Warranty & Support

1. INTRODUCTION

This manual provides essential information for the installation, operation, and maintenance of your Western Digital WD Purple 4TB Surveillance Internal Hard Drive (Model: WD40PURZ). The WD Purple series is specifically engineered for 24/7, always-on, high-definition surveillance security systems. Featuring Western Digital's exclusive AllFrame technology, these drives are designed to enhance video capturing and minimize errors, pixelation, and video interruptions common in video recorder systems. They support an enhanced workload rating suitable for continuous video recording with up to 64 cameras.

2. SAFETY INFORMATION

Observe the following safety guidelines to prevent damage to the drive and ensure safe operation:

- **Electrostatic Discharge (ESD) Protection:** Always handle the hard drive by its edges. Wear an anti-static wrist strap or frequently touch a grounded metal object before handling to discharge static electricity.
- **Physical Handling:** Avoid dropping or subjecting the drive to sudden impacts. Hard drives are delicate precision instruments.
- **Power Connection:** Ensure all power is disconnected from the system before installing or removing the hard drive.
- **Ventilation:** Install the drive in a well-ventilated area to prevent overheating.
- **Environmental Conditions:** Operate the drive within specified temperature and humidity ranges. Refer to the specifications section for details.

3. PACKAGE CONTENTS

Your Western Digital WD Purple 4TB Surveillance Hard Drive package typically includes:

- Western Digital WD Purple 4TB Internal Hard Drive (Model: WD40PURZ)

Note: SATA data cables, power cables, and mounting screws are usually supplied with your NVR/DVR system or computer chassis and are not included with the hard drive.

4. SETUP

4.1 Physical Installation

1. **Prepare Your System:** Power off your Network Video Recorder (NVR), Digital Video Recorder (DVR), or computer and disconnect the power cord.
2. **Open Chassis:** Open the chassis of your NVR/DVR or computer to access the drive bays.
3. **Mount the Drive:** Carefully slide the WD Purple hard drive into an available 3.5-inch drive bay. Secure it with appropriate mounting screws.
4. **Connect Cables:**
 - Connect a SATA data cable from the hard drive to an available SATA port on your system's motherboard or NVR/DVR board.
 - Connect a SATA power cable from your system's power supply to the hard drive.
5. **Close Chassis:** Once connections are secure, close the chassis and reconnect the power cord.

4.2 Initializing and Formatting

After physical installation, your system may require the drive to be initialized and formatted. The process varies depending on your NVR/DVR system or operating system (Windows/macOS).

- **NVR/DVR Systems:** Most surveillance systems will automatically detect a new drive and prompt you to format it. Follow the on-screen instructions provided by your NVR/DVR software.
- **Computer Systems (for testing or specific applications):**
 - **Windows:** Go to Disk Management (right-click Start button > Disk Management). Locate the unallocated drive, initialize it (GPT recommended for 4TB drives), and then create and format a new simple volume.
 - **macOS:** Use Disk Utility (Applications > Utilities > Disk Utility). Select the drive, erase it, and choose a suitable format (e.g., APFS, Mac OS Extended).

Image 1: Western Digital WD Purple 4TB Surveillance Hard Drive (WD40PURZ) showing its label and form factor.

5. OPERATING PRINCIPLES

The WD Purple drive is optimized for the unique demands of surveillance workloads:

- **24/7 Continuous Operation:** Designed for always-on recording environments, ensuring reliable performance around the clock.
- **AllFrame Technology:** This exclusive technology works with ATA streaming to reduce frame loss, improve playback, and support more camera bays within a surveillance system.
- **High Workload Rating:** Engineered to handle the high write-intensive workloads typical of surveillance systems, supporting up to 64 HD cameras simultaneously.
- **Low Power Consumption:** Optimized for lower power consumption and reduced heat generation, contributing to long-term reliability in demanding environments.

Once installed and formatted, the drive will function as the primary storage for your surveillance footage, managed by your NVR/DVR system.

6. MAINTENANCE

While WD Purple drives are built for durability, proper maintenance practices can extend their lifespan and ensure data integrity:

- **System Ventilation:** Ensure your NVR/DVR or computer chassis has adequate airflow to prevent the drive from overheating. High temperatures can degrade performance and lifespan.
- **Firmware Updates:** Periodically check the Western Digital support website for any available firmware updates for your drive model. Follow instructions carefully if an update is recommended.
- **Data Backup:** Although surveillance footage is often overwritten, consider backing up critical footage to external storage if required for long-term retention or evidence.

