RealTruck 226125

BAK Industries BAKFlip G2 Hard Folding Truck Bed Cover

MODEL: 226125 (6' 2" BED)

Brand: RealTruck

Introduction

The BAKFlip G2 Hard Folding Truck Bed Cover is designed to provide durable cargo protection and full bed access for your truck. This manual provides essential information for the proper installation, operation, and maintenance of your tonneau cover.

Product Compatibility

This BAKFlip G2 cover (Model 226125) is specifically designed for trucks with a 6' 2" bed length. To ensure proper fitment, measure your truck bed's inside length from the bulkhead to the tailgate.

Setup and Installation

Proper installation is crucial for the functionality and longevity of your BAKFlip G2 cover. Follow these general steps for setup. For detailed visual instructions, refer to the provided installation videos.

1. **Prepare the Truck Bed:** Ensure the truck bed rails are clean and free of debris.
2. **Attach Clamps to Leading Panel:** Secure the clamps to the front (or leading) panel of the tonneau cover.
3. **Apply Weather Strip:** Peel off the protective film and firmly apply the weather strip along the front edge of the truck bed.
4. **Position the Cover:** Place the tonneau cover onto the truck bed rails, ensuring both sides align evenly.
5. **Slide in Metal Blocks:** Insert the metal blocks into the side rails.
6. **Install Metal Brackets:** Secure the metal brackets to the side rails using appropriate tools, ensuring a tight fit.

7. **Secure Rear Panel Clamps:** Attach the quick-release clamps to the rear panel of the tonneau cover and secure them to the truck bed rails.

It offers visual assistance for understanding the installation process.

Operating Instructions

The BAKFlip G2 is designed for ease of use, offering flexible access to your truck bed.

- **Full Bed Access:** To access the entire truck bed, simply unlatch the panels and fold the cover completely towards the cab. The integrated buckle system allows you to drive with the cover folded up, without obstructing the third brake light.
- **Partial Bed Access:** The cover can be folded incrementally, allowing access to specific portions of your truck bed as needed. Each panel latches securely into place.
- **Closing the Cover:** To close, simply unfold the panels back over the truck bed. The patented, automatic latching panel system secures the cover as each panel is laid down. Ensure your tailgate is locked for maximum security.

Features and Components

The BAKFlip G2 is constructed with high-quality materials and innovative design elements:

- **Durable Construction:** Made from robust aluminum, capable of holding up to 300 lbs of evenly distributed weight.
- **Patented Slam Latch System:** Allows for automatic latching of panels from both sides as the cover is closed, ensuring security.
- **Patented Seamless Hinges:** Constructed from EPDM rubber, these hinges are designed to withstand repeated opening and closing without deterioration and provide a water-tight seal.
- **Patented Drainage System:** Integrated drain gutters and tubes divert water out of the truck bed, keeping your cargo dry.
- **No-Profile Fit:** The cover sits flush with the truck bed rails, providing a sleek, low-profile appearance and allowing full access to stake hole pockets for tie-downs or racks.

Maintenance

- To ensure the longevity and optimal performance of your BAKFlip G2 cover, regular maintenance is recommended:
- **Cleaning:** Wash the cover regularly with mild soap and water. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
 - **Seal Inspection:** Periodically inspect the perimeter seals and hinges for any signs of wear or damage. Ensure they are free of debris to maintain water-tightness.
 - **Drainage System:** Check the drain tubes and gutters for blockages and clear any accumulated leaves or dirt to ensure proper water diversion.
 - **Latching Mechanism:** Keep the latching mechanisms clean and lubricated as needed to ensure smooth operation.

Troubleshooting

- If you encounter any issues with your BAKFlip G2 cover, consider the following:
- **Water Leaks:** Check the weather strip and all seals for proper placement and integrity. Ensure drain tubes are clear and correctly installed.
 - **Difficulty Latching/Unlatching:** Inspect the latching mechanisms for obstructions or damage. Ensure the cover is properly aligned on the rails.
 - **Cover Not Sitting Flush:** Verify that all clamps and brackets are securely tightened and that the cover is correctly positioned on the truck bed rails.

For persistent issues, please contact customer support.

Specifications
