iHip Giants Noise Isolation Pro DJ Headphones User Manual

Model: 769526024999

1. INTRODUCTION AND OVERVIEW

Thank you for choosing the iHip Giants Noise Isolation Pro DJ Headphones. This manual provides essential information for the proper setup, operation, and maintenance of your headphones. Please read it thoroughly before use.

These headphones are designed for audio playback with noise isolation features, a detachable cord, and an integrated microphone with volume control. They are compatible with various stereo audio devices.

2. PACKAGE CONTENTS

Ensure all items are present in the package:

- 1 x iHip Giants Noise Isolation Pro DJ Headphones
- 1 x Detachable Audio Cable with In-line Microphone and Volume Control

3. SETUP

To begin using your iHip headphones, follow these steps:

1. **Connect the Audio Cable:** Locate the audio input port on the left earcup of the headphones. Insert the smaller end of the detachable audio cable firmly into this port.
2. **Connect to Audio Device:** Insert the 3.5mm jack end of the audio cable into the headphone port of your audio source (e.g., smartphone, tablet, computer, MP3 player).
3. **Adjust Fit:** Place the headphones over your ears. Adjust the headband for a comfortable and secure fit. The earcups feature soft padding for extended comfort.

4. OPERATING INSTRUCTIONS

Once connected, you can control your audio and communication:

- **Audio Playback:** Begin playing audio from your connected device.
- **Volume Control:** Use the in-line volume control on the detachable cable to adjust the audio output level. Slide the control up to increase volume and down to decrease it.
- **Microphone Usage:** The built-in microphone on the detachable cable allows for hands-free communication during calls or gaming. Ensure the microphone is positioned appropriately for clear voice capture.
- **Noise Isolation:** The over-ear design and soft earcups provide passive noise isolation, reducing external distractions for an immersive listening experience.
- **Swivel Mechanism:** The earcups feature a swivel mechanism, allowing for single-ear monitoring, which can be useful in certain professional or casual listening scenarios.

5. MAINTENANCE

Proper care will extend the life and performance of your headphones:

- **Cleaning:** Use a soft, dry cloth to wipe the earcups and headband. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** When not in use, store the headphones in a clean, dry place away from extreme temperatures and direct sunlight. Avoid placing heavy objects on them.
- **Cable Care:** Handle the detachable cable gently. Avoid sharp bends or excessive pulling to prevent damage.

6. TROUBLESHOOTING

If you encounter issues with your headphones, refer to the following common solutions:

- **No Sound:**
 - Ensure the audio cable is securely connected to both the headphones and the audio device.
 - Check the volume level on both the in-line control and your audio device.
 - Test the headphones with a different audio device or cable to rule out a faulty component.
- **Microphone Not Working:**
 - Verify the audio cable is fully inserted, as a partial connection can affect microphone function.
 - Ensure your audio device's settings recognize the external microphone.
 - Test with another device to confirm microphone functionality.
- **Poor Sound Quality:**

- Check for damage to the audio cable or connectors.
- Ensure the audio source is playing high-quality audio files.

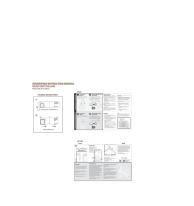

If problems persist, please contact customer support.

7. SPECIFICATIONS

Brand	iHip
Model Name	Giants Noise Isolation Pro DJ
Item Model Number	769526024999
Connectivity Technology	Wired (3.5 mm Jack)
Cable Feature	Detachable
Control Type	Volume Control
Special Feature	Microphone Included, Noise Isolation, Volume Control
Ear Placement	On Ear
Form Factor	Over Ear