- **Physical Cleanliness:** Keep the area around your surveillance system clean and free of dust, which can impede ventilation.

7. TROUBLESHOOTING

If you encounter issues with your WD Purple hard drive, consider the following steps:

- **Drive Not Detected:**
 - Verify that both the SATA data cable and power cable are securely connected to the drive and the system.
 - Try a different SATA port or cable.
 - Ensure the system's BIOS/UEFI or NVR/DVR settings are configured to detect SATA drives.
- **System Freezes or Crashes:**
 - Check for overheating. Ensure proper ventilation.
 - Run diagnostic tools provided by your NVR/DVR system or Western Digital (if applicable for your setup) to check drive health.
- **Poor Video Recording Performance (Frame Drops, Pixelation):**
 - Ensure the drive is properly formatted for your surveillance system.
 - Verify that the number of cameras and their resolution do not exceed the system's or drive's recommended capacity.
 - Check for any system-level bottlenecks (e.g., network speed, CPU usage of the NVR/DVR).
- **Unusual Noises:**
 - A clicking or grinding noise can indicate a drive failure. Immediately back up any critical data if possible and consider replacing the drive.

If issues persist, consult your NVR/DVR system's manual or contact Western Digital support.

8. SPECIFICATIONS

Key technical specifications for the Western Digital WD Purple 4TB Surveillance Hard Drive (WD40PURZ):

Image 2: Internal components of a hard disk drive, illustrating the mechanical nature of the storage.

Feature	Description
Model Number	WD40PURZ
Capacity	4 TB (Terabytes)
Interface	SATA 6 Gb/s
Form Factor	3.5-inch
Cache	64 MB
Rotational Speed	5400 RPM Class
Dimensions (L x W x H)	5.79 x 4 x 1.03 inches (147 x 101.6 x 26.1 mm)
Weight	1.5 pounds (0.68 kg)
Operating Temperature	0°C to 65°C (32°F to 149°F)
Non-Operating Temperature	-40°C to 70°C (-40°F to 158°F)
Workload Rate	Up to 180 TB/year
Camera Support	Up to 64 HD cameras
Technology	AllFrame Technology

9. WARRANTY AND SUPPORT

9.1 Manufacturer's Limited Warranty

The Western Digital WD Purple 4TB Surveillance Hard Drive (WD40PURZ) comes with a**3-year manufacturer's limited warranty**. Please retain your proof of purchase for warranty claims. The warranty covers defects in materials and workmanship under normal use. For full terms and conditions, please refer to the official Western Digital warranty statement available on their website.

9.2 Technical Support

For technical assistance, troubleshooting, or warranty inquiries, please visit the official Western Digital support website:

<https://support.wdc.com>

You may need to provide the model number (WD40PURZ) and serial number of your drive when contacting support.

Warning!

Please read the user manual included in this work as it contains important information related with safety of installation and use of the device.

The user manual must be kept because it may be required in the future. The device is to be used exclusively for purposes specified in the user manual.

The device must be operated prior to starting-up. After removing the packaging make sure the device is in working order.

The product has safety, it should not be used until it is repaired.

The product is intended for use in an environment where it will not be used for other than intended use.

The manufacturer is not liable for damages resulting from not adhering to the rules contained in the user manual. Therefore, we recommend to follow the manufacturer's safety rules to operate and maintenance of the device. In the very rare case of serious material safety and health hazards, the device.

The manufacturer and the supplier are not liable for losses or damages arising out of the product, including financial or intangible losses, loss of profits, income, data, information, or other products related with it, indirect, incidental or consequential loss or damage. The above guarantee applies whether the loss or damage occurs.

1. Determination of quality of the loss or damage of the product or product related with it.

2. Inspection results of operation of the product or product related with it.

3. It applies to losses and damages according to the legal liability, including negligence and other losses, termination of a contract, requirement of repair, replacement and other liability issues if the manufacturer or the supplier was notified about the possibility of occurrence of such damages.

Safety warnings:

Read the attention of designing was directed to quality standards of the device ensuring safety of operation in the most dangerous factor.

The device must be secured against contact with static, moisture and various fluids.

