Coin Master User Manual

Your comprehensive guide to playing Coin Master.

INTRODUCTION

Coin Master is a popular mobile game that combines elements of slot machines and village building. Players spin a slot machine to earn coins, attack other players' villages, and raid their coin stashes, all while building and upgrading their own villages. The objective is to progress through different themed villages, collect cards, and complete sets.

SETUP AND INSTALLATION

To begin playing Coin Master, follow these steps:

1. **Download the App:** Search for "Coin Master" in your device's app store (e.g., Google Play Store for Android, Apple App Store for iOS).
2. **Install:** Tap the "Install" or "Get" button to download and install the game on your device. Ensure you have sufficient storage space and a stable internet connection.
3. **Launch:** Once installed, tap the Coin Master icon on your home screen or app drawer to launch the game.
4. **Connect to Facebook (Optional):** For social features, saving progress, and earning bonus spins, you can connect your Facebook account when prompted. This is highly recommended to prevent loss of progress and to play with friends.

OPERATING INSTRUCTIONS (GAMEPLAY BASICS)

Understanding the core mechanics of Coin Master is essential for progression.

The Slot Machine

The central element of Coin Master is the slot machine. Each spin costs one spin point. You earn rewards based on the symbols that appear:

- **Coins:** Earn coins to build and upgrade your village.
- **Hammer (Attack):** Get three hammers to attack another player's village. You can choose which building to attack,

earning coins from the destruction.

- **Pig (Raid):** Get three pigs to raid another player's coin stash. You'll be presented with four "X" marks; choose three to dig for coins.
- **Shield:** Get three shields to protect your village from attacks. You can hold up to three shields at a time.
- **Energy Capsule (Spins):** Get three energy capsules to earn additional spins.

Village Building

Use the coins you earn to build and upgrade the five structures in your current village. Once all five structures are fully upgraded, you will advance to the next village, unlocking new themes and challenges.

Card Collection

Collect cards by opening chests, participating in events, or trading with friends. Completing card sets rewards you with spins, coins, and pets. Pets provide various bonuses during gameplay.

MAINTENANCE AND BEST PRACTICES

While Coin Master is an app, certain practices can enhance your experience and maintain game performance:

- **Regular Updates:** Ensure your game is updated to the latest version for new features, bug fixes, and optimal performance. Check your app store for updates periodically.
- **Clear Cache:** If you experience performance issues, try clearing the app's cache through your device settings. (*Settings > Apps > Coin Master > Storage > Clear Cache* on Android; iOS users may need to reinstall the app).
- **Stable Connection:** Play with a stable internet connection (Wi-Fi or strong mobile data) to prevent disconnections and data loss.
- **Manage Storage:** Ensure your device has sufficient free storage space. Low storage can affect game performance.

TROUBLESHOOTING

Common issues and their solutions:

Problem	Solution
Game crashes or freezes.	• Restart the app. • Restart your device. • Clear the app's cache. • Ensure your device's operating system is up to date. • Check for game updates.
Cannot connect to Facebook.	• Ensure you are logged into Facebook on your device. • Check your device's internet connection. • Verify that Coin Master has permission to access your Facebook account in your Facebook app settings. • Try disconnecting and reconnecting Facebook within the Coin Master app.

Problem	Solution
Spins are not regenerating.	• Spins regenerate over time (typically 5 spins every hour). • Check if you have reached the maximum spin capacity. • Ensure your device's time and date settings are correct.
Purchases not appearing.	• Restart the app. • Verify your purchase history in your app store. • Contact Coin Master support with your purchase receipt.

SPECIFICATIONS

Minimum system requirements for optimal performance:

- **Operating System:** Android 5.0 or higher, iOS 10.0 or higher.
- **Storage:** Approximately 200 MB of free space (may vary with updates).
- **RAM:** 2 GB or more recommended.
- **Internet Connection:** Required for gameplay and updates.

WARRANTY AND SUPPORT

As a mobile application, Coin Master does not come with a traditional hardware warranty. For in-game issues, technical support, or billing inquiries, please refer to the official support channels:

- **In-Game Support:** Access the support section directly from the game's settings menu. This is the fastest way to get assistance for account-specific issues.
- **Official Website:** Visit the official Coin Master website for FAQs and contact options.
- **App Store Support:** For issues related to app downloads or in-app purchases, you may also contact the support team of your respective app store (Google Play or Apple App Store).

Note: Always ensure you are contacting official support channels to protect your account information.
