

Nerf E0016

NERF Modulus Mediator Blaster Instruction Manual

Model: E0016 | Brand: Nerf

IMPORTANT SAFETY INFORMATION

WARNING: Do not aim at eyes or face. To avoid injury: Use only darts designed for this product. Do not modify darts or dart blaster.

- Always wear eyewear when using this blaster (eyewear not included).
- Ensure all users understand and follow safety guidelines.
- Keep fingers clear of moving parts during operation.
- Do not use modified darts or darts from other manufacturers, as they may not meet safety standards or could damage the blaster.
- Adult supervision is recommended for younger users.

WHAT'S IN THE BOX

Your NERF Modulus Mediator Blaster package includes the following components:

- 1x NERF Modulus Mediator Blaster
- 1x 6-Dart Clip
- 6x Official Nerf Elite Darts

Image: Contents of the NERF Modulus Mediator Blaster package, showing the blaster, clip, and darts.

SETUP INSTRUCTIONS

1. Loading the 6-Dart Clip

1. Take the 6-dart clip.
2. Insert one Official Nerf Elite Dart into each slot of the clip until it is fully seated. Ensure darts are not bent or damaged.

2. Inserting the Clip into the Blaster

1. Locate the clip well on the side of the blaster.
2. Slide the loaded 6-dart clip into the clip well until it clicks securely into place. The clip is designed for side-loading.

SIDE-LOADING 6-DART CLIP

Image: Demonstrates the process of inserting the 6-dart clip into the side-loading mechanism of the blaster.

OPERATING INSTRUCTIONS

1. Priming the Blaster (Pump-Action)

1. Grip the pump-action handle located at the front of the blaster.
2. Pull the handle all the way back towards the stock until it locks into place.
3. Push the handle all the way forward to complete the priming cycle. The blaster is now ready to fire one dart.

2. Firing a Single Dart

1. Ensure the blaster is primed (as per step 1).
2. Aim the blaster at your target, ensuring no eyes or faces are in the line of fire.
3. Pull the trigger to launch a single dart.

3. Slam-Fire Action (Rapid Firing)

The Mediator blaster features a slam-fire mechanism for rapid dart blasting.

1. Hold down the trigger continuously.
2. Rapidly pump the front handle back and forth. Each full pump cycle will launch a dart as long as the trigger is held down and darts are available in the clip.

Image: Illustrates the slam-fire feature, where darts are rapidly launched by continuously pumping the handle while holding the trigger.

CUSTOMIZATION WITH NERF MODULUS SYSTEM

The Nerf Modulus Mediator Blaster is part of the Nerf Modulus system, allowing for extensive customization. It features tactical rails and attachment points for various Nerf Modulus accessories (sold separately).

- **Tactical Rails:** Attach scopes, grips, lights, or other rail-compatible accessories to enhance your blaster.
- **Attachment Points:** The blaster has specific attachment points for the Nerf Modulus Mediator Series Barrel and Stock, which can be used to build the Mediator XL blaster.

Explore the full range of Nerf Modulus accessories to create over 1000 different blaster combinations.

MAINTENANCE

Proper care will ensure the longevity and optimal performance of your NERF Modulus Mediator Blaster.

- **Dart Care:** Keep your Official Nerf Elite Darts clean and dry. Avoid bending or crushing darts, as this can affect performance and lead to jams. Replace worn or damaged darts.
- **Cleaning:** Wipe the blaster with a dry or slightly damp cloth to remove dust and debris. Do not submerge the blaster in water or use harsh chemicals.
- **Storage:** Store the blaster in a cool, dry place away from direct sunlight and extreme temperatures.
- **Avoid Lubricants:** Do not apply any lubricants or oils to the internal mechanisms of the blaster, as this can attract dirt and cause malfunction.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Darts not firing or firing weakly	<ul style="list-style-type: none">• Blaster not fully primed.• Damaged or worn darts.• Clip not fully inserted.	<ul style="list-style-type: none">• Ensure the pump-action handle is pulled all the way back and pushed all the way forward.• Replace old or damaged darts with new Official Nerf Elite Darts.• Push the clip firmly into the blaster until it clicks.
Darts jamming in the blaster	<ul style="list-style-type: none">• Damaged or bent darts.• Improper priming technique.• Foreign object in the barrel.	<ul style="list-style-type: none">• Remove the clip. Clear any jammed darts from the barrel or internal mechanism. Use only undamaged darts.• Ensure the pump-action handle is moved smoothly and completely through its full range of motion.• Inspect the barrel for obstructions and carefully remove them.
Clip not inserting or removing easily	<ul style="list-style-type: none">• Clip misaligned.• Release button not fully pressed.	<ul style="list-style-type: none">• Ensure the clip is aligned correctly with the clip well.• Press the clip release button firmly while inserting or removing the clip.
