## ELLE EL/13419

# ELLE Women's Eyeglasses EL13419 Instruction Manual

Model: EL/13419

## INTRODUCTION

This instruction manual provides essential information for the proper use, care, and maintenance of your ELLE Women's Eyeglasses, model EL13419. Please read this manual thoroughly to ensure optimal performance and longevity of your eyewear.

## PRODUCT OVERVIEW

The ELLE EL13419 eyeglasses feature a gray full-rim optical frame designed for women. These frames are suitable for everyday wear and various activities. The design emphasizes both style and functionality.

Image: ELLE Women's Eyeglasses EL13419. This image displays the gray full-rim optical frame from a three-quarter angle, showcasing the frame's shape and the subtle rose gold accent on the temple arm near the hinge.

## SETUP AND INITIAL USE

- Lens Insertion:** Your optical professional will insert prescription lenses into the frames. Ensure the lenses are securely fitted and free from any movement.
- Initial Fitting:** After lens insertion, your optical professional will adjust the frames to fit your face comfortably. This includes adjusting the temple arms and nose pads (if applicable) to prevent slipping and ensure proper alignment.
- Familiarization:** Wear the eyeglasses for a short period to get accustomed to the fit and vision. If any discomfort or visual issues arise, consult your optical professional for further adjustments.

## OPERATING INSTRUCTIONS

- Wearing:** Always use both hands to put on and take off your eyeglasses. This helps maintain the frame's shape and prevents stress on the hinges.
- Placement:** When not in use, place your eyeglasses in a protective case to prevent scratches and damage. Avoid placing them face down on surfaces.
- Handling:** Hold the frames by the bridge or temple arms. Avoid touching the lenses directly to prevent smudges.

## MAINTENANCE AND CARE

### Cleaning

- Lenses:** Use a dedicated lens cleaning spray and a clean microfiber cloth to gently wipe the lenses. Avoid using paper towels, clothing, or harsh chemicals, as these can scratch the lens coatings.
- Frames:** Clean the frames with a damp, soft cloth and mild soap if necessary. Rinse thoroughly and dry with a clean cloth.

### Storage

- Always store your eyeglasses in a hard protective case when not wearing them.
- Avoid exposing eyeglasses to extreme temperatures, such as leaving them in a hot car, as this can damage the frame material and lens coatings.

### Regular Checks

- Periodically check screws for tightness. If a screw becomes loose, gently tighten it with a small eyewear screwdriver. Avoid overtightening.
- If frames become bent or misaligned, visit your optical professional for professional adjustment.

## TROUBLESHOOTING

Issue	Possible Cause	Solution
Eyeglasses slipping down nose	Loose fit, nose pads require adjustment	Visit an optical professional for frame adjustment.
Discomfort behind ears	Temple arms are too tight or misaligned	Visit an optical professional for temple arm adjustment.
Loose screw on hinge	Normal wear and tear	Gently tighten with a small eyewear screwdriver. If unable, consult an optical professional.

Issue	Possible Cause	Solution
Scratched lenses	Improper cleaning or storage	Scratches on lenses are generally permanent. Consider lens replacement. Always use proper cleaning and storage methods.
