

Kohree HP339-HM

Kohree ST58 Vintage LED Edison Light Bulbs

INSTRUCTION MANUAL

Introduction

Thank you for choosing Kohree ST58 Vintage LED Edison Light Bulbs. These 6W LED bulbs are designed to replace traditional 60W incandescent bulbs, offering significant energy savings and a long lifespan. Featuring a 4000K Daylight White color temperature and dimmable functionality, they are suitable for various indoor and outdoor applications with an E26 base.

Please read this manual carefully before installation and use to ensure proper operation and safety.

Safety Information

- Always turn off the power supply before installing or replacing bulbs.
- Do not use in fully enclosed fixtures as this may shorten bulb lifespan.
- Ensure the bulb is securely screwed into the socket before turning on power.
- Avoid touching the bulb when it is operating or immediately after turning it off, as it may be hot.
- This bulb is designed for 110-120V AC circuits.
- Keep out of reach of children.

Setup and Installation

1. **Power Off:** Before beginning installation, ensure the power to the fixture is turned off at the circuit breaker or wall switch.
2. **Unpack:** Carefully remove the LED bulb from its packaging. Handle the glass bulb gently.
3. **Install:** Screw the E26 base of the bulb clockwise into the compatible light fixture socket until it is snug. Do not overtighten.
4. **Power On:** Restore power to the fixture. The bulb should illuminate.

Operating Instructions

These Kohree ST58 LED bulbs provide 4000K Daylight White light, offering a bright and neutral illumination suitable for task lighting and general ambiance. They are fully dimmable, allowing you to adjust the light output to your preference.

- **Standard Operation:** Simply turn on the light switch to illuminate the bulb.
- **Dimming Function:** If connected to a compatible dimmer switch, rotate or slide the dimmer control to adjust the brightness level. The bulb is designed to provide a stable glow without flickering across its dimming range.

Video: This video demonstrates the features of the Kohree E26 Daylight Dimmable Edison LED Bulb, including its premium quality, vintage design, 6W LED chips, clear glass, E26 base, dimmable functionality, 4000K daylight output, energy efficiency, and 360-degree omni-directional light distribution.

Maintenance

- **Cleaning:** Ensure the power is off and the bulb is cool before cleaning. Wipe with a soft, dry cloth. Do not use liquid or abrasive cleaners.
- **Lifespan:** These LED bulbs have an estimated lifespan of over 20,000 hours under normal operating conditions, significantly reducing the need for frequent replacements.
- **Disposal:** Dispose of old or broken bulbs according to local regulations for electronic waste.

Troubleshooting

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Bulb does not light up.	No power to the fixture, loose connection, or faulty bulb.	Check power supply, ensure bulb is screwed in tightly, or try a different bulb in the same fixture.
Bulb flickers or buzzes.	Incompatible dimmer switch, loose connection, or electrical interference.	Ensure dimmer is LED-compatible (refer to recommended dimmers), tighten bulb, or consult an electrician if problem persists.
Bulb is not dimming properly.	Incompatible dimmer switch or dimmer not designed for LED loads.	Replace dimmer with an LED-compatible dimmer switch (e.g., Lutron S-600P, DVCL-153P, CTCL-153P, MA-600).
