1. **Preparation:**
    - Clear a well-lit, flat workspace.
    - Sort blocks by color and size if desired, to facilitate easier building.
    - Keep the instruction booklet open to the current step.
2. **Building Process:**
    - Begin with the base layer as indicated in the instructions.

- Carefully attach each block, ensuring a secure fit. Nanoblocks are designed for precision.
- Pay close attention to the orientation of blocks, especially for intricate architectural details like arches and windows.

After assembly, your Nanoblock Taj Mahal is ready for display. Choose a stable, flat surface away from direct sunlight and excessive heat to prevent potential discoloration or warping of the blocks.

- **Cleaning:** To clean the model, use a soft, dry brush or a can of compressed air to remove dust. Avoid using water or chemical cleaners, as these may damage the blocks.
