DampRid FGAM86

DampRid Hanging Bag Moisture Absorber User Manual

MODEL: FGAM86

1. Introduction

The DampRid Hanging Bag Moisture Absorber is designed to attract and trap excess moisture from the air, effectively eliminating musty odors and creating fresher, cleaner air in various enclosed spaces. This product utilizes moisture-absorbing crystals to reduce humidity levels, preventing moisture-related issues such as mildew and dampness.

2. Safety Information

WARNING: KEEP OUT OF REACH OF CHILDREN.
CAUTION: EYE IRRITANT. HARMFUL IF SWALLOWED. Read Cautions on Side Label.

- Contains Calcium Chloride. Avoid contact with eyes. Do not take internally.
- Some individuals may be sensitive or allergic to fragrances. If you experience any irritation, discontinue use. If symptoms persist, consult a healthcare professional.
- Do not use in moving vehicles.

First Aid:

- **Eye Contact:** Flush with water for 15 minutes, removing any contact lenses. Get immediate medical attention.
- **If Swallowed:** Drink milk or water. Do not induce vomiting. Get immediate medical attention.
- **If Product Contacts Skin:** Wash with soap and water. If irritation persists, call a physician.
- **If Product Contacts Clothing:** Rinse immediately with water.

3. Setup and Installation

1. **Unpack the Product:** Carefully remove the DampRid Hanging Bag from its carton and discard the clear plastic wrapper.
2. **Prepare for Hanging:** Unfold the bag, ensuring there is enough space for air circulation around it.
3. **Hang in Desired Location:** Place the hanging bag in an area where excess moisture is a concern. The integrated hook allows for easy placement on closet rods, hooks, or other suitable fixtures.

4. Operating Instructions

Once hung, the DampRid Hanging Bag begins to absorb excess moisture from the air. The white crystals in the upper portion of the bag will gradually dissolve as they attract humidity. The absorbed moisture will then collect as liquid in the transparent lower portion of the bag.
Each DampRid Hanging Bag is designed to last up to 60 days, though actual duration may vary depending on the temperature and humidity levels of the environment where it is placed.

5. Maintenance

The DampRid Hanging Bag is a disposable product. When all the white crystals have dissolved and the lower collection bag is full of water, the product has reached the end of its effectiveness.
Disposal: Carefully remove the full bag from its location. Dispose of the entire bag in the trash. Do not attempt to empty or reuse the collected liquid or the bag itself.
Replacement: For continuous moisture control, replace the used bag with a new DampRid Hanging Bag.

6. Troubleshooting

In Case of Spills or Leaks:

If the product is punctured or damaged, leading to a spill of the collected liquid or crystals, follow these steps:

- **On Wet Surfaces:** Blot the area with a damp towel. Wash the towel as usual.
- **On Carpets:** Dry as much of the spill as possible with a damp towel. Wet the spot with cool water and blot dry with a clean towel. Repeat this process as needed. Do not rub the carpet.
- **On Clothing:** Wash the affected clothing with cool water.

Important: The manufacturer is not responsible for leaks caused by misuse or spills. Do not allow the collected liquid to accumulate in the bottom of the bag or on clothes. Do not puncture or remove calcium chloride from the product.

7. Suggested Uses

The DampRid Hanging Bag is effective in various enclosed spaces where excess moisture and musty odors are prevalent. Recommended areas include:

- Clothes Closets
- Bathrooms
- Laundry Rooms
- Garages
- Storage Sheds
- Basements
- Stored Boats
- Recreational Vehicles (stored)
- Second Homes or Beach Houses