Product Brief
WD Purple

WD Purple

3TB

WD Purple™

WD Purple™ is designed to meet the challenges of 24/7 surveillance recording. These drives are engineered specifically to withstand the harsh conditions of temperature, humidity and vibration often found in surveillance environments. The average designed life span is up to 10 years for these drives, not the usual 3-5 years for consumer-grade hard drives. WD Purple™ drives are also designed to be able to handle up to 180 TB of data, and are built with a 5-year warranty. WD Purple™ drives are also designed to be able to handle up to 180 TB of data, and are built with a 5-year warranty. WD Purple™ drives are also designed to be able to handle up to 180 TB of data, and are built with a 5-year warranty.

Surveillance You Can Trust

WD Purple™ provides reliable surveillance drives for your business. With WD Purple™ you can store up to 180 TB of data, and are built with a 5-year warranty. WD Purple™ drives are also designed to be able to handle up to 180 TB of data, and are built with a 5-year warranty. WD Purple™ drives are also designed to be able to handle up to 180 TB of data, and are built with a 5-year warranty.

Product Highlights

- Excellent price/performance ratio
- Engineered specifically for maximum performance
- 24/7 surveillance recording

WD Purple drives are built for 24/7, 365 days, high-definition surveillance systems. WD Purple's surveillance-optimized hard drive technology is designed to deliver the performance you need for your surveillance system. WD Purple's surveillance-optimized hard drive technology is designed to deliver the performance you need for your surveillance system.

RELIABILITY HARD DRIVE

The Western Digital Advantage

Western Digital is a leader in the storage industry. We have a proven track record of innovation and reliability around the Western Digital brand.

Designed for today's and tomorrow's surveillance solutions

WD Purple drives are built for 24/7, 365 days, high-definition surveillance systems. WD Purple's surveillance-optimized hard drive technology is designed to deliver the performance you need for your surveillance system. WD Purple's surveillance-optimized hard drive technology is designed to deliver the performance you need for your surveillance system.

RELIABILITY HARD DRIVE

Field-proven High Capacity

WD Purple drives are built for 24/7, 365 days, high-definition surveillance systems. WD Purple's surveillance-optimized hard drive technology is designed to deliver the performance you need for your surveillance system. WD Purple's surveillance-optimized hard drive technology is designed to deliver the performance you need for your surveillance system.

Wide Compatibility, Seamless Integration

WD Purple drives are built for 24/7, 365 days, high-definition surveillance systems. WD Purple's surveillance-optimized hard drive technology is designed to deliver the performance you need for your surveillance system. WD Purple's surveillance-optimized hard drive technology is designed to deliver the performance you need for your surveillance system.

RELIABILITY HARD DRIVE

Low Power, High Efficiency

WD Purple drives are built for 24/7, 365 days, high-definition surveillance systems. WD Purple's surveillance-optimized hard drive technology is designed to deliver the performance you need for your surveillance system. WD Purple's surveillance-optimized hard drive technology is designed to deliver the performance you need for your surveillance system.

Three Year Limited Warranty

WD Purple drives are built for 24/7, 365 days, high-definition surveillance systems. WD Purple's surveillance-optimized hard drive technology is designed to deliver the performance you need for your surveillance system. WD Purple's surveillance-optimized hard drive technology is designed to deliver the performance you need for your surveillance system.

DATA SHEET

RELIABILITY RAMP DRIVE

WD Purple™ drives are built for 24/7, anywhere, high-definition surveillance systems. WD Purple surveillance drives are designed to deliver the performance and reliability you need to protect your business, using WD Purple™ technology. WD Purple™ drives are designed to deliver the performance and reliability you need to protect your business, using WD Purple™ technology. WD Purple™ drives are designed to deliver the performance and reliability you need to protect your business, using WD Purple™ technology.

Industry-leading storage. Surveillance you can trust.

WD Purple™ drives are built for 24/7, anywhere, high-definition surveillance systems. WD Purple surveillance drives are designed to deliver the performance and reliability you need to protect your business, using WD Purple™ technology. WD Purple™ drives are designed to deliver the performance and reliability you need to protect your business, using WD Purple™ technology. WD Purple™ drives are designed to deliver the performance and reliability you need to protect your business, using WD Purple™ technology.

