## MAINTENANCE

To ensure the longevity and safe operation of your TPLTECH power cord, follow these maintenance guidelines:

- **Cleaning:** Disconnect the power cord from both the device and the wall outlet before cleaning. Wipe the cord with a dry, soft cloth. Do not use liquid cleaners or abrasive materials.
- **Storage:** When not in use, coil the cable loosely. Avoid tight coiling or bending at sharp angles, which can damage the internal wires. Store in a cool, dry place away from direct sunlight.
- **Inspection:** Periodically inspect the cable for any signs of wear, cuts, fraying, or damage to the insulation or connectors. If any damage is observed, discontinue use immediately and replace the cable.
