## Siljoy Siljoy-025

# Siljoy Modern Foyer Chandelier (Model Siljoy-025)

Installation and User Manual

## 1. INTRODUCTION

This manual provides comprehensive instructions for the safe installation, operation, and maintenance of your Siljoy Modern Foyer Chandelier, Model Siljoy-025. This large chandelier features a spiral sphere design with raindrop crystals, suitable for high ceilings in entryways, living rooms, and staircases. Please read all instructions carefully before proceeding with installation or use.

## 2. SAFETY INFORMATION

- **Electrical Safety:** Always disconnect power at the main circuit breaker before installation, maintenance, or bulb replacement. Consult a qualified electrician for installation if you are not experienced with electrical wiring.
- **Weight:** The chandelier weighs approximately 51.5 pounds. Ensure the ceiling structure can safely support this weight.

- **Handling Crystals:** Crystals are delicate. Handle with care to prevent breakage. Wear the provided gloves during assembly to avoid fingerprints and ensure a clean finish.
- **Bulb Type:** Use only GU10 bulbs, maximum 50W halogen or 12W LED. Do not exceed recommended wattage. Bulbs are not included.
- **Placement:** This large chandelier is designed for spacious areas with high ceilings. Ensure adequate clearance (at least 7.5 feet from the floor) to prevent accidental contact.
- **Indoor Use Only:** This product is intended for indoor use only and is not water-resistant.

### 3. PACKAGE CONTENTS

---

Verify that all components are present and undamaged before beginning installation.

- Stainless steel base
- Crystal accessories (various sizes and shapes, individually packaged and numbered)
- A pair of gloves
- A set of screws and mounting hardware
- Installation Manual (this document)
- Spare crystals (included to replace any potential damages during delivery)

### 4. SETUP AND INSTALLATION

---

Installation of this chandelier requires careful attention to detail and may be time-consuming. It is recommended to have at least two people for installation, and for high ceilings, professional assistance is advised.

1. **Prepare the Ceiling:** Ensure the electrical box and ceiling structure are capable of supporting the chandelier's weight (51.5 lbs). Install the mounting bracket securely to the ceiling.
2. **Electrical Wiring:** Connect the chandelier's wiring to your household electrical system according to local electrical codes. Ensure power is OFF at the circuit breaker during this step.
3. **Install Light Bulbs:** Insert 13 GU10 bulbs (not included) into the sockets on the stainless steel base.
4. **Power Test:** Briefly turn on the power to ensure all bulbs illuminate correctly. Turn power OFF again before proceeding.
5. **Attach Crystal Strings:** The crystal strings are individually packaged and numbered. Refer to the provided diagram (often found on the packaging or a separate sheet) to match each string to its corresponding hook on the chandelier base. Start from the innermost rings and work outwards.
6. **Final Assembly:** Carefully hang the crystal strings, ensuring they are not tangled. The design features 11 crystal spheres formed by intertwining strings, creating a spiral raindrop effect.

## 5. OPERATING INSTRUCTIONS

Once installed, the chandelier operates via a standard wall switch. The fixture supports dimmable LED GU10 bulbs and a compatible dimmer switch (not included), allowing you to adjust the brightness to your preference.

- Ensure all bulbs are securely installed.
- Use a compatible dimmer switch for adjustable light output.
- The chandelier is designed to provide brilliant light refraction through its K9 crystals.

## 6. MAINTENANCE

Regular cleaning will maintain the chandelier's appearance and light output.

- **Cleaning Crystals:** Gently wipe crystals with a soft, lint-free cloth dampened with water or a mild glass cleaner. Avoid abrasive cleaners.
- **Cleaning Metal Parts:** Wipe the stainless steel base with a soft, dry cloth. Do not use harsh chemicals or abrasive materials that could scratch the polished finish.
- **Bulb Replacement:** Ensure power is off before replacing any GU10 bulbs. Allow bulbs to cool completely before handling.

## 7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Chandelier does not light up.	No power, loose wiring, faulty bulbs.	Check circuit breaker. Verify wiring connections. Replace bulbs.
Some crystal strings appear uneven or tangled.	Incorrect installation or handling.	Carefully untangle strings. Re-hang according to the numbering diagram.
Missing or damaged crystal parts.	Shipping damage or oversight during packaging.	Check for spare crystals in the package. Contact Siljoy customer support for replacements.

If you encounter issues not listed here or require further assistance, please contact Siljoy customer support.

## 8. SPECIFICATIONS

Feature	Detail
Brand	Siljoy
