1. SAFETY INFORMATION

Please read and understand all instructions before installation and use. Failure to follow these instructions may result in property damage, serious injury, or death.

- **Weight Capacity:** Do not exceed the maximum weight capacity of 17.6 lbs (8 kg) per arm. This mount is designed for monitors between 13 and 27 inches.
- **VESA Compatibility:** Ensure your monitors have VESA mounting patterns of 75x75mm or 100x100mm.
- **Desk Thickness:** Verify your desk thickness is compatible with the chosen mounting method (C-clamp: 0.39-2.36 inches / 10-60mm; Grommet: 0.39-2.56 inches / 10-65mm).
- **Gas Spring Adjustment:** Adjust the gas spring tension ONLY when a monitor is attached to the arm. Failure to do so may cause the arm to spring up rapidly, leading to injury.
- **Assembly:** Some steps may require two people for safe assembly.
- **Maintenance:** Regularly check all screws and connections to ensure they remain tight and secure.

2. PACKAGE CONTENTS

Verify all parts are present and undamaged before proceeding with assembly. If any parts are missing or defective, contact HUANUO customer service.

Part	Description
Main Pole	Vertical support pole for the monitor arms.

Part	Description
Monitor Arms (2)	Gas spring articulating arms for monitor attachment.
VESA Plates (2)	Plates for attaching monitors to the arms (75x75mm/100x100mm).
Mounting Base	Base for attaching the stand to the desk (supports C-clamp and Grommet).
C-Clamp / Grommet Hardware	Components for C-clamp or grommet installation.
Cable Management Clips	Clips to organize cables along the arms and pole.
Tools & Fasteners	Hex keys, screws, and washers for assembly.

Image Description: A person unboxes the HUANUO Dual Monitor Stand, displaying various components including the VESA plates, mounting hardware, cable clips, and the main pole. This image illustrates the comprehensive set of parts included for assembly.

3. SETUP INSTRUCTIONS

Follow these steps carefully to assemble and install your HUANUO Dual Monitor Stand.

1. Choose Mounting Method:

Decide between C-clamp or Grommet mounting based on your desk type and preference. Ensure your desk thickness is within the specified range for the chosen method.

2 Installation Options

C-clamp

Grommet
Mounting

Image Description: This image shows two diagrams illustrating the C-clamp and Grommet mounting options for the monitor stand. The C-clamp is shown gripping the edge of a desk, while the Grommet mounting uses a hole in the desk surface.

2. Assemble the Base:

Attach the main pole to the chosen mounting base (C-clamp or Grommet). Secure all fasteners tightly using the provided tools.

3. Attach VESA Plates to Monitors:

Place your monitor face down on a soft, clean surface. Attach a VESA plate to the back of each monitor using the appropriate screws and washers. Ensure the plate is securely fastened.

Video Description: This video demonstrates the process of attaching the VESA plate to the back of a monitor. It shows how to align the plate with the monitor's mounting holes and secure it with screws, ensuring a stable connection for the monitor arm.

4. Attach Arms to the Pole:

Slide the monitor arms onto the main pole at your desired initial height. Secure them in place with the locking mechanisms.

5. Mount Monitors to Arms:

Carefully slide the monitors (with attached VESA plates) onto the ends of the monitor arms. Ensure they click

securely into place. Tighten any safety screws if provided.

Video Description: This video illustrates the final step of mounting the monitors onto the dual monitor stand arms. It shows how to carefully slide the VESA-mounted monitors onto the arm brackets and secure them, demonstrating the ease of installation.

4. OPERATING INSTRUCTIONS

The HUANUO Dual Monitor Stand offers extensive adjustability for optimal viewing comfort and productivity.

- **Height Adjustment:**

The gas spring arms allow for smooth vertical height adjustment. To adjust, gently push or pull the monitor to the desired height. If the monitor does not stay in place, the gas spring tension may need adjustment (see below).

