## LuvLap C-50

# LuvLap C-50 Baby Wooden Cot Instruction Manual

Model: C-50 | Brand: LuvLap

## 1. INTRODUCTION

---

Thank you for choosing the LuvLap C-50 Baby Wooden Cot. This manual provides essential information for the safe assembly, operation, and maintenance of your baby cot. Please read all instructions carefully before assembly and keep this manual for future reference. This cot is designed for newborns up to 12 months, with a maximum weight capacity of 15 kg.

# A *happy* place for your baby

★ ★ ★  
★ EN 71  
★ ★ Approved

## 2. SAFETY INFORMATION

Your child's safety is paramount. Adhere to the following safety guidelines:

- **EN Certified:** This cot is certified as per European Standards (EN Passed), ensuring high safety standards.
- **Age and Weight Limit:** Suitable for babies aged 0 to 12 months, with a maximum weight capacity of 15 kg. Do not exceed this weight limit.
- **Assembly:** Ensure all assembly hardware (bolts, screws, etc.) are securely tightened before each use. Regularly check for loose parts.
- **Damaged Parts:** Do not use the cot if any part is broken, torn, or missing. Contact customer support for replacement parts.
- **Mattress:** Use only a mattress that fits snugly within the cot to prevent gaps where a child could become entrapped. The mattress should not be thicker than recommended to prevent climbing out or suffocation hazards. (Mattress not included).
- **Wheels:** Always engage the wheel brakes when the cot is stationary to prevent accidental movement.
- **Hazards:** Keep cords, blinds, and other potential strangulation hazards away from the cot. Do not place the cot near

windows where cords could be accessible.

- **Supervision:** Never leave your child unattended in the cot.

### 3. PACKAGE CONTENTS

---

Carefully unpack all components and verify that you have received the following items:

- Cot Frame Components (Side panels, end panels, base)
- Mosquito Net
- Wheels (with brakes)
- Assembly Hardware (Bolts, nuts, washers)
- Assembly Tools (Allen key, spanner)

If any parts are missing or damaged, please contact customer support immediately.

### 4. SETUP AND ASSEMBLY

---

Assembly is required for this product. It is recommended to assemble the cot in the room where it will be used. Follow these general steps for assembly:

1. **Unpack:** Remove all components from the packaging and lay them out on a clean, soft surface to prevent scratches.
2. **Identify Parts:** Familiarize yourself with all cot frame components, hardware, and tools.
3. **Assemble Base:** Begin by assembling the cot base according to the provided diagrams (refer to the separate assembly diagram sheet if included).
4. **Attach Side Panels:** Securely attach the side panels to the base and end panels using the provided bolts and tools. Ensure all connections are firm.
5. **Install Wheels:** Attach the wheels to the bottom of the cot legs. Ensure that the wheels with locking mechanisms are placed correctly and that the brakes function properly.
6. **Final Checks:** Double-check all bolts and fasteners to ensure they are tightened securely. Do not overtighten, as this may damage the wood.
7. **Mosquito Net:** Install the mosquito net as described in the operating section.

**Important:** Some users have reported issues with missing hardware or wood cracking if bolts are overtightened. Exercise caution during assembly and ensure all parts are present before proceeding. If you encounter any difficulties, refer to the troubleshooting section or contact customer support.

## 5. OPERATING THE COT

---

### 5.1 Cot Mode

The LuvLap C-50 functions as a standard baby cot, providing a safe and comfortable sleeping environment. Ensure the cot is placed on a flat, stable surface and that the wheel brakes are engaged when stationary.

### 5.2 Cradle/Rocking Mode

The cot can be converted into a cradle to provide a gentle rocking motion. To activate the rocking mode, disengage the wheel brakes and adjust the cot's base mechanism (if applicable) to allow for rocking. Ensure the rocking motion is smooth and controlled.

# For a *blissful* naptime

## 2-in-1 Easy switch from rocking to sleep mode

Image 5.2: Illustration of the 2-in-1 easy switch from stationary to rocking mode.

### 5.3 Mobility and Locking Wheels

The cot is equipped with wheels for easy movement. To move the cot, disengage the wheel brakes. To secure the cot in place, push down on the locking levers on the wheels until they click into position. Always ensure brakes are engaged when the cot is not being moved.

### 5.4 Mosquito Net Installation

The included mosquito net provides protection from insects. Attach the mosquito net securely to the designated points on the cot frame, ensuring there are no gaps for insects to enter. Regularly check the net for tears or damage.

# A happy *place* for your baby

Removable mosquito net

## 5.5 Extendable Foot Board

The cot features an extendable foot board. To extend, locate the mechanism on the foot end of the cot and carefully pull or slide the board outwards until it locks into position. This feature provides additional space as needed.

# Safety & *comfort* at all times

## 6. CARE AND MAINTENANCE

Proper care and maintenance will ensure the longevity and safety of your LuvLap C-50 Baby Wooden Cot.

- **Cleaning:** Wipe the wooden surfaces with a soft, damp cloth. Avoid using abrasive cleaners or harsh chemicals, as these can damage the finish or be harmful to your baby.
- **Inspections:** Regularly inspect all bolts, screws, and other fasteners to ensure they are tight. Tighten any loose hardware immediately.
- **Mosquito Net:** The mosquito net can be gently hand-washed with mild detergent and air-dried.
- **Storage:** If storing the cot for an extended period, disassemble it carefully and store all parts in a dry, cool place away from direct sunlight and extreme temperatures.
- **Wood Finish:** The cot is made of seasoned Pinewood with a polished finish and baby-safe paints. Avoid scratching or chipping the finish.

# *Joyful* moments to treasure

Made of pure pine wood  
Baby safe paints  
No chemicals used

## 7. TROUBLESHOOTING

If you encounter any issues with your LuvLap C-50 Baby Wooden Cot, refer to the following common problems and solutions:

| Problem                             | Possible Cause                                                        | Solution                                                                                                                     |
|-------------------------------------|-----------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------|
| Cot feels unstable or wobbly        | Loose assembly bolts or incorrect assembly.                           | Re-check all connections and tighten bolts securely. Ensure all parts are correctly aligned as per assembly instructions.    |
| Wheels do not lock or roll smoothly | Brake mechanism not engaged/disengaged properly, or debris in wheels. | Ensure the brake levers are fully pushed down to lock or fully lifted to unlock. Clean any debris from the wheel mechanisms. |

| Problem                       | Possible Cause                            | Solution                                                                                             |
|-------------------------------|-------------------------------------------|------------------------------------------------------------------------------------------------------|
| Wood cracking during assembly | Overtightening of bolts.                  | Avoid overtightening. If damage occurs, contact customer support for advice or replacement parts.    |
| Missing parts or hardware     | Packaging error or lost during unpacking. | Carefully check all packaging materials. Contact customer support with details of the missing parts. |

For issues not listed here, please contact customer support.