Western Digital's Exclusive Technology

WD Purple™ drives are built for 24/7, anywhere, high-definition surveillance systems. WD Purple surveillance drives are designed to deliver the performance and reliability you need to protect your business, using WD Purple™ technology. WD Purple™ drives are designed to deliver the performance and reliability you need to protect your business, using WD Purple™ technology. WD Purple™ drives are designed to deliver the performance and reliability you need to protect your business, using WD Purple™ technology.

Enhanced Workload Ratings

WD Purple™ drives are built for 24/7, anywhere, high-definition surveillance systems. WD Purple surveillance drives are designed to deliver the performance and reliability you need to protect your business, using WD Purple™ technology. WD Purple™ drives are designed to deliver the performance and reliability you need to protect your business, using WD Purple™ technology. WD Purple™ drives are designed to deliver the performance and reliability you need to protect your business, using WD Purple™ technology.

Western Digital

WD Purple™

DEINSELLE

KEUSE SCOOPEN VOOR BEVEILIGING

WD Purple™ heeft zichzelf als gespecialiseerd voor dag en nacht functionerende videorecorders en hoge resolutie, HD video toegevoegd aan zijn reeks van harde schijven. WD Purple is speciaal ontworpen voor beveiligingscamera's die continu draaien en is getoetst op de meest populaire videorecorders en videobewaking software. Het is de enige harde schijf die is ontworpen voor 24/7 draaiende videorecorders en videobewaking software. Het is de enige harde schijf die is ontworpen voor 24/7 draaiende videorecorders en videobewaking software. Het is de enige harde schijf die is ontworpen voor 24/7 draaiende videorecorders en videobewaking software.

Toonbaarste opslag. Beveiliging waarop u kunt vertrouwen.

Belangrijke punten

- Capaciteit tot 16 TB
- Uitstekende prestaties voor zowel videobewaking als voor andere toepassingen
- 4K videorecording
- Tot 6 maanden vooraf planning opslag tot 16 TB
- 3,5" formaat
- 7200 RPM
- 3 jaar werkende garantie

De exclusieve Afrayme technologie van Western Digital

De Afrayme technologie van Western Digital is ontworpen om de levensduur van harde schijven te verlengen. Het is de enige harde schijf die is ontworpen voor 24/7 draaiende videorecorders en videobewaking software. Het is de enige harde schijf die is ontworpen voor 24/7 draaiende videorecorders en videobewaking software.

Versterkte werktalstelling

De Afrayme technologie van Western Digital is ontworpen om de levensduur van harde schijven te verlengen. Het is de enige harde schijf die is ontworpen voor 24/7 draaiende videorecorders en videobewaking software. WD Purple™ drives are built to last 25 years. Our high definition security cameras, surveillance systems, and other video recording applications need a hard drive that can handle the stress of recording 24/7. WD Purple drives are designed for 24/7 video recording with up to 16 channels.

Industrial designed storage. Surveillance you can trust.

Highlights

- Capable to 16 Chs
- Supports 4K resolution live and time-lapse
- Advanced technology
- Secure & tamper resistant. Supports tampering analysis and forensic investigation
- MTBF of up to 1,000,000 hours
- 3-year limited warranty

THE WESTERN DIGITAL ADVANTAGE

With over 40 years of experience, Western Digital is the world's leading provider of storage solutions. We have the technology, the talent, and the passion to create the products customers need. The highest quality and reliability standards are built into every Western Digital product. We have the resources, the talent, and the passion to create the products customers need. We have the technology, the talent, and the passion to create the products customers need. We have the technology, the talent, and the passion to create the products customers need.

Wide Compatibility - Seamless Integration

WD Purple drives are compatible with a wide range of security cameras and recording systems. With a wide range of recording systems, WD Purple drives are compatible with a wide range of security cameras and recording systems. With a wide range of recording systems, WD Purple drives are compatible with a wide range of security cameras and recording systems.

Low Power, High Efficiency

WD Purple drives are designed for low power consumption. With a wide range of recording systems, WD Purple drives are compatible with a wide range of security cameras and recording systems. With a wide range of recording systems, WD Purple drives are compatible with a wide range of security cameras and recording systems.

Three Year Limited Warranty

WD Purple drives are covered by a three year limited warranty. With a wide range of recording systems, WD Purple drives are compatible with a wide range of security cameras and recording systems. With a wide range of recording systems, WD Purple drives are compatible with a wide range of security cameras and recording systems.
