Bean Envy 43235-145925

Bean Envy Cold Brew Coffee Maker (Model 43235-145925) Instruction Manual

Welcome to your new Bean Envy Cold Brew Coffee Maker. This manual provides essential information for setup, operation, and maintenance.

PRODUCT OVERVIEW

The Bean Envy Cold Brew Coffee Maker is designed for brewing smooth, low-acid cold brew coffee. It features durable borosilicate glass, a stainless steel filter, and a silicone base for stability.

Key Features

- Brews 4 cups (32 oz) of cold brew.
- Easy to use for brewing, storing, serving, and cleaning.
- Constructed with borosilicate glass, a silicone non-slip base, and a stainless-steel precision-cut filter.
- Dual silicone rings and a tight-fit cap ensure an airtight seal for freshness.

PRODUCT COMPONENTS

Your Bean Envy Cold Brew Coffee Maker includes the following parts:

- Glass Carafe with Measurement Marks
- Stainless Steel Mesh Filter
- Silicone Non-Slip Base (integrated with carafe)
- Tight-Fit Silicone Cap

Superior Quality & Durability

This image illustrates the main components: the thick borosilicate glass carafe, the stainless steel precision-cut filter, the non-slip silicone base, and the tight-fit cap.

SETUP

Before first use, thoroughly clean all components of your Bean Envy Cold Brew Coffee Maker.

1. Disassemble the cold brew maker by removing the stainless steel mesh filter from the glass carafe.
2. Separate the silicone cap from the filter.
3. Wash all parts (glass carafe, mesh filter, silicone cap, and silicone base) with warm, soapy water.
4. Rinse thoroughly and allow to air dry completely.
5. Reassemble the mesh filter by ensuring the silicone ring is properly seated.

The assembled cold brew maker features a sleek design with a clear glass carafe and a stainless steel filter.

OPERATING INSTRUCTIONS

Follow these simple steps to brew delicious cold brew coffee:

1. **Add Coarse Ground Coffee:** Place the mesh filter securely inside the carafe. Fill the mesh filter with your desired amount of coarse ground coffee. For a 32 oz brew, approximately 8 tablespoons of coffee grounds are recommended. Adjust to taste.
2. **Pour Water:** Slowly pour room temperature water over the coffee grounds, ensuring all grounds are saturated. Fill up to your desired measurement mark on the carafe.
3. **Refrigerate:** Place the carafe in the refrigerator for 12-24 hours. For a lighter brew, steep for a shorter duration (e.g., 12 hours). For a stronger concentrate, steep for up to 24 hours.
4. **Remove Filter:** Once the desired brew time is complete, carefully remove the mesh filter from the carafe.
5. **Enjoy:** Pour the cold brew concentrate into a cup with ice and water or milk to your liking.

Cold Brew Coffee in 5 Simple Steps

1 ADD COARSE GROUND COFFEE

2 POUR WATER

3 REFRIGERATE FOR 12-24 HOURS

4 REMOVE FILTER

5 ENJOY!

This visual guide simplifies the cold brew process, from adding grounds to enjoying your beverage.

Cold Brew Coffee Ratio Chart

Cups of Coffee (8 oz)	Coffee Grounds Used	Water Used
1 cup	2 tbsp	8 oz
2 cups	4 tbsp	16 oz
3 cups	6 tbsp	24 oz
4 cups	8 tbsp	32 oz

Note: This chart is a recommendation. Adjust coffee grounds and water ratio based on your personal preference for strength.

Recommended Brewing Times

- For a standard cold brew, steep for 12-18 hours in the refrigerator.
- For a stronger concentrate, steep for 18-24 hours in the refrigerator.
- For a lighter, less acidic brew, steep at room temperature for 8-12 hours.

MAINTENANCE AND CLEANING

Proper care ensures the longevity of your cold brew coffee maker.

- All components are dishwasher safe.
- For best results, hand wash the mesh filter to ensure all coffee grounds are removed.
- Avoid abrasive cleaners or scouring pads that could scratch the glass or stainless steel.
- Ensure all parts are completely dry before reassembling or storing.

TROUBLESHOOTING

Common issues and solutions:

- **Weak Coffee:** Ensure you are using coarse ground coffee. Fine grounds can lead to over-extraction and bitterness, but also may not allow proper water flow for full extraction. Stir the grounds gently after adding water to ensure full saturation. Increase steeping time.
- **Sludge in Coffee:** Use coarse ground coffee. If using pre-ground coffee, shake the mesh strainer over a sink before brewing to remove any very fine particles.
- **Glass Breakage/Cracks:** The borosilicate glass is durable but can break if dropped or subjected to extreme temperature changes. Handle with care.

SPECIFICATIONS

Feature	Detail
Brand	Bean Envy
Model Name	43235-145925
Capacity	950 Milliliters (32 oz / 4 cups)
Color	Black, Clear, Silver
Product Dimensions	5"D x 8"W x 5"H
Material	Borosilicate Glass, Stainless Steel
Filter Type	Reusable
Operation Mode	Manual
