosting or detailed decoration. The stand is designed for smooth rotation.
3. **Locking the Turntable:** If a stationary surface is preferred, locate the locking mechanism on the side of the base. Engage the lock to prevent rotation. Disengage to resume rotation.
4. **Switching Sides:** To use the alternate decorating surface, lift the top turntable section from the base, flip it over, and re-seat it securely on the base.

4. Maintenance

Proper care ensures the longevity and performance of your Ateco decorating stand.

- **Cleaning:** Wipe the stand clean with a damp cloth after each use.
- **Drying:** Ensure the stand is thoroughly dry before storage.
- **Dishwasher Safety:** This product is **not** dishwasher safe. Do not submerge the stand in water, as this may affect the internal rotating mechanism.
- **Storage:** Store in a clean, dry place away from direct heat or sunlight.

5. Troubleshooting

Issue	Possible Cause	Solution
-------	----------------	----------

Issue	Possible Cause	Solution
Turntable does not rotate smoothly.	Debris in the rotating mechanism; locking mechanism engaged.	Ensure the locking mechanism is disengaged. Clean the area around the base and rotating parts with a damp cloth to remove any obstructions.
Cake slips on the surface.	Non-skid inserts are dirty or wet; cake not centered.	Ensure the non-skid inserts are clean and dry. Center the cake properly on the turntable. A small amount of frosting can also help secure the cake.
Stand feels unstable.	Uneven surface; stand not properly assembled.	Place the stand on a flat, stable surface. Ensure the top turntable section is securely seated on the base.

6. Specifications

Feature	Detail
Brand	Ateco
Model Number	609
