ABCTen AB-168

AT808 On-Ear Headphone User Manual

Model: AB-168

Introduction

Thank you for choosing the ABCTen AT808 On-Ear Headphone. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your new headphones. Designed for a balanced audio experience with excellent bass response, these headphones offer comfort and convenience with their folding design and detachable audio cable.

The AT808 headphones are engineered to block outside noise effectively while allowing you to remain aware of important ambient sounds. Whether you are commuting, traveling, or simply enjoying music at home, the AT808 provides a superior listening experience.

Product Overview

The ABCTen AT808 On-Ear Headphone features a comfortable design with soft ear-pads and an adjustable headband. It includes a detachable 3.5mm audio cable with an in-line microphone and remote control for music playback and call management.

Package Contents

Please check the package to ensure all items are present:

- 1 x Folding Headphone (ABCTen AT808)
- 1 x Detachable 3.5mm Audio Cable with Microphone
- 1 x Hard Storage Case

Setup

Follow these steps for initial setup:

1. **Unfold the Headphones:** Gently unfold the headphones from their compact position until they are ready to wear.
2. **Connect the Audio Cable:** Insert the 3.5mm jack of the detachable audio cable firmly into the audio port located on the left ear cup of the headphone. Ensure it clicks into place for a secure connection.
3. **Connect to Device:** Plug the other end of the 3.5mm audio cable into the audio output jack of your smartphone, tablet, computer, or other audio device.
4. **Adjust Fit:** Place the headphones on your head and adjust the headband to ensure a comfortable and secure fit. The ear cups should fully cover your ears for optimal sound isolation and comfort.

Operating Instructions

The AT808 headphones are designed for simple plug-and-play operation. Once connected to your audio device, you can control music playback and calls using the in-line remote control.

Remote Control Functions

- **Play or Pause:** Press the control button once.
- **Next Song:** Press the control button twice quickly.
- **Previous Song:** Press the control button three times quickly.
- **Answer Call:** Press the control button once during an incoming call.
- **End Call:** Press the control button once during an active call.

Maintenance

To ensure the longevity and optimal performance of your AT808 headphones, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the ear cups and headband. Do not use abrasive cleaners, solvents, or harsh chemicals.
- **Storage:** When not in use, store the headphones in the provided hard storage case to protect them from dust, scratches, and impacts.
- **Cable Care:** Avoid sharp bends or kinks in the audio cable. Always grasp the plug, not the cable, when disconnecting.
- **Avoid Moisture:** Keep the headphones away from water, excessive humidity, and extreme temperatures.
- **Handle Gently:** Do not drop or subject the headphones to strong impacts.

Troubleshooting

If you encounter issues with your AT808 headphones, refer to the following common problems and solutions:

Problem	Possible Cause / Solution
No sound from headphones	Ensure the 3.5mm audio cable is fully inserted into both the headphone and the audio device. Check the volume level on your audio device. Test with a different audio source or device to rule out device issues. Ensure the audio cable is not damaged.
Microphone not working	Verify the audio cable is securely connected. Check microphone settings on your audio device (e.g., privacy settings, input selection). Ensure the application you are using has permission to access the microphone.
Remote control not responding	Ensure the audio cable is fully connected. Some older devices or specific operating systems may have limited compatibility with in-line remote functions. Test with a different compatible device.
Sound quality is poor or distorted	Check the audio source for quality issues. Ensure the audio cable is not damaged or partially connected. Reduce the volume on your device if distortion occurs at high levels.

Specifications

Feature	Detail
Brand	ABCTen
