SABRE S-2000SF-G

SABRE 2-in-1 Stun Gun with LED Flashlight User Manual

Model: S-2000SF-G

INTRODUCTION

The SABRE 2-in-1 Stun Gun with LED Flashlight is designed for personal safety, offering both a powerful stun feature and a bright flashlight. It features a 1.820 μC (Microcoulombs) charge, capable of producing intolerable pain according to the National Institute of Justice. The built-in 120 lumen LED flashlight can help disorient an attacker from a safe distance and is also useful for general illumination. This rugged device is made from aircraft-grade aluminum, ensuring durability for everyday use. It includes a rechargeable battery and comes with a belt holster for convenient carrying and quick access.

IMPORTANT SAFETY INFORMATION

WARNING: This product can expose you to lead and phthalates, which is known to the State of California to cause cancer, birth defects, and reproductive harm. For more information go to www.P65Warnings.ca.gov.

- Always handle the stun gun responsibly and keep it out of reach of children.
- Do not use the stun gun on individuals with pacemakers or other medical conditions.
- Avoid prolonged contact with the stun gun electrodes.
- Ensure the safety switch is engaged when not in use to prevent accidental discharge.
- Do not immerse the device in water or expose it to extreme temperatures.
- Consult local laws and regulations regarding the legality of stun gun ownership and use in your area.

THE TRUTH ABOUT STUN GUNS
From the National Institute of Justice: charge
(measured in microCoulombs/ μC) indicates
stun gun strength / stopping power.

Understanding stun gun strength: The 1.820 μC charge of this model is designed to produce intolerable pain, as per National Institute of Justice standards.

All SABRE Stun Guns are independently tested by Rassetica Testing Limited to ensure Microcoulombs (uC) emission for reliable protection you can count on when faced with danger.

All SABRE Stun Guns are independently tested by Rassetica Testing Limited to ensure reliable Microcoulombs (μC) emission for effective protection.

The complete package includes the stun gun flashlight, a durable belt holster, and a charging cable for convenience.

SETUP

Charging the Device

Before first use, fully charge your SABRE 2-in-1 Stun Gun. Locate the charging port at the base of the device. Connect the included charging cable to the port and plug the other end into a standard wall outlet. The indicator light will illuminate

during charging. Once fully charged, disconnect the cable. Regular charging ensures the device is always ready for use.

Attaching the Wrist Strap/Using the Holster

Attach the wrist strap to the designated loop on the stun gun for added security during use. For convenient and discreet carrying, utilize the provided belt holster. Slide the stun gun into the holster and secure it to your belt for quick access.

OPERATING INSTRUCTIONS

Safety Switch Operation

The device is equipped with a safety switch to prevent accidental discharge. Always ensure this switch is in the 'OFF' position when not actively using the stun or flashlight features. To activate the device, slide the safety switch to the 'ON' position.

Using the LED Flashlight

With the safety switch in the 'ON' position, press the flashlight button to cycle through the different light modes: high, low, and strobe. The bright 120 lumen flashlight can be used for general illumination or to disorient a potential threat with its powerful beam and strobe function.

Activating the Stun Feature

To activate the stun feature, first ensure the safety switch is in the 'ON' position. Then, slide the dedicated stun activation switch forward and press the stun button. The device will emit a loud, intimidating sound and a visible electrical arc between the electrodes. This indicates the stun feature is active and ready for use. Apply the electrodes directly to an attacker's body for maximum effectiveness. Release the stun button to deactivate the stun feature.

MAINTENANCE

- **Charging:** Regularly charge the stun gun to maintain optimal battery performance. Avoid completely draining the battery before recharging.
- **Cleaning:** Wipe the exterior of the device with a soft, dry cloth. Do not use abrasive cleaners or immerse the device in liquids.
- **Storage:** Store the stun gun in a cool, dry place, away from direct sunlight and extreme temperatures. Keep it out of reach of children and unauthorized users.

TROUBLESHOOTING

- **Device not turning on:** Ensure the battery is charged. Check the safety switch is in the 'ON' position.
- **Flashlight not working:** Verify the battery is charged and the safety switch is 'ON'. Press the flashlight button firmly.
- **Stun feature not activating:** Confirm the battery is charged, the safety switch is 'ON', and the stun activation switch is fully engaged. Ensure the stun button is pressed.

- **Reduced performance:** A low battery can affect performance. Recharge the device fully.

SPECIFICATIONS

Product Dimensions	6.37"L x 1.5"W
Charge (Pain Inducing)	1.820 μ C (Microcoulombs)
Flashlight Lumens	120 Lumens
Battery Type	Rechargeable
Material	Aircraft Grade Aluminum (body), Plastic (some components)
Color	Army Green Stun Gun
Model Name	SABRE
Model Number	S-2000SF-G
UPC	023063808215
