Zinus OLB-RPPBC-14Q

Zinus Therese Metal and Wood Platform Bed, Queen - Instruction Manual

Model: OLB-RPPBC-14Q

IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before assembly and use. Retain this manual for future reference.

- Ensure all parts are present and undamaged before beginning assembly. Do not use if any parts are missing or broken.
- Assemble the bed on a soft, clean surface to prevent scratching.
- Do not overtighten bolts during assembly. Tighten securely but avoid stripping threads.
- Periodically check all connections and re-tighten as necessary to maintain stability.
- This bed frame is designed for use with a mattress. Do not stand or jump on the bed frame.
- Maximum weight capacity: 700 lbs (approximately 317 kg). Do not exceed this limit.
- Keep small parts away from children during assembly to prevent choking hazards.

PACKAGE CONTENTS

Verify that all components listed below are included in your package. Refer to the diagram for visual identification.

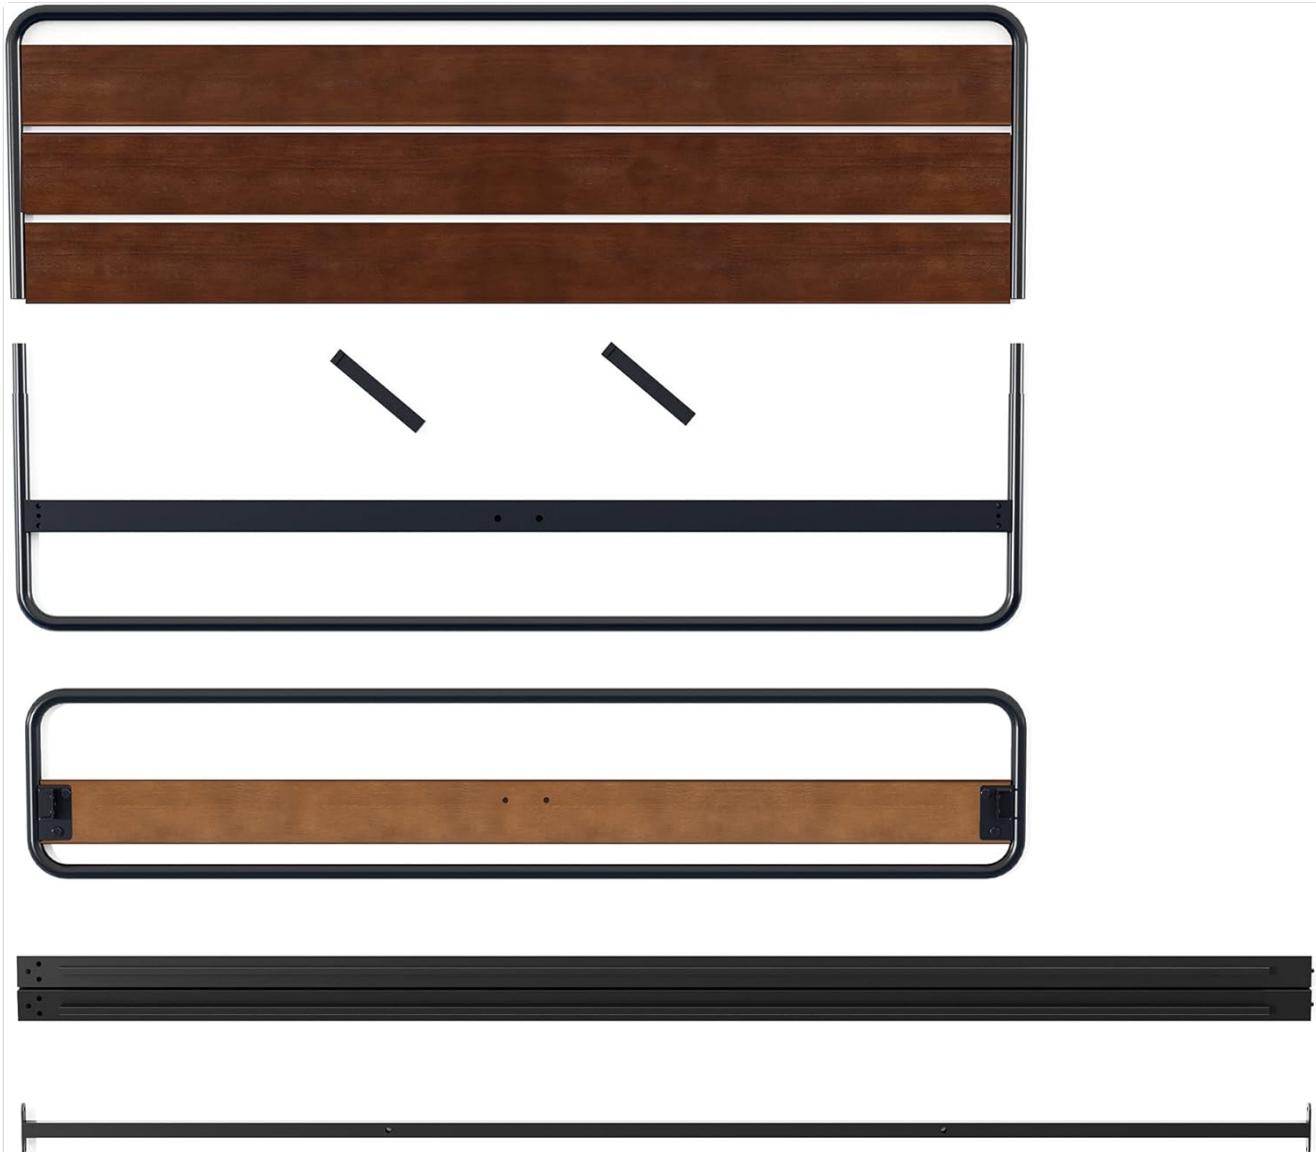

Image: Exploded view of the Zinus Therese bed frame components, showing the headboard, footboard, side rails, center support, and slats separated for assembly.

- Headboard (1)
- Footboard (1)
- Side Rails (2)
- Center Support Beam (1)
- Wood Slats (Multiple)
- Hardware Pack (Bolts, Washers, Allen Wrench/Ratchet Tool)

SETUP INSTRUCTIONS

Follow these steps for proper assembly of your Zinus Therese Platform Bed.

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a soft, clean surface to prevent damage. Identify each component using the "Package Contents" section.
2. **Attach Side Rails to Headboard:** Align the side rails with the pre-drilled holes on the headboard. Insert the appropriate bolts and washers, then hand-tighten.
3. **Attach Side Rails to Footboard:** Repeat the previous step to attach the other end of the side rails to the footboard. Ensure all connections are secure but do not fully tighten yet.

4. **Install Center Support Beam:** Connect the center support beam to the designated brackets on the headboard and footboard. Secure with bolts and washers.
5. **Tighten All Bolts:** Once the main frame is assembled, use the provided ratchet tool to fully tighten all bolts. Ensure all connections are firm and stable.
