Hansa Basic Jet 3-Jet Shower/Hand Shower Instruction Manual

Model: 44630300

[Introduction](#)[Safety](#)[Contents](#)[Setup](#)[Operation](#)[Maintenance](#)[Troubleshooting](#)[Specifications](#)[Warranty](#)

1. INTRODUCTION

Thank you for choosing the Hansa Basic Jet 3-Jet Shower/Hand Shower. This manual provides essential information for the safe installation, operation, and maintenance of your new shower head. Please read these instructions carefully before use and retain them for future reference.

The Hansa Basic Jet is designed to provide a versatile showering experience with three distinct spray modes and a durable chrome finish.

Image 1.1: The Hansa Basic Jet 3-Jet Shower/Hand Shower, showcasing its chrome finish and nozzle design.

2. SAFETY INFORMATION

Please observe the following safety guidelines to prevent injury or damage to the product:

- Ensure all connections are secure and watertight to prevent leaks.
- Do not use abrasive cleaners or solvents on the shower head, as this may damage the finish.
- Always turn off the main water supply before attempting any installation or maintenance.
- If you are unsure about any installation steps, consult a qualified plumber.
- The maximum operating temperature for this product is 60°C (140°F).

3. PACKAGE CONTENTS

Verify that all components are present in the package:

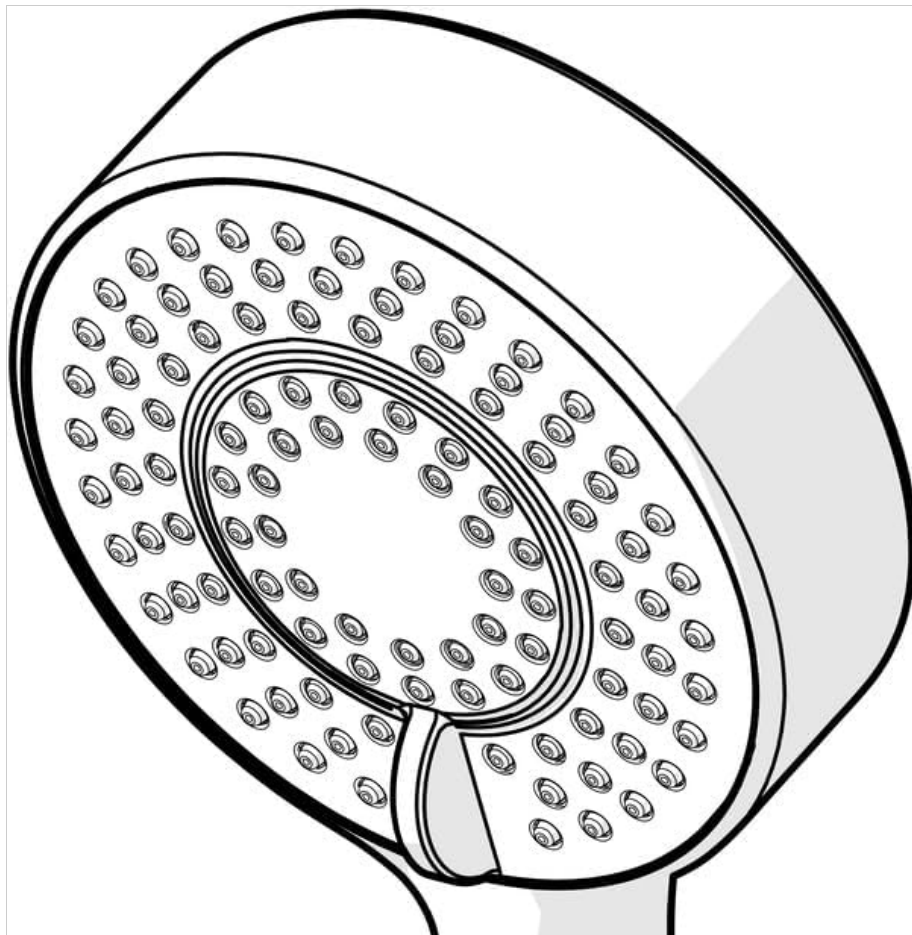

- Hansa Basic Jet 3-Jet Shower/Hand Shower (Model 44630300)
- Instruction Manual

Note: The shower hose and wall bracket are typically sold separately.

4. SETUP AND INSTALLATION

Follow these steps to install your Hansa Basic Jet Shower/Hand Shower:

1. **Prepare the Installation Area:** Ensure the main water supply to your shower is turned off.
2. **Remove Old Shower Head (if applicable):** Unscrew your existing shower head from the shower hose.
3. **Connect the New Shower Head:** The Hansa Basic Jet features a standard G 1/2 hose connection. Screw the new shower head onto your existing shower hose. Hand-tighten first, then use a wrench to gently tighten, ensuring not to overtighten.
4. **Check for Leaks:** Turn on the main water supply and check all connections for any leaks. If leaks occur, tighten the connection slightly more.

