Buyplus Power washer sprayer -18

Buyplus Hydro Jet Power Pressure Washer Wand Instruction Manual

Brand: Buyplus | Model: Power washer sprayer -18

1. INTRODUCTION

This manual provides essential information for the safe and effective use of your Buyplus Hydro Jet Power Pressure Washer Wand. This device is designed to enhance the water pressure from a standard garden hose, providing a powerful stream for various cleaning tasks. It operates without electricity or external power, relying solely on your water system's pressure.

2. PACKAGE CONTENTS

Verify that all items listed below are included in your package:

- 1x Hydro Jet Power Pressure Washer Wand (18-inch aluminum wand with brass coupler)
- 1x Jet Stream Nozzle (brass)
- 1x Fan Spray Nozzle (brass)
- 1x Hose Adapter (female threaded standard garden hose to 1/2-inch quick connect hose coupler with O-ring)
- 1x Scrubbing Mitt
- 1x Roll of Teflon Tape

3. PRODUCT FEATURES

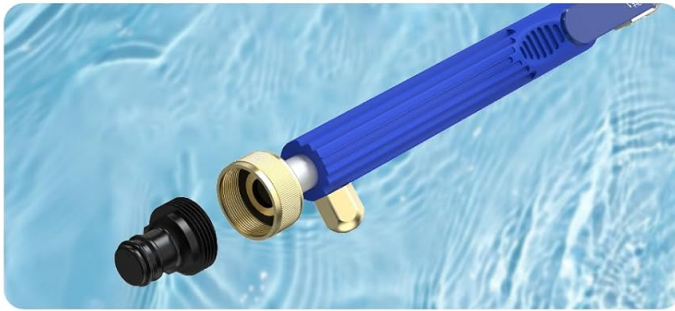

- **No External Power Required:** Operates solely on your existing water system pressure.
- **Dual Spray Tips:** Includes a jet stream nozzle for concentrated cleaning and a fan spray nozzle for broader coverage.
- **Durable Construction:** Features a strong aluminum wand and anti-rust brass nozzles and connectors for longevity.
- **Ergonomic Design:** Equipped with an anti-slip sponge grip handle for comfortable and secure use.
- **Universal Compatibility:** Fits all 3/4-inch standard garden hoses and other sizes with standard 1-inch female hose connectors.
- **Integrated On/Off Switch:** Convenient control over water flow directly on the handle.

EASY CONNECT

COMES WITH 3/4" AND 1/2" GARDEN HOSE CONNECTORS AND QUICK CONNECTOR

1
Connect the 3/4 connector of the quick plug to the water gun

2
Connect the quick connector to the quick plug

3
Connect the hose to the 3/4 fitting and turn the adjustable switch

Figure 3.2: Illustration of the linear (jet stream) and fan spray nozzles.

4. SETUP INSTRUCTIONS

Follow these steps to properly set up your Hydro Jet Power Pressure Washer Wand:

1. **Attach Nozzle:** Select either the jet stream or fan spray nozzle and screw it onto the end of the aluminum wand until secure.
2. **Connect Quick Plug:** If using the quick connect hose coupler, connect the 3/4-inch connector of the quick plug to the water gun's brass inlet.
3. **Attach Quick Connector:** Connect the quick connector to the quick plug.
4. **Connect to Hose:** Attach your garden hose to the 3/4-inch fitting on the wand. Ensure a tight connection to prevent leaks. If necessary, use the provided Teflon tape on the threads for a better seal.
5. **Activate Water Flow:** Turn on the water supply from your garden hose. Use the adjustable on/off switch on the wand's handle to control the water flow.

Before And After Use

Video 4.1: Demonstration of the Pressure Power Washer Wand setup and use. This video illustrates the connection process and general operation of the wand for various cleaning tasks.

5. OPERATING INSTRUCTIONS

The Hydro Jet Power Pressure Washer Wand is versatile for various cleaning applications:

- **Car Washing:** Use the fan spray nozzle for general rinsing and the jet stream for stubborn dirt on wheels or undercarriage.
- **Window Cleaning:** The fan spray nozzle provides a gentle yet effective stream for cleaning windows without damage.
- **Garden & Patio:** Ideal for watering plants with the fan spray or cleaning moss and dirt from patios, driveways, and fences with the jet stream.
- **Adjusting Pressure:** The pressure output is dependent on your household water system. For maximum pressure, ensure your hose spigot is fully open.

MULTI-SCENARIO USE

Video 5.1: Official product video demonstrating the Buyplus Hydro Jet Nozzle Power Washer for Garden Hose in action, showcasing its effectiveness in various cleaning tasks.

6. MAINTENANCE

To ensure the longevity and optimal performance of your pressure washer wand, follow these maintenance guidelines:

- **Cleaning:** After each use, rinse the wand and nozzles with clean water to remove any dirt or debris.
- **Storage:** Store the wand in a dry place, away from direct sunlight and extreme temperatures, to prevent damage and corrosion.
- **Inspection:** Periodically check all connections and O-rings for wear and tear. Replace any damaged parts to maintain a watertight seal.
- **Rust Prevention:** The brass and aluminum components are designed to be rust and corrosion resistant. However, proper drying and storage will further extend their lifespan.

7. TROUBLESHOOTING

If you encounter issues with your Hydro Jet Power Pressure Washer Wand, consider the following:

- **Low Pressure:** This wand does not generate its own pressure. The output pressure is directly dependent on

your household water system's pressure. Ensure your outdoor faucet is fully open.

- **Leaks at Connections:** Check that all hose connections are tightened securely. If leaks persist, ensure O-rings are properly seated and undamaged. Use the provided Teflon tape on threaded connections if needed.
- **Clogged Nozzle:** If the spray is inconsistent or weak, the nozzle may be clogged. Remove the nozzle and rinse it thoroughly to clear any obstructions.

8. SPECIFICATIONS

Feature	Detail
Material	Aluminum, Brass
Item Dimensions (L x W x H)	3 x 4 x 5 inches
Exterior Finish	Stainless Steel
Inlet Connection Size	4 Inches
Inlet Connection Type	Threaded
Outlet Connection Type	Threaded
Number of Ports	2
Outlet Connection Size	0.5 Inches
Item Weight	12.6 ounces
Model Number	Power washer sprayer -18
