Key Features

- **High-grade Stainless Steel Cooking Pot:** Durable and non-PTFE for healthier food preparation.
- **Pressure Limiting Valve:** Safely releases steam during cooking to stabilize internal pressure.
- **Comprehensive Accessories:** Includes condensation cup, plastic spoon, measuring cup, and stainless-steel cooking pot.
- **13 Pre-set Multi-Function Features:** Simplifies cooking with dedicated settings for various dishes.
- **High and Low Pressure Cooking Options:** Provides flexibility for different recipes.
- **Slow Cook Function:** Allows for extended cooking up to 9.5 hours.
- **Keep Warm Option:** Automatically keeps food warm after cooking, with automatic shutoff.

IMPORTANT SAFEGUARDS

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and/or injury to persons, including the following:

- Read all instructions before operating the appliance.
- Do not touch hot surfaces. Use handles or knobs.
- To protect against electrical shock, do not immerse cord, plugs, or the main unit in water or other liquid.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts.
- Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions or has been damaged in any manner.
- Do not use outdoors.
- Extreme caution must be used when moving an appliance containing hot oil or other hot liquids.
- Always ensure the lid is properly locked and sealed before operating under pressure.
- Never force the lid open. Ensure all pressure has been released before attempting to open.

No more guessing! Your safety is important to us, which is why our pressure cooker features a smart lid indicating whenever the appliance is locked or not.

PRODUCT COMPONENTS

Familiarize yourself with the main parts of your Megachef Digital Pressure Cooker:

- **Main Unit:** The base of the cooker containing the heating element and control panel.
- **Inner Cooking Pot:** The removable stainless steel pot where food is cooked.
- **Lid Assembly:** Includes the sealing ring, pressure limiting valve, and float valve.
- **Condensation Cup:** Collects excess moisture during cooking.
- **Measuring Cup and Spoon:** For accurate ingredient measurement.

INITIAL SETUP

Before First Use

1. Unpack all components from the box. Remove any packaging materials and labels.
2. Wash the inner cooking pot, sealing ring, and condensation cup with warm, soapy water. Rinse thoroughly and dry completely.
3. Wipe the exterior of the main unit with a damp cloth. Do not immerse the main unit in water.

Assembling the Pressure Cooker

1. Place the inner cooking pot into the main unit. Ensure it sits flat and securely.
2. Insert the condensation cup into its designated slot on the back of the main unit.
3. Ensure the sealing ring is properly seated around the lid's rim.
4. Align the lid with the main unit, ensuring the arrow on the lid points to the "OPEN" position on the cooker's rim.
5. Rotate the lid clockwise until it locks into the "CLOSE" position. You will hear a click.
6. Ensure the pressure limiting valve is set to the "Sealing" position for pressure cooking.

OPERATING INSTRUCTIONS

Control Panel Overview

The digital control panel provides easy access to all cooking functions. The display shows cooking time and status indicators.

Image: The digital control panel of the Megachef pressure cooker, highlighting various pre-set cooking functions for different food types like rice, soup, meat, and beans.

Pre-set Functions

The Megachef pressure cooker features 13 pre-set functions for common dishes. Simply add ingredients, select the desired function, and press Start.

Function	Description / Typical Use
White Rice	For cooking various types of white rice.
Brown Rice	Optimized for cooking brown rice.
Soup	Ideal for preparing broths, stews, and soups.
Porridge	For creamy porridges and oatmeal.
Multigrain	Suitable for cooking mixed grains.

Function	Description / Typical Use
Fish	Gentle cooking for delicate fish.
Beef	For tenderizing beef cuts.
Meat/Poultry	Versatile setting for various meats and poultry.
Beans	Perfect for cooking dried beans and legumes.
Stew	For hearty stews and casseroles.
Yogurt	Dedicated function for making homemade yogurt.
Slow Cook	For extended, low-temperature cooking (up to 9.5 hours).
Sauté	Allows browning ingredients before pressure cooking.

Manual Cooking

For custom recipes, use the Manual button to set your desired cooking time and pressure level (High/Low). Use the '+' and '-' buttons to adjust the time.

Keep Warm Function

After most cooking cycles, the cooker will automatically switch to the Keep Warm mode to maintain food temperature. This function has an automatic shutoff.

CARE AND MAINTENANCE

Cleaning

1. Always unplug the pressure cooker and allow it to cool completely before cleaning.
2. The stainless steel inner cooking pot is dishwasher safe. For hand washing, use warm, soapy water and a non-abrasive sponge.
3. Remove the sealing ring from the lid and wash it with warm, soapy water. Ensure it is clean and free of food debris before re-installing.
4. Clean the condensation cup after each use.
5. Wipe the exterior of the main unit and the control panel with a damp cloth. Do not use harsh chemicals or abrasive cleaners.
6. Ensure all parts are thoroughly dry before reassembling or storing.

Storage

Store the pressure cooker in a dry, cool place. Ensure the lid is not tightly sealed during storage to prevent odors from developing in the sealing ring.

TROUBLESHOOTING GUIDE

If you encounter issues with your Megachef pressure cooker, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Cooker not building pressure	Lid not properly closed or sealed; Sealing ring not correctly installed or damaged; Pressure limiting valve not set to "Sealing"; Insufficient liquid in inner pot.	Ensure lid is fully locked; Check and re-seat sealing ring; Turn pressure limiting valve to "Sealing"; Add more liquid as per recipe.
Steam leaking from lid	Sealing ring dirty, damaged, or improperly installed; Food debris on rim; Lid not properly closed.	Clean or replace sealing ring; Clean lid and pot rim; Ensure lid is fully locked.
Food not cooking properly	Incorrect cooking time or pressure setting; Insufficient liquid; Power interruption.	Adjust cooking time/setting; Ensure adequate liquid; Check power connection.
Display shows error code	Specific internal issue (e.g., sensor error, overheating).	Unplug the unit, wait 5 minutes, then plug back in. If error persists, contact customer support.