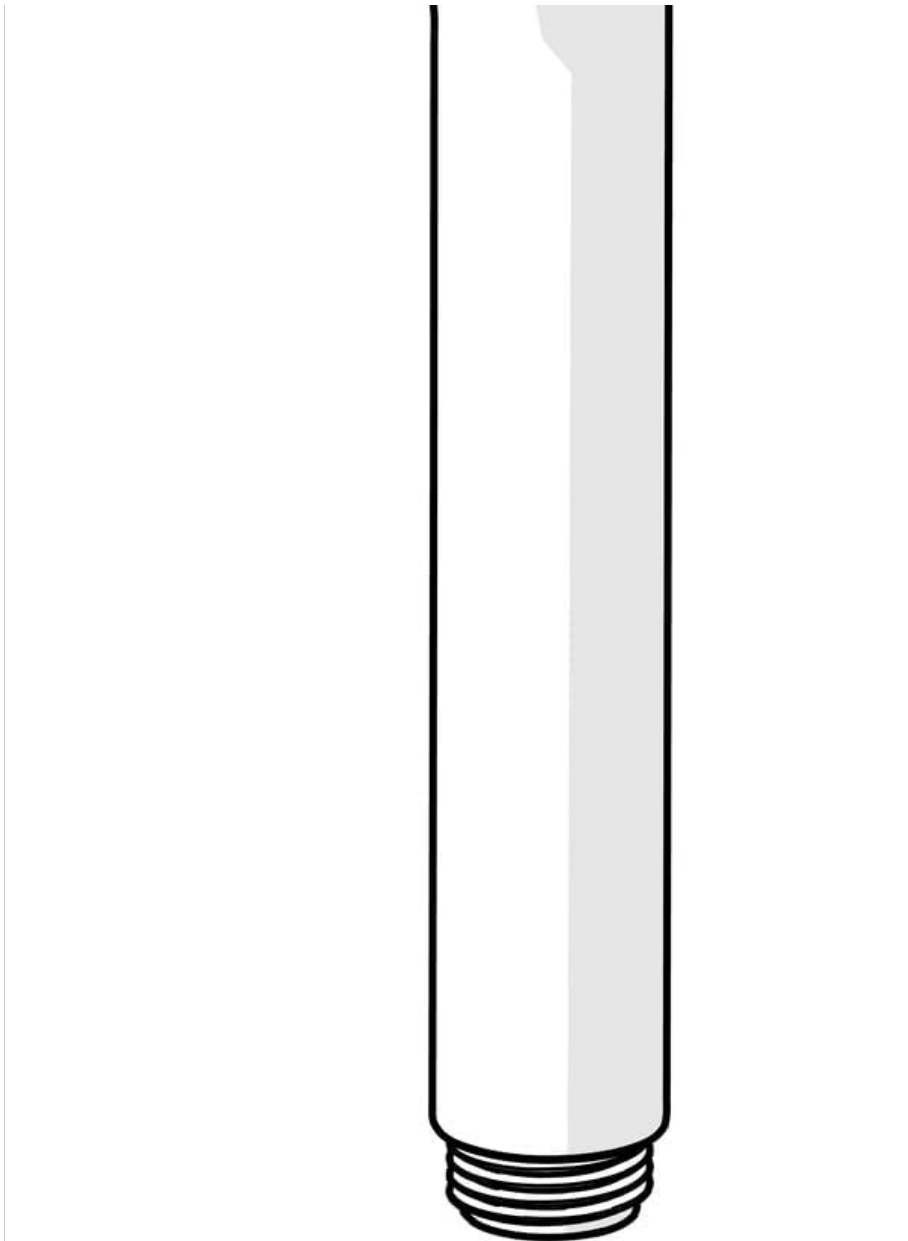

Image 4.1: Isometric view of the shower head, illustrating the G 1/2 hose connection point at the base of the handle.

5. OPERATING INSTRUCTIONS

Your Hansa Basic Jet Shower/Hand Shower offers three distinct spray modes for a customized showering experience. To switch between modes, gently rotate the spray plate on the shower head.

- **Relaxing Mode:** Provides a soft, wide spray for a gentle and soothing shower.
- **Refreshing Mode:** Delivers a more focused and invigorating spray, ideal for rinsing.
- **EcoFlow Mode:** Designed to reduce water consumption while maintaining an effective spray.

Image 5.1: The Hansa Basic Jet shower head in operation, demonstrating a typical spray pattern.

6. MAINTENANCE

Regular cleaning and maintenance will ensure the longevity and optimal performance of your shower head.

Cleaning the Shower Head

- **Daily Cleaning:** Wipe the shower head with a soft, damp cloth after each use to prevent water spots and soap scum buildup.
- **Limescale Removal:** The Hansa Basic Jet features anti-limescale technology. For stubborn limescale deposits, gently rub the silicone nozzles to dislodge mineral buildup.
- **Deep Cleaning:** For a more thorough clean, use a mild soap solution or a specialized bathroom cleaner designed for chrome finishes. Apply with a soft cloth, rinse thoroughly with water, and dry immediately to prevent water spots.
- **Avoid:** Do not use abrasive sponges, scouring pads, or harsh chemical cleaners (e.g., bleach, ammonia-based products) as these can damage the chrome finish and plastic components.

7. TROUBLESHOOTING

If you encounter issues with your shower head, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Low water flow	Clogged nozzles due to limescale; low water pressure from supply.	Clean the nozzles by rubbing them. Check your home's water pressure. Ensure the minimum flow rate of 9 L/min is met.
Irregular spray pattern	Blocked nozzles.	Clean the nozzles thoroughly to remove any blockages.

Problem	Possible Cause	Solution
Leaks at hose connection	Loose connection; worn washer.	Tighten the hose connection. Replace the washer if it appears damaged.

8. SPECIFICATIONS

Detailed technical specifications for the Hansa Basic Jet Shower/Hand Shower:

- **Model Number:** 44630300
- **Brand:** Hansa
- **Material:** Plastic (Composite)
- **Finish:** Chrome
- **Head Diameter:** 95 mm (3.74 inches)
- **Hose Connection:** G 1/2
- **Number of Spray Modes:** 3 (Relaxing, Refreshing, EcoFlow)
- **Flow Rate:** 14 L/min (at 3 bar flow pressure)
- **Recommended Minimum Flow Rate:** 9 L/min
- **Product Dimensions:** 3.74 x 3.74 x 8.66 inches
- **Item Weight:** 5.3 ounces
- **Special Features:** Eco flow control, Anti-limescale technology