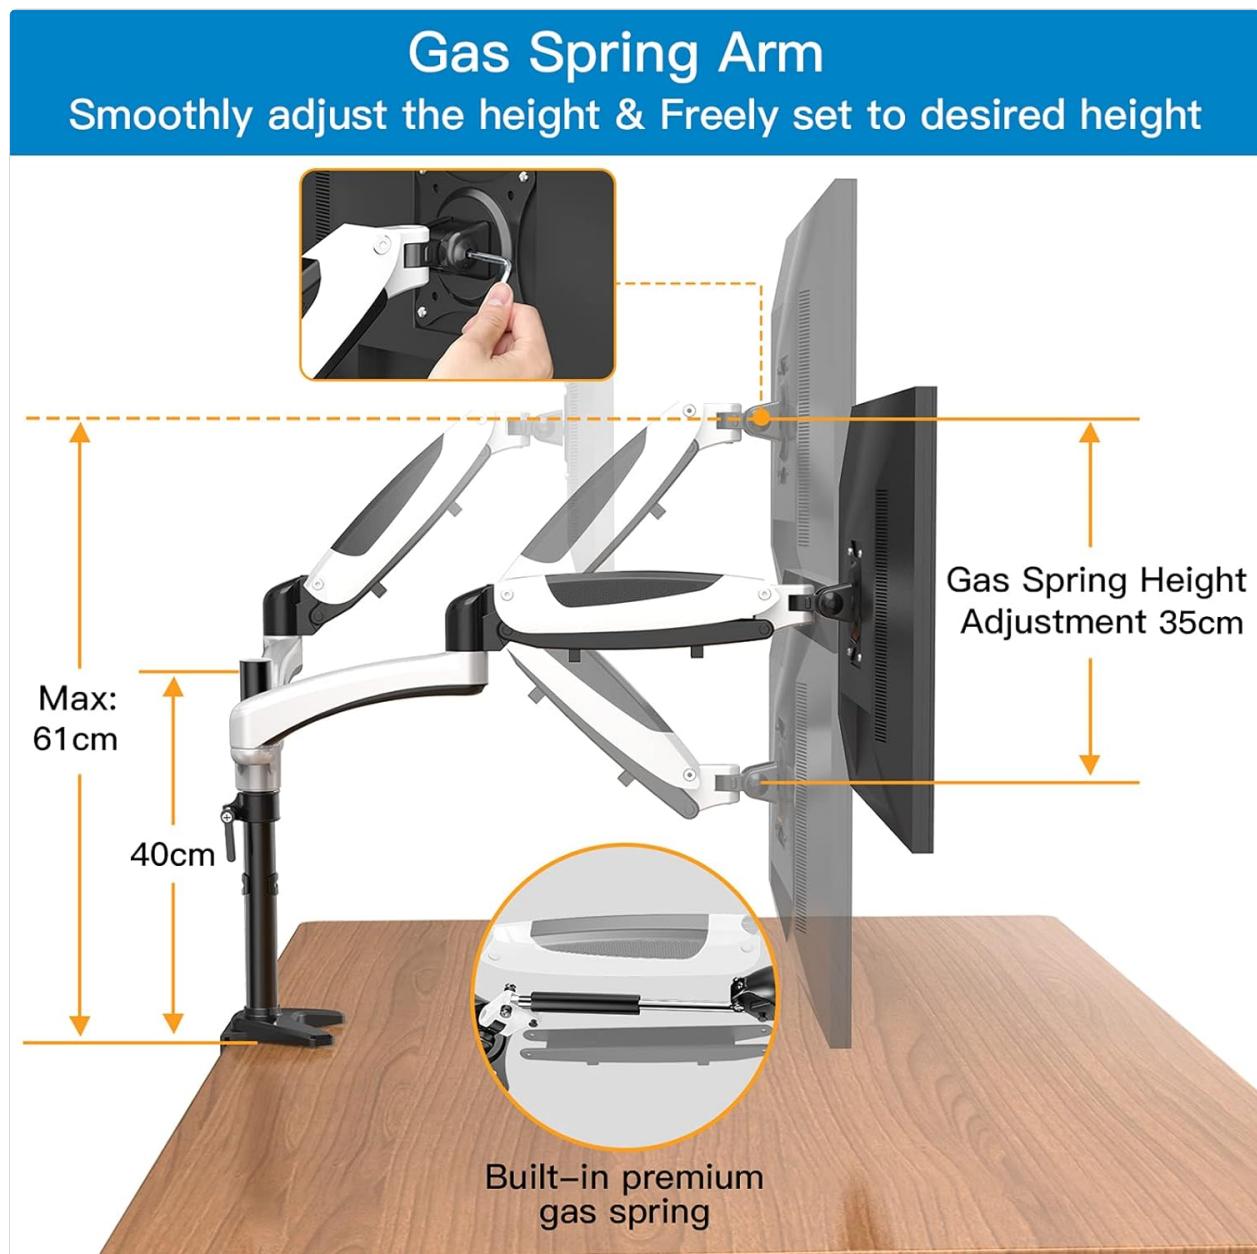

Image Description: This image highlights the gas spring arm mechanism, showing how it allows for smooth and free height adjustment of the monitor. It illustrates the range of vertical movement and the internal gas spring system.

