Hauck 66116

Hauck Alpha+ Grow Along Solid Beechwood Highchair

Model: 66116

1. INTRODUCTION

The Hauck Alpha+ Grow Along Highchair is a versatile and durable seating solution designed to adapt to your child's growth from infancy through toddlerhood and beyond. Crafted from premium European Beechwood sourced from FSC certified forests, this highchair offers a solid structure with integrated floor gliders for enhanced stability and tilt-proof use. It supports a maximum load of 198 pounds, ensuring long-term durability and functionality as a highchair or a regular stool.

2. SAFETY INFORMATION

WARNING: When used as a high chair, this product is intended for children who can sit upright independently and for an age up to 3 years or a maximum weight of 15 kg (approximately 33 pounds). Please adhere to the EN 14988:2017 + A1:2020 standards. The highchair's overall structure is designed to support up to 198 pounds when used as a stool for older children or adults. Always ensure the 5-point harness and safety bar are correctly installed and secured when using with infants and toddlers.

3. WHAT'S IN THE Box

- 1 x Wooden Highchair
- 1 x 5 Point Harness
- 1 x Front Bar

4. SETUP AND ASSEMBLY

Carefully unpack all components and verify against the 'What's in the Box' list. Follow the detailed assembly instructions provided in the separate manual included with your highchair. Ensure all screws and fasteners are securely tightened, but avoid over-tightening until all parts are aligned. The highchair is designed for straightforward assembly, but attention to detail is crucial for stability and safety.

5. OPERATING INSTRUCTIONS

5.1 Using with Infants and Toddlers (Highchair Mode)

For infants and toddlers who can sit upright independently (from approximately 6 months up to 3 years or 15 kg), use the highchair with the included 5-point harness and front bar. The adjustable seat and footplate ensure proper ergonomic positioning for your child.

Smart Design, Safer Choices

Includes Two Harness System

Equipped with both 5-point and 3-point harness for maximum safety and flexibility

Use with or without the Front Bar

Choose added support for younger children or allow more freedom for toddlers by removing the front bar

Figure 5.2: The 5-point harness system for secure seating.

5.2 Using with Older Children (Stool Mode)

As your child grows, the highchair can be converted into a stable stool. The front bar and harness can be removed to allow older children to sit comfortably at a dining table or desk. The adjustable seat and footplate can be reconfigured to suit their height, providing an ergonomic seating solution for years.

6. ADJUSTMENTS

The Hauck Alpha+ Highchair features multiple adjustment slots for both the seat and footplate. This allows you to customize the chair's configuration to provide optimal support and comfort as your child grows. To adjust, loosen the side screws, slide the seat or footplate to the desired height, and then securely tighten the screws. Always ensure both sides are adjusted to the same level for stability.

7. MAINTENANCE

To clean your Hauck Alpha+ Highchair, simply wipe it down with a damp cloth. For stubborn messes, a mild soap solution can be used, followed by wiping with a clean, damp cloth to remove any residue. Ensure the highchair is completely dry before next use. Regularly check all screws and connections to ensure they remain tight and secure.

8. TROUBLESHOOTING

If you encounter any issues with your Hauck Alpha+ Highchair, please refer to the detailed troubleshooting section in the full instruction manual. For persistent problems or concerns not addressed in the manual, please contact Hauck customer support for assistance.

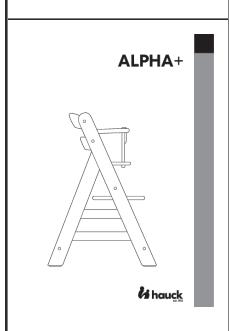

9. SPECIFICATIONS

Feature	Detail
Product Dimensions	18.9"D x 22"W x 30.3"H
Item Model Number	66116
Maximum Weight Recommendation (Highchair)	15 kg (33 lbs)
Maximum Weight Recommendation (Stool)	198 Pounds
Material Type	Wood (European Beechwood)
Harness Type	5-point harness crotch strap
Item Weight	18.7 Pounds
