Port Authority K567

Port Authority 5-in-1 Performance Pique Polo K567 User Manual

Model: K567

INTRODUCTION

This manual provides essential information for the care and use of your Port Authority 5-in-1 Performance Pique Polo, model K567. Designed for durability and comfort, this polo features advanced fabric technology for moisture-wicking, odor-fighting, low-pill resistance, snag resistance, and a soil-release finish. Please read this manual thoroughly to ensure proper handling and longevity of your garment.

KEY FEATURES

- **Fabric Composition:** 5.3-ounce, 100% polyester (5.6-ounce for White).
- **Performance:** Exceptional moisture-wicking and odor-fighting properties.
- **Durability:** Low-pill and snag-resistant fabric.
- **Maintenance:** Soil-release finish, ideal for food service uniforming.
- **Construction:** Double-needle stitching throughout for enhanced durability.
- **Design:** Flat knit collar and cuffs, 3-button placket with dyed-to-match buttons, side seam panels, and side vents.

SETUP AND INITIAL INSPECTION

Upon receiving your Port Authority K567 polo, please perform the following steps:

1. **Unpack:** Carefully remove the polo from its packaging.
2. **Inspect:** Examine the garment for any manufacturing defects, loose threads, or damage incurred during shipping.
3. **Pre-wash (Optional but Recommended):** For optimal comfort and to remove any residual manufacturing finishes, it is recommended to wash the polo before first wear according to the care instructions provided in the Maintenance section.

Image: Detailed size chart for Port Authority K567 polos, including measurements for chest, neck, sleeve length, waist, bust, and hip across various adult, ladies, youth, infant, and toddler sizes.

For specific fit details, consider the "Regular/Tall Chest Measurement" and "Regular/Tall Neck Size" for adult sizes. The fabric's inherent stretch provides comfort during movement.

CARE AND MAINTENANCE

Proper care is essential to maintain the performance and appearance of your Port Authority K567 polo. Follow these instructions carefully:

- **Washing:** Machine wash cold with like colors. Do not bleach.
- **Drying:** Tumble dry low. Remove promptly to prevent wrinkles.
- **Ironing:** If necessary, iron on low heat. Do not iron directly on any printed or embroidered areas.
- **Dry Cleaning:** Do not dry clean.

- **Special Considerations:** Due to the nature of 100% polyester performance fabrics, special care must be taken throughout any printing process (e.g., screen printing, heat transfer) to avoid damage to the fabric. Consult with your decorator for best practices.

TROUBLESHOOTING COMMON ISSUES

While the K567 polo is designed for durability, some common issues related to garment care can be easily addressed:

Issue	Possible Cause	Solution
Pilling	Excessive friction or improper washing.	Ensure proper washing techniques (e.g., turning inside out). Use a fabric shaver for existing pills.
Odor Retention	Insufficient washing or prolonged dampness.	Wash promptly after wear. Consider using a sports detergent designed for synthetic fabrics. Ensure thorough drying.
Snags	Contact with sharp objects or rough surfaces.	While snag-resistant, avoid abrasive surfaces. Minor snags can sometimes be carefully pushed back into the fabric.
Shrinkage/Stretching	Improper washing or drying temperatures.	Follow care instructions precisely (cold wash, low tumble dry). Polyester is generally resistant to shrinkage.