- **Gas Spring Tension Adjustment:**

If the monitor sags or springs up too easily, adjust the gas spring tension. Use the provided hex key to turn the adjustment screw on the arm. Turn clockwise to increase tension (for heavier monitors) or counter-clockwise to decrease tension (for lighter monitors). Adjust gradually until the monitor stays at any desired height.

Video Description: This video demonstrates how to adjust the gas spring arm tension on the HUANUO HN-DSK1 dual monitor mount. It shows the use of a hex key to fine-tune the arm's resistance, ensuring the monitor remains stable at any height.

- **Tilt, Swivel, and Rotation:**

Each monitor can be tilted ($+85^\circ$ - -90°), swiveled ($\pm 90^\circ$), and rotated (360°) to achieve the perfect viewing angle. Simply grasp the edges of the monitor and adjust as needed. The 360° rotation allows for easy switching between landscape and portrait modes.

Full Motion & Customized Screen Angle

Image Description: This image illustrates the full motion capabilities of the monitor stand, including diagrams for 360° swivel, $+85^\circ$ - -90° tilt, and 360° rotation, allowing users to customize their screen angle for optimal viewing.

- **Flexible Arm Extension:**

The articulating arms can extend up to 64cm (25.2 inches) or retract to 41cm (16.1 inches), providing flexibility for various desk depths and viewing distances. This also allows for combining arms for shallow or deep desktop configurations.

Flexible Arm Installation

Perfect for normal and deep desktop

Image Description: This image demonstrates the flexible arm installation, showing two different configurations: one with a maximum extension of 41cm and another with a maximum extension of 64cm, suitable for various desktop setups.

- **Cable Management:**

Utilize the integrated cable management clips along the arms and pole to route and conceal monitor cables, maintaining a tidy and organized workspace.

5. MAINTENANCE

Regular maintenance ensures the longevity and safe operation of your monitor stand.

- **Periodic Checks:** Every few months, check all screws and connections to ensure they are tight. Re-tighten if necessary.
- **Cleaning:** Wipe the stand with a soft, damp cloth. Avoid using abrasive cleaners or solvents that could damage the finish.
- **Gas Spring:** The gas spring is designed for long-term use and generally does not require maintenance. If you notice a significant change in its performance, re-adjust the tension as described in the Operating Instructions.

6. TROUBLESHOOTING

If you encounter any issues, refer to the following common problems and solutions:

Problem	Solution
Monitor sags or does not stay at desired height.	Adjust the gas spring tension. Turn the adjustment screw clockwise to increase tension for heavier monitors.
Monitor springs up too easily.	Adjust the gas spring tension. Turn the adjustment screw counter-clockwise to decrease tension for lighter monitors.
Monitor is wobbly.	Ensure all mounting screws (desk clamp/grommet and VESA plate screws) are securely tightened. Check the stability of your desk surface.
Cannot tilt or swivel monitor.	Check if the tilt/swivel mechanism screws are too tight. Loosen them slightly to allow movement, then re-tighten to hold position.
Cables do not fit in management clips.	Ensure cables are routed individually or in small bundles. Some clips may be designed for specific cable sizes.

7. SPECIFICATIONS

Feature	Detail
Model Number	HN-DSK1-1
Monitor Size Compatibility	13 - 27 inches (flat or curved)
Weight Capacity (per arm)	17.6 lbs (8 kg)
VESA Compatibility	75x75mm, 100x100mm
Mounting Options	C-Clamp, Grommet
Desk Thickness (C-Clamp)	0.39 - 2.36 inches (10 - 60mm)
Desk Thickness (Grommet)	0.39 - 2.56 inches (10 - 65mm)
Tilt Range	+85° to -90°
Swivel Range	±90°
Rotation	360° (Landscape/Portrait)
Material	Metal Aluminium
Color	White (as per product title, though images show black/white)

Feature	Detail
Item Weight	11.68 pounds
Product Dimensions	6.69 x 1.97 x 4.72 inches

8. WARRANTY AND SUPPORT

HUANUO provides a limited warranty for this product. For specific warranty terms, technical support, or to report missing/defective parts, please contact HUANUO customer service directly through their official website or the retailer where the product was purchased.

Please retain your proof of purchase for warranty claims.
