

## APEXEL WS-SQB641

# APEXEL WS-SQB641 2-in-1 Extendable Selfie Stick Monopod Tripod Stand Instruction Manual

Model: WS-SQB641

## 1. INTRODUCTION

This manual provides detailed instructions for the APEXEL WS-SQB641 2-in-1 Extendable Selfie Stick Monopod Tripod Stand. This versatile device combines the functionality of a selfie stick with a stable tripod, designed for capturing photos and videos with your smartphone. It features an extendable body, a rotatable phone holder, and a wireless remote shutter for convenient operation.

## 2. PACKAGE CONTENTS

- APEXEL Selfie Stick & Tripod (Model WS-SQB641) ×1
- Wireless Remote Shutter (battery included) ×1
- Charging Cable (Micro USB) ×1

## Durable awesome gift for your holidays

**Figure 1: Package Contents and Product Components.** This image displays the APEXEL WS-SQB641 selfie stick and tripod, its detachable Bluetooth remote, and the included Micro USB charging cable. Key features like the ABS+PC phone holder, 225° rotation knob, 360° rotation head, aluminum alloy extension, and foldable ABS+PC tripod are labeled.

### 3. SETUP INSTRUCTIONS

#### 3.1. Bluetooth Remote Pairing

1. Long press the button on the remote until it flashes quickly.
2. Turn on Bluetooth on your smartphone (compatible with Android 4.3 or above, iOS 5.1 or above).
3. Find and select the device (e.g., 'APEXEL' or 'WS-SQB641') to pair with it.

#### 3.2. Attaching Your Phone

1. Gently pull apart the phone holder clamps.
2. Insert your smartphone into the holder, ensuring it is securely gripped by the silicone pads. The holder supports devices under 6 inches in width.

#### 3.3. Deploying the Tripod

1. Gently unfold the three legs from the base of the selfie stick.
2. Ensure the center leg of the tripod is pushed up to fully extend and stabilize the tripod.

## How to make the tripod more stable?

**Figure 2: Tripod Stability Guide.** This diagram illustrates how to properly open the phone holder and tripod, extend the selfie stick, fix the phone, and ensure the center leg is standing on the ground for secure tripod use.

**Video 1: Product Overview and Setup.** This video demonstrates the APEXEL 2-in-1 Extendable Selfie Stick Monopod Tripod Stand, showcasing its compact design, extension capabilities, and how to set it up for use as both a selfie stick and a tripod.

## 4. OPERATING INSTRUCTIONS

### 4.1. Selfie Stick Mode

1. Hold the handle firmly.
2. Extend the aluminum alloy rod to your desired length (up to 26.6 inches).
3. Adjust the phone holder's angle using the 225° rotation knob and the 360° rotatable head to achieve the perfect shot.
4. Use the wireless remote shutter to capture photos or start/stop video recording.

### 4.2. Tripod Mode

1. Ensure the tripod legs are fully spread and stable on a flat surface.
2. Extend the rod to your desired height.
3. Adjust the phone holder's angle as needed.

4. Use the wireless remote shutter to capture photos or start/stop video recording from a distance.

**Figure 3: Three-Way Rotation.** This image illustrates the 360° rotation of the phone holder, the 225° rotation clamp with an adjustable knob, and the 360° rotation head, allowing for versatile camera angles in both horizontal and vertical modes.

**Video 2: Bluetooth Remote and Tripod Demonstration.** This video highlights the functionality of the detachable Bluetooth remote and the stability of the tripod stand, demonstrating how to use it for hands-free photography and videography.

**Video 3: 360-Degree Rotation Feature.** This video demonstrates the 360-degree rotation capability of the phone holder, allowing users to easily switch between landscape and portrait orientations.

## 5. FEATURES

- **2-in-1 Design:** Functions as both an extendable selfie stick and a stable tripod stand.
- **Wireless Remote Shutter:** Detachable Bluetooth remote allows for remote photo and video capture.
- **Extendable & Portable:** Compact 7.9-inch folded size, extends up to 26.6 inches, weighing 5.47 oz for easy portability.
- **Adjustable Angles:** Features a 225° rotation clamp with an adjustable knob, a 360° rotatable phone holder, and a 360° rotation head for optimal shooting angles.
- **Wide Compatibility:** Universal cell phone holder compatible with various iPhone models (16, 15, 14, 13, 12, 11, X, XS Pro Max Plus), Samsung Galaxy models (S24, S23, S22, S21, S20 Ultra), Pixel, and

OnePlus smartphones.