6. **Place Wood Slats:** Unroll or place the wood slats across the side rails. The slats are designed with non-slip tape to prevent mattress movement and foam padded tape for noise reduction. Ensure they are evenly spaced and secured if applicable.

OPERATING INSTRUCTIONS

Once assembled, your Zinus Therese Platform Bed is ready for use.

- **Mattress Placement:** Carefully place your mattress directly onto the wood slats. No box spring is required for this platform bed.
- **Noise Reduction:** The bed frame features foam padded tape on the steel frame and non-slip tape on the wooden slats. These features are designed to minimize noise and prevent mattress movement.
- **Weight Distribution:** Ensure weight is distributed evenly across the bed surface to maintain structural integrity and prevent damage.

MAINTENANCE

Regular maintenance will help prolong the life and performance of your bed frame.

- **Bolt Check:** Periodically (e.g., every 3-6 months), check all assembly bolts and re-tighten them if they have loosened. This helps prevent squeaking and maintains stability.
- **Cleaning Metal Parts:** Wipe metal surfaces with a soft, damp cloth. Avoid abrasive cleaners that may damage the finish.
- **Cleaning Wood Parts:** Wipe wood surfaces with a soft, dry, or slightly damp cloth. Avoid excessive moisture.
- **Inspection:** Inspect the wood slats for any signs of wear or damage. Replace if necessary.

TROUBLESHOOTING

Common issues and their solutions.

- **Squeaking Noises:**

- Ensure all bolts are securely tightened. Loose connections are a common cause of squeaking.
- Verify that the foam padded tape on the steel frame is intact and properly positioned.
- Check if the mattress is rubbing against the frame. Adjust its position if needed.

- **Mattress Sliding:**

- Confirm that the non-slip tape on the wooden slats is present and making contact with the mattress.
- Consider adding additional non-slip pads between the mattress and slats if sliding persists.

- **Missing or Damaged Parts:**

- If you find any parts missing or damaged upon opening the package, do not proceed with assembly.
- Contact Zinus customer support immediately for assistance and replacement parts.

SPECIFICATIONS

Detailed specifications for the Zinus Therese Metal and Wood Platform Bed (Queen).

Dimension & Capacity
