SETUP

- Unpacking:** Carefully remove all packaging materials. Ensure all components are present: main unit, milk carafe, hot chocolate carafe, user manual, and warranty card.
- Positioning:** Place the machine on a stable, level surface away from water sources and heat. Ensure adequate ventilation.
- Water Tank:** Fill the water tank with fresh, cold water.
- Bean Container:** Open the lid and fill the bean container with fresh coffee beans. The machine has an integrated grinder with 13 adjustable settings.
- Power Connection:** Plug the appliance into a suitable power outlet (220V).
- Initial Start-up:** Follow the on-screen instructions on the 4.3" TFT color display for the initial setup, including language selection and water hardness testing.

Beverage Selection and Customization

The PrimaDonna Elite offers over 50 hot and cold one-touch beverage options. You can customize your drinks by adjusting aroma, quantity, and milk froth levels. The machine also supports 6 user profiles for individually tailored drinks.

- **Espresso:** For a rich, concentrated coffee.
- **Coffee:** A classic black coffee.
- **Cappuccino:** Espresso with steamed milk and a generous layer of milk foam.
- **Latte Macchiato:** Layered drink with milk, espresso, and milk foam.
- **Hot Chocolate:** Prepare delicious hot chocolate using the dedicated carafe.
- **Cold Beverages:** Utilize the extra carafe for cold coffee and cold milk foam.

MAINTENANCE

Regular cleaning and maintenance are crucial for the longevity and optimal performance of your coffee machine.

- Automatic Cleaning:** The LatteCrema system performs an automatic cleaning cycle after each use.
- Drip Tray:** The drip tray with a dishwasher-safe removable grid should be emptied and cleaned regularly.
- Brewing Unit:** The brewing unit is removable for easy cleaning. Refer to the detailed instructions in the full manual for proper removal and cleaning procedures.
- Descaling:** The machine will prompt you when descaling is required. Use only DeLonghi descaling solution and follow the on-screen instructions.
- Water Tank & Milk Carafe:** Clean these components regularly with warm water and mild detergent.

TROUBLESHOOTING

If you encounter any issues, please refer to the following common solutions before contacting customer support.

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Machine not turning on	Power cable not connected, power outlet issue.	Check power cable connection and ensure the outlet is functional.
Coffee not dispensing	Water tank empty, brewing unit clogged, coffee beans low.	Fill water tank, clean brewing unit, refill coffee beans.
Milk not frothing correctly	Milk carafe not clean, milk type unsuitable, milk too warm.	Clean milk carafe thoroughly, use cold fresh milk, ensure milk is suitable for frothing.
Error message on display	Specific internal issue.	Refer to the full user manual for specific error codes and solutions. If the issue persists, contact customer support.
