## Skagen SKT1114

# Skagen Connected Hybrid Smartwatch SKT1114 User Manual

Model: SKT1114

## 1. INTRODUCTION

---

This manual provides essential instructions for setting up, operating, and maintaining your Skagen Connected Hybrid Smartwatch SKT1114. Please read this manual thoroughly to ensure proper use and to maximize the functionality of your device. The Skagen Connected Hybrid Smartwatch combines classic watch design with smart technology, offering activity tracking, notification alerts, and customizable button functions.

## 2. PACKAGE CONTENTS

---

Upon opening your Skagen Connected Hybrid Smartwatch SKT1114 package, please verify that all items are present:

- Skagen Connected Hybrid Smartwatch SKT1114 with leather strap
- Quick Start Guide (this document)
- Warranty Information
- 1 x LR44 Battery (pre-installed)

**Image 1:** Front view of the Skagen Connected Hybrid Smartwatch SKT1114, showcasing the grey dial, sub-dial, and brown leather strap.

## 3. SETUP

### 3.1 Initial Power On and Battery

Your Skagen Connected Hybrid Smartwatch SKT1114 comes with an LR44 battery pre-installed. To activate the watch, you may need to remove a small plastic tab from the crown (if present). If the watch hands do not move, the battery may need to be replaced (refer to Section 5.3).

### 3.2 Pairing with Your Smartphone

The Skagen Connected Hybrid Smartwatch requires pairing with a smartphone to access its smart features and set the time automatically.

1. Download the "Skagen Connected" app from your smartphone's app store (available for iOS and Android).
2. Open the app and create an account or log in.
3. Follow the on-screen instructions to add a new device. The app will guide you through the pairing process, which typically involves pressing a button on your watch.
4. Ensure your phone's Bluetooth is enabled and the watch is within range.

5. Once paired, the watch will automatically set the correct time based on your phone's time zone.

**Image 2:** Side view of the Skagen Connected Hybrid Smartwatch, highlighting the three customizable pushers on the right side of the watch case.

## 4. OPERATING INSTRUCTIONS

---

Your Skagen Connected Hybrid Smartwatch offers various functionalities accessible through the watch face and the connected app.

### 4.1 Time Display

The main dial displays the current time using traditional hour and minute hands. The watch automatically synchronizes with your smartphone's time after successful pairing.

### 4.2 Sub-Dial Functions

The sub-dial on your watch face serves multiple purposes, configurable via the Skagen Connected app. Common functions include:

- **Date:** Displays the current day of the month.
- **Activity Goal Progress:** Shows your progress towards a daily step goal (e.g., 0-100%).

- **Second Time Zone:** Displays the time in a different time zone.

### 4.3 Customizable Pushers (Buttons)

The three buttons on the side of your watch can be customized through the Skagen Connected app to perform various actions. Default functions often include:

- **Top Pusher:** Date display / Control music playback.
- **Middle Pusher (Crown):** Connects to the app / Activates specific functions.
- **Bottom Pusher:** Activity tracking / Take a photo on your phone.

Refer to the Skagen Connected app for a full list of customizable options and to assign functions to each pusher.

### 4.4 Activity Tracking

Your watch tracks daily steps, distance, and calories burned. This data is synchronized with the Skagen Connected app, where you can view your progress and set goals.

### 4.5 Notifications

The watch can alert you to incoming calls, messages, and app notifications through subtle vibrations and hand movements. Configure notification preferences within the Skagen Connected app.

## 5. MAINTENANCE

---

### 5.1 Cleaning Your Watch

To maintain the appearance of your watch:

- Wipe the watch case with a soft, damp cloth.
- For leather straps, avoid prolonged exposure to water, direct sunlight, and harsh chemicals. Clean with a specialized leather cleaner if necessary.
- Do not use abrasive materials or chemical cleaners, as these can damage the watch's finish.

### 5.2 Water Resistance

While the watch is designed for daily wear, it is generally resistant to splashes and brief immersion. However, it is not suitable for swimming or diving. Avoid pressing buttons while the watch is wet to prevent water ingress.

### 5.3 Battery Replacement

The Skagen Connected Hybrid Smartwatch uses a standard LR44 coin cell battery. When the battery is low, you may notice inconsistent performance or the watch stopping. Battery replacement should ideally be performed by a qualified watch technician to ensure proper sealing and water resistance. If replacing yourself, carefully follow the instructions provided with the replacement battery and ensure the case back is securely re-sealed.

**Image 3:** Rear view of the Skagen Connected Hybrid Smartwatch, showing the case back and the buckle of the brown leather strap.

## 6. TROUBLESHOOTING

If you encounter issues with your Skagen Connected Hybrid Smartwatch, refer to the following common solutions:

Problem	Possible Solution
Watch hands not moving / Watch not responding.	<ul style="list-style-type: none"><li>• Check if the battery tab has been removed.</li><li>• The battery may be depleted. Replace the LR44 battery (refer to Section 5.3).</li><li>• Try resetting the watch by holding down the middle pusher for 10-15 seconds.</li></ul>

Problem	Possible Solution
Watch not pairing with the app.	<ul style="list-style-type: none"> <li>• Ensure Bluetooth is enabled on your smartphone.</li> <li>• Make sure the watch is within close proximity to your phone.</li> <li>• Restart both your phone and the watch (by removing and reinserting the battery if necessary).</li> <li>• Clear the app's cache or reinstall the Skagen Connected app.</li> </ul>
Inaccurate activity tracking.	<ul style="list-style-type: none"> <li>• Ensure the watch is worn snugly on your wrist.</li> <li>• Calibrate the activity tracker through the Skagen Connected app if an option is available.</li> <li>• Check for app updates.</li> </ul>
Notifications not received.	<ul style="list-style-type: none"> <li>• Verify notification settings within the Skagen Connected app.</li> <li>• Ensure your phone's notification settings allow the Skagen Connected app to send alerts.</li> <li>• Check if the watch is still paired and connected to your phone via Bluetooth.</li> </ul>
