- **Protection:** Use placemats and coasters to protect the tabletop from spills, heat, and scratches.

5. Troubleshooting

This section addresses common issues you might encounter with your dining table.

- **Wobbling Table:** If the table feels unstable or wobbles, check all leg connections and ensure they are securely tightened. Uneven flooring can also cause wobbling; consider using furniture pads or shims.
- **Drawer Sticking:** If a drawer is difficult to open or close, check for any obstructions in the drawer slides. Ensure the drawer is properly aligned within its track.
- **Surface Damage (Scratches/Stains):** For minor scratches, touch-up pens or furniture repair kits matching the finish may be used. For stains, clean immediately with a damp cloth. Avoid abrasive materials.
- **Discoloration/Fading:** This can occur due to prolonged exposure to direct sunlight. Reposition the table or use window coverings to mitigate this.