**Figure 4: Product Versatility.** This image showcases the APEXEL WS-SQB641 in its compact form, extended as a selfie stick with a phone, and set up as a tripod with a phone, highlighting its 2-in-1 functionality and wireless remote.

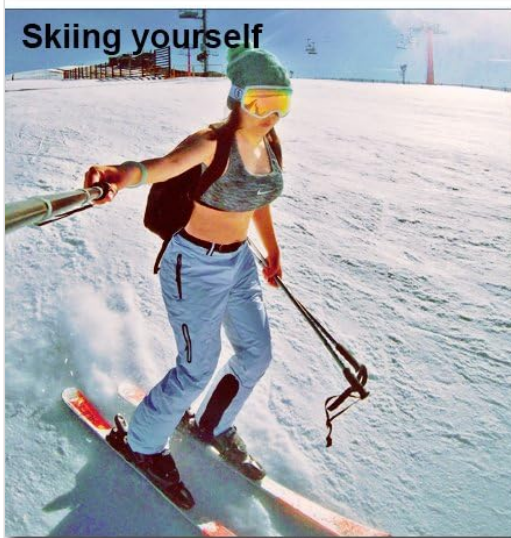

# APEXEL

**Figure 5: Usage Scenarios.** This image demonstrates the APEXEL WS-SQB641 being used for shooting videos, watching movies, and participating in video conferences, illustrating its adaptability for different media consumption and creation needs.

*Record every meaningful moment in your life*

— Handheld Mode

**Figure 6: Handheld Mode Applications.** This image displays the APEXEL WS-SQB641 in handheld mode, capturing moments during activities such as playing with classmates, gathering with friends, skiing, and traveling with loved ones.

# *Record every meaningful moment in your life*

— By Tripod and Bluetooth Shutter

**Figure 7: Tripod Mode Applications.** This image shows the APEXEL WS-SQB641 utilized in tripod mode for capturing memories during travel, family gatherings, dates, and graduation ceremonies.

**Figure 8: Compactness and Phone Compatibility.** This image highlights the compact folded size of the APEXEL WS-SQB641, demonstrating its ability to fit into a pocket or bag. It also provides dimensions for the adjustable phone holder, suitable for phones with a width less than 3.5 inches (6 inches or less cellphone screen size).

## 6. MAINTENANCE

- Keep the device clean by wiping it with a soft, dry cloth.
- Avoid exposing the device to extreme temperatures or moisture.
- Store the selfie stick in its carrying pouch when not in use to prevent scratches and damage.
- Charge the wireless remote shutter regularly to ensure it is ready for use.

## 7. TROUBLESHOOTING

### 7.1. Bluetooth Connection Issues

- Ensure the remote is charged and powered on (flashing light).
- Check that Bluetooth is enabled on your smartphone.

- Unpair and re-pair the device in your phone's Bluetooth settings.
- Restart both your phone and the remote.

## 7.2. Tripod Stability Issues

- Ensure all three tripod legs are fully extended and locked into place.
- Verify that the center leg of the tripod is pushed up to provide maximum stability.
- Place the tripod on a flat, stable surface.

For any further issues with Bluetooth connectivity or recharging, please contact our customer service for assistance.

## 8. SPECIFICATIONS

- **Product Dimensions:** 1.4 x 1.4 x 6 inches (folded)
- **Item Weight:** 5.2 ounces (147 Grams)
- **Maximum Height:** 26.6 inches
- **Material:** Aluminum alloy (rod), ABS + PC (phone holder, tripod)
- **Battery:** 1 Lithium Metal battery (included) for remote
- **Compatible Devices:** iPhone (16, 15, 14, 13, 12, 11, X, XS Pro Max Plus), Samsung Galaxy (S24, S23, S22, S21, S20 Ultra), Pixel, OnePlus, and most smartphones.
- **Special Features:** Lightweight, Remote Control, Portable
- **Model Number:** WS-SQB641
