Hot Wheels Speedway Hauler User Guide

Model: SG_B07258FPXR_US

PRODUCT OVERVIEW

The Hot Wheels Speedway Hauler is a toy transporter designed to carry Hot Wheels vehicles. This set includes one hauler and one car, featuring a distinctive blue, orange, and white design. It is intended for play and vehicle transport within the Hot Wheels City universe.

Image: The Hot Wheels Speedway Hauler, a blue, orange, and white transporter, is shown in its original packaging alongside an included matching car.

SETUP INSTRUCTIONS

1. **Unboxing:** Carefully remove the Speedway Hauler and the included car from the packaging.
 2. **Connecting the Hauler:** The hauler consists of two main parts: the truck cab and the trailer. Align the ball joint on the truck cab with the corresponding socket on the trailer. Gently push them together until they snap securely into place.
 3. **Loading Vehicles:** The trailer is designed to hold multiple Hot Wheels vehicles. Open the rear ramp or access point (if applicable) and carefully roll your Hot Wheels cars into the trailer for transport.
-

OPERATING THE SPEEDWAY HAULER

- **Driving:** The Speedway Hauler is designed for smooth rolling on flat surfaces. Push the hauler forward or backward to simulate transport.
 - **Turning:** The ball joint connection allows the truck cab and trailer to articulate, enabling turns and maneuvers.
 - **Detaching the Trailer:** To detach the trailer, gently pull the truck cab and trailer apart at the ball joint connection. This allows for separate play with the truck cab or for offloading the trailer's contents.
 - **Unloading Vehicles:** To unload vehicles, detach the trailer if necessary, and roll the cars out from the rear or side access points.
-

CARE AND MAINTENANCE

- **Cleaning:** Wipe the hauler and car with a soft, damp cloth to remove dust and dirt. Avoid using harsh chemicals or abrasive cleaners.
 - **Storage:** Store the Speedway Hauler and its components in a cool, dry place away from direct sunlight to prevent material degradation.
 - **Inspection:** Periodically inspect the wheels, axles, and connection points for any signs of wear or damage.
-

TROUBLESHOOTING

Problem: Hauler components do not connect securely.

Solution: Ensure the ball joint on the truck cab is properly aligned with the socket on the trailer. Apply gentle, even pressure until a click is heard, indicating a secure connection. Check for any obstructions in the connection mechanism.

Problem: Wheels do not roll smoothly.

Solution: Check the wheels and axles for any trapped debris, hair, or lint. Carefully remove any obstructions. Ensure the wheels are securely attached to their axles.

PRODUCT SPECIFICATIONS

Brand:	Hot Wheels
Model Number:	SG_B07258FPXR_US
Product Dimensions:	9.06 x 3.62 x 1.73 inches
Item Weight:	6.4 ounces
Recommended Age:	0 - 8 years
Manufacturer:	Mattel

WARRANTY AND SUPPORT

For information regarding product warranty or customer support, please refer to the official Hot Wheels website or contact Mattel customer service directly. Specific warranty details may vary by region and purchase date.
