Lovehoney Head Master

Lovehoney Head Master Double-Texture Male Stroker Instruction Manual

INTRODUCTION

The Lovehoney Head Master is a double-texture male stroker designed for personal pleasure. Crafted from soft Thermoplastic Elastomer (TPE), this device features a dual-sided design with distinct internal textures to provide varied sensations. Its open-ended and stretchy nature allows for adaptability to different sizes, making it suitable for solo use or as part of foreplay.

SETUP AND FIRST USE

1. **Unboxing:** Carefully remove the Lovehoney Head Master from its packaging. Inspect the product for any visible damage.
2. **Initial Cleaning:** Before first use, wash the stroker thoroughly with warm water and a mild, toy-safe soap or a dedicated toy cleaner. Rinse completely and allow it to air dry.
3. **Lubrication:** Apply a generous amount of water-based lubricant to the entrance and interior of the stroker, as well as to yourself. Water-based lubricants are recommended to ensure compatibility with the TPE material and to maximize comfort and sensation.

OPERATING INSTRUCTIONS

The Lovehoney Head Master is designed for versatile use, offering two distinct textures. Ensure adequate lubrication for optimal experience.

- **Standard Use:** Gently insert yourself into the open end of the stroker. Move in and out at your desired pace. The internal textures, featuring supple fronds and lifelike ridges, are engineered to provide an oral-style sensation.
- **Exploring Dual Textures:** For a different sensation, the stroker can be turned inside out. This reveals a second texture, allowing you to vary your experience. Apply additional lubricant as needed when switching textures.

MAINTENANCE AND CARE

- **Cleaning After Use:** The Lovehoney Head Master is fully waterproof. After each use, wash it thoroughly with warm water and a mild, toy-safe soap or a dedicated toy cleaner. You can turn the stroker inside out to ensure all textured surfaces are cleaned effectively.
- **Rinsing:** Rinse the stroker completely to remove all soap residue.
- **Drying:** Pat dry with a lint-free cloth or allow it to air dry completely before storage.
- **Storage:** Store the stroker in a clean, dry place, away from direct sunlight and extreme temperatures. Avoid storing it with other toys made of different materials, especially silicone, as this can cause material degradation.
- **Avoid Oil-Based Lubricants:** Do not use oil-based lubricants, massage oils, or hand creams with this product, as they can damage the TPE material. Only use water-based lubricants.

TROUBLESHOOTING

Issue	Possible Cause / Solution
Product feels too tight or uncomfortable.	Ensure you are using a generous amount of water-based lubricant. The product has a 1-inch canal diameter and may feel snug for some users. If discomfort persists, this product may not be suitable for your dimensions.
Unpleasant odor.	Some new products may have a slight manufacturing odor. Wash the stroker thoroughly with toy cleaner and warm water before first use. Allow it to air out in a well-ventilated area.
Material feels scratchy or not soft enough.	The product is made from TPE, which has a specific tactile feel. Ensure ample water-based lubricant is used to reduce friction and enhance comfort.
Product tears or splits.	TPE material can be delicate. Avoid excessive stretching or rough handling. Always use water-based lubricants, as oil-based products can degrade the material over time, leading to tears.

SPECIFICATIONS

- **Brand:** Lovehoney
- **Model Name:** Head Master
- **Material:** Thermoplastic Elastomer (TPE)
- **Color:** Clear
- **Product Dimensions:** 2.76 x 2.44 x 2.44 inches
- **Item Weight:** 3.17 ounces
- **Internal Canal Diameter:** Approximately 1 inch
- **Internal Length:** Approximately 2.5 inches
- **Waterproof:** Yes
- **Allergen Warning:** Contains latex (as per manufacturer information)
