Satisfyer SATPRO2_1

Satisfyer Pro 2 Air-Pulse Clitoral Stimulator User Manual

Model: Pro 2 Air-Pulse Clitoris (SATPRO2_1)

Brand: Satisfyer

INTRODUCTION

The Satisfyer Pro 2 is an iconic clitoral stimulator that combines revolutionary Airpulse technology with intense pressure waves for an exhilarating experience. Crafted from skin-friendly silicone, its ergonomic design ensures comfortable and intuitive handling. With 11 distinct pressure wave intensities, it delivers powerful, touch-free clitoral stimulation.

SAFETY INFORMATION

For Adult Use Only. Keep Away From Minors.

Legal Disclaimer

Statements regarding dietary supplements have not been evaluated by the FDA and are not intended to diagnose, treat, cure, or prevent any disease or health condition.

SETUP

Charging the Device

Before first use, fully charge your Satisfyer Pro 2. The device comes with a magnetic USB charging cable.

1. Connect the magnetic end of the charging cable to the charging points on the device.
2. Plug the USB end into a compatible USB power source (e.g., computer, USB wall adapter).
3. The power button light will flash while charging and remain steady when fully charged. A full charge takes

approximately 1.5 hours.

MAINTENANCE & CLEANING

Cleaning and Care

The Satisfyer Pro 2 is made of skin-friendly silicone and is waterproof, making it easy to clean.

1. After each use, clean the device with lukewarm water and a mild toy cleaner or antibacterial soap.
2. The silicone head can be gently removed for thorough cleaning.
3. Rinse thoroughly and allow the device to air dry completely before storing.
4. Do not submerge the entire device for extended periods, as it is water-resistant, not fully submersible.

TROUBLESHOOTING

Problem	Possible Cause / Solution
Device does not turn on or respond.	Ensure the device is fully charged. Press and hold the power button for 1-2 seconds. If the issue persists, try charging with a different USB power source.
Red blinking light and no charge.	This may indicate a charging issue or a battery fault. Ensure the magnetic charger is properly aligned and connected. Try a different charging cable or power adapter. If the problem continues, contact customer support.
Device does not hold a charge or battery life is short.	Battery degradation can occur over time. Ensure proper charging practices. If the device is still under warranty, contact support for a replacement.
Reduced suction or intensity.	Ensure the silicone head is clean and free of debris. Re-attach the silicone head securely. Check battery level and recharge if necessary.
